Schuyler Miller writes from Paris that he and Mr. Shedd are enjoying themselves. Mr. Miller thinks the French talk like Chinamen and they talk so fast that it requires much patience and perseverance on his part to understand them.

Miss Pound addressed a class at Wesleyan University last week.

The Palladians indulged in a sleigh-ride last Friday night instead of their usual literary meeting. At half-past eight a big bob-sled left the university with a load of young people, who for two hours and a half kept up their noise behind the jingling of sleigh-bells. At eleven o'clock the party stopped at the home of Clara Fowler in South Lincoln. After a short musical program refreshments were served and the sled was again brought into service to take the travelers home.

CHARTER DAY EXERCISES.

The annual charter day program will be held a week from next Friday. On the evening of that day the commencement address will be delivered by Gen. John C. Black and the mid-year degree will be conferred. In the morning the alumni organ will be formally presented to the university.

The exercises will begin Thursday by the opening of the electrical exhibit in the armory and by the annual lecture before the society of Sigma Xi in the evening.

Great X-Ray Machine.

Dr. R. T. White of Allegheny has just had constructed the largest X-ray machine in the world. It has twenty-six revolving plates 30 inches in diameter, and is driven by a two-horse power motor. The voltage is 1,000,000 and the spark is a solid 2 1/2 inch in length. The next largest machine is in Bellevue hospital, New York, which has 16 plates with diameters of 26 inches. The cost of the entire plant was about \$5,000. Dr. White expects to reduce photographic exposures from a half hour to three or four minutes, and will make original researches in skin diseases and cancerous affections. —Rochester Democrat and Chronicle.

Toothsome Acorns in Spain.

In reference to the excellent and nut like flavor of the acorns of the flex, which the men of the Golden Age were supposed to have lived upon, and which have none of the bitterness of the common oak's fruit, the writer is informed by one who has a wide knowledge of old Spain and especially of Don Quixote's country, that there is an oak there producing acorns two and one-half inches long of most admirable flavor. These are the acorns which Sancho Panza's wife sent to the duchess, as a specimen of the "natural commodities" of her neighborhood. It is on these acorns that the pigs are fattened which supply the celebrated Spanish hams, said to be the very best produce of the pig in any shape or country. We always wonder why Englishmen so seldom seem to settle in Spain, a country full of fine scenery, with most interesting possibilities in the way of growing cattle, swine and sheep, and absolutely the finest sporting country in Europe, except the Carpathian side of Hungary. Perhaps now that it is becoming the fashion for tourists to go there some may stay to settle, and Anglicise a portion of the peninsula. —London Exchange.

**U-PI-DEE.** A new Co-ed has alighted in town. U-pi-dee, U-pi-da! In an up-to-date tailor-made gown, U-pi-dee-da! The boys are wild, and prex is, too. You never saw such a hulla-la-oo. CHORUS — U-pi-dee U-pi-dee U-pi-dee etc. Her voice is clear as a soaring lark's, And her wit is like those trolley-car sparks! When 'cross a muddy street she flies, The boys all have convulsion fits! The turn of her head turns all ours, too, There's always a strife to sit in her pew; 'Tis enough to make a parson drunk, To hear her sing old co-ca-che-lunk! The above, and three other NEW verses to U-PI-DEE, and NEW WORDS, catchy, up-to-date, to many others of the popular OLD FAMILIAR TUNES; besides OLD FAVORITES, and also many NEW SONGS. **SONGS OF ALL THE COLLEGES.** Copyright, Price, \$1.50, postpaid. 1900.
