Great Coal-Producing State.

Pennsylvania is by all odds the
most abundant producer. Last year
she mined (in round numbers) 67,500,-
000 short tons of hard coal and 83,-
000,000 of soft coal. Together these
operations represent a trifle over
half of the country's output. Illinois
holds the second place with 27,000,000
tons. West Virginia comes third
with 24,000,000, and Ohio fourth with
20,000,000. Alabama ranked sixth
for a few years, but last year moved
up one notch. Her production reach-
ed 9,000,000 tons in 1901. West of
Kansas the largest output comes from
the state of Washington, which mined
2,500,000 tons last year.

Coquelin Aids Brother Actors.

M. Coquelin, the elder, is one of the
few actors on the Paris stage who has
made a fortune. Through his efforts a
home of retreat for veterans of the
French stage is being established. A
fine property has been bought near
Neaux, in the department of Seine-et-
Marne, a few hours from Paris. Here
a large house will be erected, giving
quarters to sixty old comedians.
