#### Glee Club Meeting.

The Glee club accomplished a little organization work last night. The Palladians were kind enough to tender the use of their hall, where there was a piano. The first part of the evening was devoted to some incidental business matters and the laying down in a more thorough manner of the coming work. A committee of three was appointed to reconstruct the constitution and by-laws to cater to present needs. The latter part of the evening was used in voice testing and placing by Professor Starr. Steps were made looking to a co-organization of mandolin and guitar players. The club will, from now on, meet on Monday evenings.

The enrollment in the domestic science department is now over 100. This is a considerable increase over the enrollment of last year. A third year course has been added and the students are very enthusiastic. Cooking classes will be organized in the Central and Capitol schools of the city and placed under the charge of some of the more advanced students in domestic science.

The Student's Lecture association of the University of Michigan offers a lecture course in which the following men will appear: Congressman Littlefield of Maine, Thomas Dixon, "Bob" Taylor, Newell Dwight Hillis, Bourke Cochran, Woodrow Wilson, Lorado Taft, Elbert Hubbard and Leland Powers. ## What's the Use

Of going to a tailor to be measured for clothes and then waiting to try on the garments and have them fitted several times and taking the chance that they'll be right.

**FAR BETTER** to come here, where you can be fitted properly in a few minutes and try on as many garments as you will; "that's the only way" to see how the different styles look on you.

**BESIDES**, there's a great difference in the price, entirely aside from the fact that every other respect we give you the same satisfaction that you get from your tailor's goods.
