In a letter to Governor Eberhart, of Minnesota, declining with thanks the offer of a site for a presidential summer home at Wayzata, on Lake Minnetonka, the president explained that congress alone had the authority to designate an official summer white house.

William Jennings Bryan, during a brief stay in Washington held a conference with Representative Burton Harrison, of New York, Representative Hammill, of New Jersey, and about 20 other politicians. The participants in the conference would not discuss its purpose.

BENATORS WILL HAVE TO STAND AND BE COUNTED.

Senator Stone Will Lead in the Fight to Put Through the House Tariff

Schedules.

Washington. - Senate republicans are to be compelled to go on record on every phase of the tariff that is acted upon by the house, if democrats are able to bring this about. It is not likely they will be compelled to vote on other schedules than those which the house revises, but it is certain at least they can not evade record votes on the schedules the houses passes

on and sends up. Senate insurgents fought hard for the lowering of duties two years ago. and some of the democratic senators intend to see now whether they will adhere to the same views.

Senator Stone of Missouri will lead in the fight to put through the upper house the tariff schedules that are revised in the house. He will not, without a contest, permit the finance committee to bottle up these measures. He will move to discharge the finance committee from consideration of each one of the bills that it tries to bottle up. This will precipitate a long debate on each.

The house has passed the reciprocity measure and the free list bill. It will pass a bill to reduce woolen duties. It is not likely to do more than this, though there has been some talk of cotton being taken up.

The free list bill is now in the finance committee, and that committee purposes to keep it there. The wool bill in due time will be sent to the same committee and be pigeonholed.

Senator Stone will move to discharge the committee from consideration of each of these bills. The resulting struggle may prolong the session greatly, it may be into August, or even September.

Stone and other democrats intend to 'put it up to" the insurgents. They purpose to do this especially on the wool schedule. They intend to represent to the country that the democratic bill for a revision of the wool schedule is substantially what Doliver and other senate insurgents contended for in 1900 and, if the insurgents refuse to support it, then they will assail the insurgents for inconsistency and cowardice.

It is certain, however, that some of the insurgents, both in the house and senate are going to support the democratic bill revising the wool and wool- set of recommendations will follow in en duties. Just how many will do so its wake. is unsettled.

WESTERN CANADA BEYOND THE PIONEER STAGE

Liberty-Loving People Have All the Liberty the Heart Can Desire Under Canadian Laws.

The New York Commercial of April 19th contained an interesting article on conditions in Western Canada. The following extracts will prove instructive reading to those who contemplate moving to Canada. The writer speaks of land at \$8 to \$18 an acre. As a matter of fact, there is very little land that can be had now at less than \$18 per acre, but when one considers the productive qualifies of years' time there will be little availfourth anniversary of their marriage. an acre. Already the free grant

A recent publication, issued by the Department of the Interior, Ottawa, Canada, and which is forwarded free to applicants by mail by any of the Canadian government agents throughout the United States, says

Water is always abundant, wood and fuel are plentiful and the soil that can grow the poplar and the willow as well as the rich grasses that are to be found there can be relied upon to produce all the small varieties of grain with equal success. The New York Commercial article referred to deals more particularly with conditions along the line of the Grand Trunk Pacific, but what is said of one line of railway may with truth be said of the land and the conditions along both the Canadian Northern

This is not an extravagant statement. In natural fertility these lands fully equal those grain crops now grown of wheat, oats, prepared. Eighty per cent, of the land will grow clover and alfalfa. In this regard Western Canada has a system God's goodness, the passover. This of education based upon the best that should have been celebrated in the garden? can be obtained from the United States or Eastern Canada. Its school system and regulations are second to none. Every boy or girl has a school house brought to his or her doorway. The government is most liberal in its support of higher education. In Winnipeg. Saskatoon and Edmonton are to be found excellent colleges and universities, so that the problem of higher education is solved. The provincial agricultural schools, located at Winnipeg and Saskatoon, give practical courses in scientific farming, preparing graduates to take up

the responsibilities of farm life. "The newcomer settling in this favored section will find the social conditions far beyond a pioneer stage. He will find helps on every hand. Instead of his going to the 'jumping-off place,' as is often supposed when thinking of Western Canada, he will find himself surrounded by wonderful opportunities for social advancement in a new country fraught with prom-

But there must have been reasons back of these seeming contradictions. In Hezekiah's case one may have been his mother, Abijah the daughter (or granddaughter) of Zechariah. Twenty-nine Zechariahs are mentioned in the Bible. This was not the author of the book of prophecy, but may have been the prophet who had so much influence over King Uzziah.

Hezekiah did that which was right in the eyes of the Lord. God's approval is the only wise goal for a king a president or the humblest citizen It is the fatal defect in most forms of government that this over-rule of God is ignored.

Hezekiah began his reign by doing the thing that plainly needed most to be done first. He found the Temple, the sacred meeting place of God and man, with its doors closed by Ahaz, its lamps out, its altars cold, its floors and hangings covered with dust and dirt. Therefore the young king summoned the priests and Levites to the court on the east of the Temple opposite the closed porch or entrance, and in a frank and noble address detional woes had their origin in a neglect of the worship of Jehovah, and say that practically all the land along his determination to make a new covthe entire distance traversed by the enant with the Lord. Their new ardor for Jehovah blazed out in a burning indignation against the foul idols which they had been worshiping.
