elopment of a unique activity, the pur some of which is to satisfy public curios. ity regarding men and women who are preminent in one or another of the connicuous walks of life. This particularly un-to-date vocation might be denominatcorpolatting" of celebrities, which means he making of instantaneous photographs of the people who are temporarily or permanently in the millie eye and whose personal appearance is consemently a matter of interest to the people of all parts

New newscaper readers who take delight in the mass of pictures spread nowadays over every printed page, ever stop to reflect what a comparatively short time ago it was that first saw such embellishto ne of the chronicle of the day's happenings. Most of our readers can doubtless remember distinctly the time when pictures were unknown in their favorite newspeper, and even after crude cuts began to make their appearance in the advertising columns of the weeklies and later in the dailies, it was a long lanse ere the pictures were to be found in the reading columns and a yet longer time before the reader ame to expect not mere scenic subjects but graphic pictures of the current happenings of the busy world.

The vocation of snap-shotting celebrities has been the outgrowth-the very latest outgrowth, it might be termed of the practise of recording in picture as well as in story the doings of all the world. When the newspaper reading public came to expect the cuick reflection in picture form of great happen-

trated many a time during the colonel's trip through the him, and a number of the in a city. press correspondents also carried cameras, and often it was a wild race for them to keep up with Mr. Roosevelt and be on hand at the time when the good "human interest" pictures were to be had. Whenever Colonel Roosevelt appeared, unless the po-

BALL INTO THE FIELD FOR A SOCIETY BALL

lice arrangements prevented, he was at once surrounded by a cheering crowd, every man, weman and child of which was trying to get close enough to grasp his hand or at least to say "Hello, Teddy." At such times a snap-shot usually vielded only a mass of heads and backs surrounding a set of gleaming teeth. If Mr. Roosevelt was carefully guarded by police or soldiers, as was the case in some cities, the task of the photographer was almost as difficult, for the "coppers" and deputy sheriffs of

SNAP SHOT OF THE BRITISH AMBASSADOR

AND MRS. JAMES BRYCE

switched his tall in their faces.

SECRETARY OF STATE KNOX, BARON HENGELMULLER, JUSTICE HOLMES AND 000 JOHN BARRETT.

ings all over the world it speedily progressed from interest in places and things to cariosity regarding the actual appearance of the people regarding whose points the papers had much to say. It was not enough that the newspapers should print as a counterfeit presentment of this or that public man a car fully posed bust portrait, touched up to show the

subject as he wanted to appear rather than as to dodge the glass eve pointed toward him. In be actually did appear. Newspaper readers with a thirst for accurate information came to demand pictures that would show the subjects as they actually appeared. Moreover, they wanted not a commontalace bust photo, but a full-length picture that would represent its object as he would appear to one who met him on the street and with a hint as to his distinctive characteristics as to dress, etc. From this demand was born the personal "snap shot."

Nowadays the snap shot is to a large extent displacing the stereotyped visage in the public prints. Almost everybody who achieves fame or notoriety must must needs fall victims to the sharp-shooters of the camera. The snap-shotter is no respecter of persons or callings so long as "human interest" is present, and everybody, from preachers to pugilists and from statesmen to suffragists, is the quarry of the camera scout at me time or another. Some of the people who are snap-shotted manifestly relish it; a great number accept it as a matter of course and a minority ariggle and squirm and even fight at sight of a camera. Conspicuous among the latter are Harry Lehr, the Newport society pet of monkey dinner fame, and J. Pierpont Morgan, the financler. It must be admitted that the father of trusts does not make a pretty picture when taken unawares and he evidently realizes this, for he is usually guarded by several private detectives when he appears in public and carries a cane which he is quick to use on any offending camera that he can reach.

Public officials, headed by the president of the United States, are usually the most satisfactory subjects for saap-shots because, whatever may be their natural inclination in the matter, they guickly learn to submit gracefully to this sort of attention. A leading statesman or army or havy official who realizes that at public functions he is liable to be continually in the camera eves likely to instinctively avoid those awkward attitudes and facial grimaces that sometimes spoil things in the case of a celebrity who is new to the game and self-conscious in consequence, From the standpoint of the snap-shotters perhaps the most satisfactory subjects in this country are the diplomats at Washington-that is, the alien officials who are stationed at our sent of government as the ambassadors or ministers of foreign powers. For one thing, these titled foreigners are passessed of gorgeous uniforms that show up well in unconventional pictures, and then again they are accustomed to being constantly on dress

The snap-shofter must "quick on the trigger" and he cultivates ability in this direction almost as carriestly as the gun fighter of the west did in the old days. The newspaper snap-shots are made by means of special cameras made specially for the purpose, and costing as much as \$250 apiece. Only a fraction of a second is required. of course, to make a snap-shot, once the lens is focused upon a celebrity in a desired position, but the uncertainty lies in the fact that the celebrity is saldom actually posing for his picture. Mere han likely he tray but realize that he is being

any event quick action is necessary at the critical moment if the subject sought is to be caught ere he moves away, turns his head or otherwise spoils the picture. Indeed the snap-shotter who would "catch on the wing" such restless spirits as Coloael Roosevelt must develop a sort of sixth sense that will enable him to anticipate with reaschable certainty the future moves of his subject.

No other American of the day is so much photographed as is Colonel Roosevelt, and yet he is by no means an easy subject for good pictures. It is not that he objects to the operation; indeed, he seems to utterly ignore the cameras that are pointed at him a dozen times a day. But the colonel is one of the most active and sudden of men, and the snap-shotter must be on the alert every minute of the time or he loses the golden opportunity to catch the ex-president at the "psychological moment." This was admirably Illus-

### ENTERTAINING THE BLIND.

"In these days of specialists you can't just step out and help your fellow humans in haphazard fashion," said the matron on an institution for the blind. "You have to take a course of training before you can even do good in the world. In this position the task that requires most diplomacy is declining the services of people who offer to entertain the blind. All sorts of incompetents volunteer. Their intentions are good, but their achievements are deplorable. Poor readers are most numerous and are hardest to manage. They have had no practise in reading aloud since they left the lower grades in the grammar school, yet when the fires of benevolence break out that

is the first thing they want to do. "The blind are particularly sensitive to the quality of a voice. A harsh, high pitched voice that rambles on without rhyme or reason gets on their nerves, and it is our duty to shut out all such readers. They have to be handled with care because their hearts are in the right place. and with tact their good intentions may be deflected into some useful channel."

KING'S BEARD MODEL FOR ENGLISHMEN. Beards are at present the order of the day

among London's fashionable "men-about-town." In remarking about the prevalence of facial hirsute adornments, a prominent hairdresser said: "One would not have thought that the coming of King George to the throne would have made much difference to the fashion of current hairdressing, in view of the fact that his father wore a beard for so many years, but I can assure you it has, and a very great difference at that,

"In all probability the present fashion of the point beard is due in a great measure to so young a man affecting one. I have been told that there was a great rage for beards among 'men-abouttown' when King Edward first grew a beard many

"In my opinion the average Englishman is tremendously imitative. The style of beard cession many of the younger men in the service of natives, and had perforce to be content with aught by the camera or mayhap may be trying have started to grow them."

stooping low; next, the men with the larger hand cameras, and in the rear the local artists, who had big machines on high tripods. It was in truth a comical sight, but the colonel did not seem to mind it a bit, and went on eating and talking with the utmost enthusiasm. The visit to Cheyenne, of course, gave the snapshotters their best chances for picturesque views, for there the colonel could be caught almost any time shaking bands with the cowboys, cowgirls and gaudily painted Indians, or applauding the work

amusing scenes of the trip was witnessed. The

Press club gave a "chuck-wagon" luncheon to the

colonel in a park. "Here," said the camera men,

for a bit of meat or put a mersel of feed into his

mouth there was a perfect fuslilade of clicks from

the cameras that surrounded him. The photog-

raphers were ranged in a triple ring about the

of the broncho-busters. There is a Chicago newspaper man who once had the unique experience of being the only person with a camera present at the coronation of a king. The monarch in question was Mataafa, who had been elected king of Samoa by a majority of the inhabitants of those delectable islands in 1898. His reign, to be sure, lasted but a few months, for after a gallant struggle he was most unjustly deposed by the Americans and British, who thereupon partitioned the islands with Germany. The performance took place in the open, but the king and the chiefs who anointed him were not to be approached within some fifty yards. So rigid is Sa-King George wears is appropriately named the moan eliquette that the one man with the camera "torpedo" in the navy, and since the king's ac- did not dare to break through the surrounding ring

### NEWSPAPERS TAKING IT UP

Metropolitan Dailles Giving Advice How to Check Rheumatism and Kidney Trouble.

This is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of Rheumatism and dread kidney trouble which have made so many cripples, invalids and weaklings of some of our brightest and strongest people. The druggists everywhere, even in

the smallest communities, have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce, and Compound Syrup of Sarsaparilla, three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments in hospital cases prove this simple mixture efctive in Rheumatism. Becau its positive action upon the eliminative tissues of the kidneys, it compels these most vital organs to filter from the blood and system the waste imcause of rheumatism. It cleanses the moves quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful scalding and discolored urine. It acts as a gentle, thorough regulator to the entire kidney structure.

Those who suffer and are accustomed to purchase a bottle of medicine should not let a little incomvenience interfere with making this up, or have your druggist do R for you
