

MONEY TO STUDENTS

Students desiring good, profitable work for the summer, or, as their time permits, during the college year, should write us at once for a Good Housekeeping agency proposition. The magazine is of the highest quality (though only \$1.00 a year) and, as we are determined to double our list (now 85,000) in the next nine months, we are giving good men and women an excess of liberal commission. Our only requirement is satisfactory references as to the applicant's integrity.

\$30 A WEEK is a fair sum for an energetic man or woman to make. We will send full particulars to all interested, if when applying The Daily Nebraskan is mentioned. There is no limit to the number of men and women we can employ, as we cover the whole country, particularly in cities of from 10,000 to 50,000. There is a further chance of future permanent salaried position to those who show special merit in this line of our work.

ANNOUNCEMENTS.

CONVOCATION.

Convocation announcements for the week are as follows:

Wednesday—Rev. T. H. Dahl, "Nebraska Religiously."

Thursday—Professor Ross, "What's Up in Congress?"

Friday—Music.

There will be a holiday this afternoon from 2 to 6 o'clock. This is limited to those students in the college of literature, science and the arts and the industrial college. This to enable all to witness the Ivy day exercises and the ball game with Highland Park. The latter reason, however, is incidental. The holiday will also allow the members of the faculty to attend the visit the farm.

GEOLOGISTS ON EXCURSION.

The field geology class took advantage of the high school excursion to Louisville Monday and spent a very profitable and educational day on the Platte near Louisville.

About 1 o'clock the members of the class, together with Mr. Fisher, left Louisville overland, not in a covered wagon, but on foot, for South Bend. The various exposures along this route were visited and many fossils were collected. About three miles of the seven between the towns had been covered when dark, threatening clouds began to hover overhead, with the result that a wagon bridge and some large trees were at once sought. After the first shower was over the party fell into squads, which began a hasty march for the bridge near South Bend. The company and the rain reached the bridge at the same time, the former, however, had to yield to the latter, and found shelter in an old vacant house nearby, where the jolly ones resorted to cracking jokes and telling stories. The rain soon passed and the geologists set out and arrived at South Bend in due time for the train. The trip was very successful, both from an educational and pleasure point of view.
