FACES THE CHOLERA

Wife of Husband, Drafted for the War, Looked With Disfavor on Proffered Substitute.

GOTHAM IN MIDST OF A THREATENED INVASION.

FIFTEEN CASES IN HOSPITAL.

Public Charges Made Against Health Officers Duty of Allowing Employees to Endanger Health.

New York.—Although the cholera situation at quarantine is at present regarded by Dr. Alvah H. Doty, health officer of the port, as being well in hand he did not conceal his apprehension that New York is "in the very midst of a threatened invasion of cholera."

"The quarantine department of every port in this country is facing a very serious and onerous task during the summer," said Dr. Doty, "and it is not improbable that many vessels arriving from Italy in the next few weeks will bring one or more cases of the disease."

Today's official report of the situation shows there are fifteen cases in Swinburn Island hospital, and four cases symptomatic of the disease. Within twenty-four hours one more victim has died. The steamer Perugia has been detained and the medical staff is preparing to make bacteriological examination of the 234 persons from the steamer Moltke who are now under observation.

It is possible Governor Dix will be called upon to take charge at quarantine. Charles Dushkin, attorney for the immigrants, whose charges against Dr. Doty are being investigated by a commission, made public a letter he wrote to Judge Bulger of the commission, suggesting the latter call upon Governor Dix to take charge of the health officer's department.

In a statement in reply to an interview attributed by a morning paper to Judge Bulger, Dr. Doty reviewed the situation and pointed to the element of danger.

"The statements attributed to Judge Bulger," Dr. Doty says, "are calculated to alarm the people in the midst of a threatened invasion of cholera that I feel justified in making a reply."

"What can Dr. Doty, health officer of the port, mean when he allows five men who have been in daily contact with persons suffering from Asiatic cholera to come here in the same clothes they were when among the cholera victims and touch elbows with everybody they meet?" is the question propounded by Judge Bulger in the interview.

"The facts are these: The five men referred to were called as witnesses by the persons in charge of the investigation and were permitted by me to be absent from duty at Hoffman island for this purpose. Cholera is not transmitted by clothing or by the air, but by actual contact through the mouth with discharges from the intestinal tract of the cholera victims. There is, therefore, no danger whatever from contact with a person who has been in the presence of the disease."

ADJOURNMENT IN SIGHT. All Legislative Paths Lead to Speedy Close of Congress.

Washington.—All legislative paths now lead to speedy adjournment of congress after the vote on the Arizona-New Mexico statehood bill is taken in the senate on the legislative day of August 7. The senate will be ready then, in all probability, despite the general tariff revision threat of Senator Cummins of Iowa and other insurgents, and the house will not later propose any fresh legislation to distract the senate's program for winding up the extra session.

Only six days remain before the final vote is reached upon the Canadian reciprocity bill in the senate. Its passage by a two-thirds vote of the senate is confidently predicted by senate leaders who have seen many important amendments voted down in the last few days by majorities larger than they had ventured to hope for.

Senator's Wife Burned. Lynchburg, Va.—Funeral services for Mrs. Narcissa Chisholm Owen, mother of United States Senator Owen of Oklahoma and Major O. S. Owen, U. S. A., retired, of Washington, were held Sunday in St. Paul's Episcopal church and in Springhill cemetery.

Mars is Recovering. Erie, Pa.—J. C. (Bud) Mars, who was hurt when he fell with his aeroplane here last Friday, is rapidly recovering. He sat up for several hours Sunday, and as he is now out of danger, it is expected will be able to leave the hospital in another week.

Flyer Jumps the Track. Bradford, Pa.—The Rochester and Buffalo flyer on the Rochester & Pittsburgh railroad, went into the ditch Sunday afternoon, while running on a straightaway track and seven of the seventeen passengers were injured. The wheels of the tender left the rails and the cars followed, careening against an embankment which prevented their turning over. The passengers, after medical attention, were sent on their journey on a special train. Officials of the road are unable to explain the cause of the wreck.

Postal Depositories. Washington.—Postmaster General Hitchcock designed the main postoffices in New York, Chicago, Boston and St. Louis as postal savings depositories. They will begin to receive deposits August 1.

Nebraskan Suicides in Iowa. Centerville, Ia.—Discouraged and sick Robert Fuller, a traveling man for an Omaha women's outfitting firm, ended his life at the home of his parents at Unionville by drinking carbolic acid.

NOT FOR MRS. PILKINSON

Wife of Husband, Drafted for the War, Looked With Disfavor on Proffered Substitute.

Mr. Pilkinson, a small farmer in Pennsylvania, was drafted for the services of his country during the Civil war. His wife, though she possessed but a small stock of information, was one of the best conjugal partners, and she was much troubled at the thought of parting with her husband. As she was engaged in scrubbing off her doorsteps, a rough looking stranger came up and thus addressed her:

"I hear, ma'am, that your husband has been drafted."

"Yes, sir, he has," answered Mrs. Pilkinson, "though, dear knows, there's few men that couldn't better be spared from their families."

"Well, ma'am, I've come to offer myself as a substitute for him."

"A what?" asked Mrs. Pilkinson, with some excitement.

"I'm willing to take his place," said the stranger.

"You take the place of my husband, you wretch! I'll teach you to insult a distressed woman that way, you vagabond," cried Mrs. Pilkinson, as she discharged the dirty sopsuds in the face of the discomfited and astonished substitute, who took to his heels just in time to escape having his head broken by the bucket.

IN AGONY WITH ITCHING

"About four years ago I broke out with sores on my arms like boils. After two months they were all over my body, some coming, and some going away. In about six months the boils quit, but my arms, neck and body broke out with an itching, burning rash. It would burn and itch, and come out in pimples like grains of wheat. I was in a terrible condition; I could not sleep or rest. Parts of my flesh were raw, and I could scarcely bear my clothes on. I could not lie in bed in any position and rest. In about a year the sores extended down to my feet. Then I suffered agony with the burning, itching sores. I could hardly walk and for a long time I could not put on socks."

"All this time I was trying everything I could hear of, and had the skill of three doctors. They said it was eczema. I got no benefit from all this. I was nearly torn out, and had given up in despair of ever being cured when I was advised by a friend to try Cuticura Remedies. I purchased Cuticura Soap, Ointment, and Resolvent, and used exactly as directed. I used the Cuticura Remedies constantly for four months, and nothing else, and was perfectly cured. It is now a year, and I have not had the least bit since. I am ready to praise the Cuticura Remedies at any time. (Signed) E. L. Cate, Exile, Ky., Nov. 10, 1910.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a sample of each, with 25-page book, will be mailed free on application to "Cuticura," Dept. 21, K Boston.

THE MARTYR.

Polly—So Mrs. Highmore's husband has developed bad habits. How did you hear about it?

Dolly—Oh, Mrs. Highmore invited us all to an afternoon tea so she could tell us how she suffered in silence!

The Summer Toast. In all her business life the bit of work she is now completing has been most pleasant, says the free lance stenographer.

"I have been typewriting tons on paper napkins," she said. "A society of club women who have planned to do a lot of outdoor entertaining this summer expect to use thousands of paper napkins, and I have had the job of typewriting a toast on each napkin. It is a pretty idea, and I tried to meet the charming sentiment of the ladies half way by using a good non-copying ink, but in spite of that precaution I am afraid that many a guest will leave the lunch table with a purple ink smudge on her face."

Liked It Dull. "How do you find things, my man?" "Very dull, I'm glad to say." "Glad? Why?" "I'm a knife grinder."

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering will be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

50,000 NEEDED TO HARVEST WESTERN CANADA'S CROP

Will Take 160,000 Altogether to Take Care of Yield of Prairie Provinces.

One hundred and sixty-two thousand farm hands will be required this year to harvest the grain crops of Manitoba, Saskatchewan and Alberta. Of these about the local help will provide about 112,000, which will leave about 50,000 extra farm hands. There is, therefore, a great demand for this class of laborers in all parts of Western Canada. In order to meet the requirements it has been arranged to grant very low railway rates from all boundary points reached by Canadian railways. In order to secure these rates it will be necessary for you to call on one of the following authorized agents of the Canadian government:

M. V. McInnes, 176 Jefferson Avenue, Detroit, Michigan; C. A. Laurier, Marquette, Michigan; J. S. Crawford, Syracuse, N. Y.; Thos. Hetherington, Room 202, 73 Tremont Street, Boston, Mass.; H. M. Williams, 413 Gardner Bldg., Toledo, Ohio; Geo. Alder, 216 Traction-Terminal Bldg., Indianapolis, Indiana; C. J. Broughton, Room 412 Merchants' Loan & Trust Bldg., Chicago, Ill.; Geo. A. Hall, 2nd Floor, 125 Second Street, Milwaukee, Wis.; E. T. Holmes, 315 Jackson Street, St. Paul, Minn.; Chas. Pilling, Clifford Block, Grand Forks, N. D.; Mac Lachlan, Box 197, Watertown, S. D.; W. V. Bennett, Room 4, Bee Bldg., Omaha, Neb.; W. H. Rogers, 125 West 9th Street, Kansas City, Mo.; Ben. Davies, Street 6, Dunn Block, Great Falls, Montana; J. B. Carbonneau, Jr., 217 Main Street, Jeddore, Me.; J. N. Grieve, Auditorium Building, Spokane, Wash.

This will give to intending harvest laborers a splendid opportunity to look over the magnificent wheat fields of Western Canada and will give them the best evidence that can be secured of the splendid character of that country from the farmer's standpoint. There will be at least 200,000,000 bushels of wheat harvested within the area of the three provinces above named this year and it is expected that the yield will run from 15 to 25 bushels per acre. Many farmers, this year, will not, as a result of their labors, as much as \$5 to \$10 per acre and many of them will deposit as profits as much as \$8,000 to \$10,000.

The wide publicity that has been given to the excellent crop that is being raised in central Alberta and southern Alberta, central Saskatchewan and southern Saskatchewan, and also in Manitoba, will increase the price of lands in these three provinces from \$5 to \$5 per acre and the man who was fortunate enough to secure lands at from \$12 to \$20 per acre will have reason for gratification that he exercised sufficient forethought to invest, while the man who was fortunate enough to secure a homestead of 160 acres free will also have a greater reason to feel pleased.

Notwithstanding the great addition to the acreage this year over last and the large crop that will be ready for harvest there is no reason to become alarmed that the harvest will not be reaped successfully. There will be a great demand for these low rates during the next couple of months; be sure to make your application to any of the agents above mentioned that may be in your territory at as early a date as possible. Harvesting will commence about the 25th of July and continue for five or six weeks, when threshing will begin and there will be plenty of work until November.

The body of Gus Herbolom was found in the granary on his farm, three miles south-east of Osceola by neighbors who had been hunting for him for some time. He had climbed the stairs leading up the outside and tied a rope around his neck having been hanging for two or three hours when found.

Because the supply of grain and livestock in Dodge county is at the lowest ebb reached in several years the valuation of personal property in the rural districts, as shown by the annual report of County Assessor Henry Oberman to the state board of equalization, is lower by many thousand dollars than last year.

O. Peterson, a bachelor ranchman living near Harrisburg, set a trap to catch the chief who had been pilfering from his home during his absence and Sam Benson, a 15-year-old boy who walked into it, is dead. Peterson arranged a gun inside the door with a string attached to the trigger and so pointed that any one entering the house would receive the charge.

Dr. W. D. Gibbons and Postmaster Joel Eaton of Lorton, fourteen miles southwest of Nebraska City, were severely and perhaps fatally injured in an auto accident two and one-half miles from Nebraska City while they were returning to their homes. The machine was running at a high rate of speed when the driver lost control and it ran into a roadside hedge turning turtle forty yards from the road.

A novel incident happened at Ravenna. Ralph Herrick, a small boy, went fishing in Beaver creek near the Burlington bridge, accompanied by his constant companion, a superannuated and almost toothless bird dog. The boy hooked an eight-pound catfish, and after quite a tussle had it near the bank in the shallow water. The old bird dog jumped into the water, seized the fish and dragged it up on dry land.

Over 100 applications for pardon or parole are on file with the state pardon board. The board has so far used a day for hearing each case. The expense per case is \$60. The cost of hearing 100 cases at this rate will be \$6,000, whereas the appropriation for the board for the biennium is only \$1,000. After the appropriation is exhausted, it is expected that the board will expedite its work, possibly hearing two or three cases in the course of a day.

A pioneer minister of Nebraska, the Rev. Edward J. Robinson, died at his home in Sheridan, Wyo. Two weeks ago he suffered a slight stroke of paralysis, and from that time failed rapidly. Mr. Robinson was born near Schenectady, N. Y., September 13, 1835. He came with his family to Nebraska in 1879 and began the establishment of a home on a farm in Sarpy county.

Spontaneous combustion was the cause alleged to have started a fire in a bank car standing in the Missouri Pacific yards in Plattsmouth, which consumed it and another which was partly loaded with cement. A gang of Italians occupied the car, but on account of the extreme heat they had transferred their sleeping quarters to the freight house platform and were not in the car at the time of the starting of the fire.

State Engineer Price is of the opinion that a few irrigation ditches will have to be shut down before the summer is over. Lack of water in a few instances will compel the shutting off of the supply of some of the later appropriations of water from the North Platte river.
