

ANNOUNCEMENTS.

NOTICE TO SENIORS IN INDUSTRIAL COLLEGE.

I wish to confer with every senior with reference to his University credits. Please bring your "credit books" to the Dean's Office, Room 104, University Hall, and see me if possible between 11:30 and 12 o'clock any morning within the next week. In case you cannot come at this hour, leave your "credit book" with the Recorder.

CHARLES E. BESSEY,
Dean.

Y. M. C. A. LUNHCEON.

The members of the Y. M. C. A. who are this year engaged in Bible Study will have luncheon together Friday evening at 6 o'clock in the association rooms. There are some 70 men who are interested in this work and the attendance will probably be all that can be handled.

To those who read this, this will be both a notice and an item of interest.

SENIOR CLASS MEETING.

The Senior class will meet Thursday Oct. 31 at 4 pm., in the old chapel. The committees on "caps and gowns," and "caps and canes" will report.

VERNON C. BATIE,
President.

Y. M. C. A. STUDENT DIRECTORY.

Those who have not reported their city addresses to the registrar should do so at once. Any change in the address which has not been reported should be made at once. The Y. M. C. A. directory will be issued soon and it is important that addresses should be correct.

ADVANCED CREDITS.

All students whose credits have not been satisfactorily adjusted or who may have advanced credit from high schools and academies should consult the University examiner as soon as convenient. Office hours, 11:30 to 12:30, in Dean's room, U. 104.

JAS. T. LEES.

SOPHOMORE FOOTBALL.

Sophomores will meet upon the gridiron as usual for practice Wednesday. Everybody is requested to report. Urgent matters are to be discussed.

CHAPEL ASSIGNMENTS.

Professor Swezey will have charge of chapel exercises today and tomorrow. Next week Professor Ward will lead.

CONCERNING SLIDE RULES.

The popularity of the slide rule is growing at such a rapid rate among the engineers that the man who continues to solve the long and laborious equations occurring in mechanics and other engineering studies, in the old fashioned way will soon be considered very far behind the times. Even the Freshmen are providing themselves with "sticks" as fast as their fears as to the supernatural, or possibly infernal, qualities of the instrument can be dispelled. If only the ability to integrate could be added to the numberless uses of the "stick" a decided step would be gained towards the realization of the proverbial "Royal Road".
