IT IS UP TO TAFT

DEMOCRATS WANT TO LEAVE RESPONSIBILITY WITH HIM.

TARIFF SITUATION IS UNUSUAL

Farmers Free List Bill Will Be Reported in the Senate Tuesday or Wednesday.

Washington.—General tariff legislation at this session of congress, so as to leave the responsibility for any delay in tariff revision squarely upon the president, is the slogan of the democratic-progressive coalition in the senate and the democrats in the house. The president is credited with being as determined as ever to veto any tariff bill passed by congress prior to the submission of the report of the tariff board to congress at the regular session in December. Mean time the democrats, continuing to press their revision measures, are wondering what the president will do when the wool bill, emerging from conference with lower duties than the La Follette final compromise goes to the White House for approval or veto.

It is the most remarkable situation with respect to tariff legislation that has arisen in a long period. Despite the apparently authoritative declarations that the president will refuse to place his approval on the tariff bills of the democrats, even Speaker Clark, still express the opinion that the president may yet approve revision legislation. The democratic leaders, encouraged by the effective results of the combination of their party with the insurgent republicans in the senate, are becoming more confident that the tariff schedules passed by the house will go through the senate in some form.

This is the way the government outlook stands: The wool revision will be in conference early in the week. A compromise measure on the basis of 30 per cent ad valorem on raw wool will be reported out probably. The combined democratic-insurgent republican forces are confident it will run the gauntlet of both houses and be the first revision measure to go to the president as the test of his veto disposition.

The farmers' free list bill will be voted on Tuesday in the senate, under agreement. Coalition senators and house democrats express certainty of its passage. There will be a senate democratic caucus on the bill Monday morning, however, to insure its passage. As the bill comes up for vote immediately after morning business Tuesday, the only opportunity for debate will be tomorrow.

Senator Cummins, progressive republican, will address the senate Monday on his metal amendment to the bill. Effort will be made to get the measure through without changing its general character as a free list measure intended to add to the number of articles that farmers use which may come free of duty.

The cotton tariff revision bill will be passed by the house Thursday. Hoyt Will Succeed Carter. Washington.—Brigadier General Ralph Hoyt will succeed Major General W. H. Carter in command of the maneuver brigade in Texas when the latter is relieved August 15.

Ottawa, Ontario.—The opening gun in the campaign which will determine the fate of the reciprocity pact between the United States and Canada was fired Saturday by the liberal leader, Sir Wilfrid Laurier. It was in the form of an open address to the Canadian people and in it was set forth the issue involved in the present campaign. The question now at issue is not a new one. Sir Wilfrid said, reciprocal terms with the United States having been sought by both countries for a half century.

Landmarks to Disappear. Washington.—More landmarks of the old west will begin to disappear January 1 unless congress should pass legislation to maintain the scattered western assay offices on their present basis. The government has decided to double the charges for assaying at Deadwood, Carson, Salt Lake, Helena, Boise and Seattle. Congressmen from those places protest that efforts will be made to close the offices because the mining companies will prefer to send their gold to the mints.

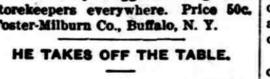

SUFFERED AGONY.

Backache, Headache and Dizziness Caused Untold Misery. Henry J. White, 416 No. 3rd St., Ft. Smith, Ark., says: "I suffered everything but death from terrible kidney trouble. I did not have a moment's peace. The urine resembled blood and left a red stain when it touched the linen. When passed, fire could not have burned more. I had awful headaches and dizzy spells and my back ached constantly. I began using Doan's Kidney Pills after various remedies had failed to help me and was completely cured. MARCUSE, CALIFORNIA, LAND FOR PROFITABLE FARMING.

Marcuse Colony, located in Sutter County, which is in the heart of the Sacramento Valley, is fast coming to the front as a farming community in which nearly every agricultural product known may be successfully raised without irrigation. The soil is a dark, sandy loam, sedimentary in character, level and well drained. It has the advantage over other soils in that it is loose in character and superior to heavy soils. With this wealth of soil, abundance of water, unexcelled climate and long growing season, Marcuse Colony is the ideal place for the homeseeker with limited means, the worn out professional man, or the young man looking for a small farm in a healthful climate.

The proximity of Marcuse Colony to Sacramento, furnishes a ready market for vegetables, poultry, eggs and dairy products. Fruits, vegetables, alfalfa, grains and grasses and poultry yield large returns. The rainfall is certain and drought is unknown.

Land is yet moderately priced, but crop failures in other sections of the United States will bring new settlers in rapidly. This, together with the holding of the Panama Pacific Exposition in San Francisco during 1915, is bound to raise the price, and whether for a home, or for an investment, now is the time to purchase. Land may be had in tracts suitable to the means of all and the results obtained are almost beyond belief. Further information will be gladly furnished by HOMESEEKERS' INFORMATION BUREAU, 630 Bee Bldg., Omaha, Neb.
