

THE  
**FREMONT, ELKHORN,  
AND MISSOURI VALLEY  
RAILROAD**

IS THE TRANS-MISSOURI  
PORTION OF THE 

"Chicago & Northwestern Ry."

It occupies the best portions of Nebraska, Wyoming and South Dakota, passing through the **Splendid Elkhorn Valley**, through the high priced agricultural land, through the cheaper **Hay Lands in North Nebraska**, into the cattle ranges and herds in Northwest Nebraska and through the **Free Home Section** to the cattle and sheep ranges and the **Oil Fields of Wyoming** to the gold, silver and copper mines, and to the **Hot Springs** of South Dakota. It is the best, and to most of the above territory, the **Only R. R. Line**. **Casper**, the Wyoming terminus of the **Elkhorn R. R.**, is in the heart of the sheep and wool-growing section, and is the largest wool-shipping point in the United States. The **Hot Springs** of South Dakota is a pleasure and sanitary resort. Its waters, climate and altitude constitute a specific for curing rheumatism. The gold mines of the **Black Hills** are being more extensively worked than ever before. This railroad was the pioneer to the **Black Hills**. It is the shortest and best route, offering the best facilities and comforts of travel available.
