Timkim Roller-Bearing Throughout

There are only four standard-make trucks on which Timkim roller bearing are not used. If Timkin bearings are good for trucks hauling three or four tons they certainly are good for your family touring car. The REO is the only \$1250 car in America with Timkim bearings. Almost all high-priced cars, such as the Pierce-Arrow, Locomobile, Strndard-Dayton, etc., use them just where the the REO does.

Better investigate the bearing system before you buy a car. Therein lies one of the vitally essential features of a good car.
