State Fair Item.
The continuous "Best Agricultural Exhibit shown at any fair in the United States" bids fair to again enjoy that distinction at Lincoln September 4th to 8th. Over \$4,000.00 was paid out on agricultural exhibits at the 1910 Fair and a greater premium list is offered this year. The feature of this department is the County Collective Exhibits—each of the Eastern Central and Western portions of the state competing against that particular section, so that no unjust competition on account of climatic conditions or altitude has to be met. Mr. William James of Dorchester, who has made such a success of this department in the past, is again the superintendent for the fair 1911. Make your County Collective entry direct to him.

circus has always been the most popular of road amusements. In New York it is considered the pattern of circus excellence. Its metropolitan home is the Madison Square Garden. This is the biggest building in America devoted to amusements, yet the various departments of this circus fill every nook and corner of it from the expansive basement menagerie halls to the great glass dome. The two performances in this city will be exactly the same as those given during the opening engagement of the spring. The name of this circus is a trade mark that represents all that is big and great in tented amusements.

Underwood Standard Typewriter

A LEADER

The principal of construction in the Underwood was found first in the Underwood, and every typewriter seeking business in the same field with the Underwood which has been put on the market since the advent of the Underwood, has been an imitation of, and in general appearance like, the Underwood.

The last "Blind" advocates of importance have now fallen into line, and there is not to-day a single "blind-writing" typewriter actively on this market. Recall all the arguments you have heard in past years by Underwood opposition, and you will realize what an advance agent of progress the Underwood has been; then bear in mind that the Underwood was the first fully "visible," has had time to develop and improve, and is to-day the most perfect typewriter made.
