"Dorothy Dodd" Shoes

the new shoes for women. No one make ever contained the Shoes that would fit every one. Even though they vary much in cut, they run to certain general characteristics.

If the shoe for your foot is to be found in the "Dorothy Dodd" make you are fortunate. The ARCH SUPPORTING feature distinguishes it from all others. It follows the lines of the foot, being easy and flexible at the ball and toes, and fitting very closely under and about the instep, supporting and holding the foot and actually assisting it to do its work. Besides, you have the opportunity of writing of the Shoe and of your experience with it, in competition for a \$1000 PRIZE or a large number of smaller prizes. The article is limited to 200 words and the contest remains open until Dec. 1. The prizes will be awarded on Christmas Day. Get particulars and competition blanks at the store.

We carry 15 different styles of this shoe but select two for description. They come at the uniform price of \$3.00 with some few specials at 50c extra.
