

THE CONSERVATIVE.

We have received a copy of the above paper, No. 42, Vol. 1, J. Sterling Morton, editor, published at Nebraska City. We understand the object of this paper to be to organize a conservative party in the United States. The time is ripe for such a movement. A conservative party is the great balance wheel in government and no country can progress along right lines without such a party. There are many good men in our different parties who ought to be combined into one grand party, whose watchword should be the "Supremacy of Law and Order."—Galveston (Texas) Times.

POEMS.

THE CONSERVATIVE acknowledges

with pleasure the receipt of "A Harp of the West," a collection of poems written by Isabel Richey, of Plattsmouth, Nebraska. The little volume contains thoughts, expressed and suggested, which induce the reader to turn its pages and, in accordance with the title of one of its shorter poems, to look "A Little Further On."

WONDERLAND, '99. The Northern Pacific, by its general passenger agent, Charles S. Fee, presents THE CONSERVATIVE, in which it should have a full-page advertisement, with its incomparable "Wonderland, '99," descriptive of the region tributary to that line of railroad.

Thanks! The book and illustrations are worth two dollars, but will be sent to any address, for six cents, by Charles S. Fee, general passenger and ticket agent, St. Paul, Minnesota.

TIGHT AND TAUT

Do not always mean the same. A person is said to be TIGHT when his tongue is very loose and he can't walk on a "line which describes the nearest distance between two points," while the idea conveyed by the word TAUT means that tightness of the horizontal wires in a Page Fence which lasts the whole lifetime of the fence, and does not allow it to sag. Many stockmen have a roll on hand to be used for a corral. They use it to make sheep or cattle pass or shoot to load stock through. It makes a splendid portable fence.
