LINCOLN, NEBRASKA, FRIDAY, NOVEMBER 21, 1902.

PRICE THREE CENTS.

Varsity Trains Scrubs

First Team Scores at Will—Second Team Gets Ready for Omaha Doctors—Other Games Tomorrow.

The squad went through another excellent practice last night. The work was snappy and fierce, and the men entered into the game with the proper spirit. To any one who has observed the practice during the season a great improvement in the work is very apparent. The team is now getting into good form; the plays are more clock-like than ever before. Every man gets into every play and the result is splendid team work.

It is indeed gratifying to anyone interested in football to see the players exhibit such spirit. Throughout the season the men have played together, but as Thanksgiving day approaches they work harder and the team becomes more and more like a machine.

After the usual signal practice the first and second eleven lined up for the scrimmage. The varsity kicked off to the scrubs, who were unable to make their five yards. The varsity then took the ball and made a touchdown with little difficulty and repeated the trick several times before practice closed, notwithstanding the good work done by the scrubs.

At first Mickel, Bender, Bell and Benedict played behind the line. They were finally replaced by Briggs, Nicodemus, Englehart and Thorpe. Newton played right tackle on the varsity, while Wilson and Mason alternated at left tackle. Tobin and Hunter alternated at right guard. Follmer and Cortelyou played the end positions.

Victor Englehart, who has been doing good work on the second eleven, was given the varsity signals last night.

The varsity may practice tomorrow, but it is not known at present whether the team will practice or rest. Only a few days remain before the Northwestern game and Coach Booth may give his men some work Saturday.

The second team, under the command of Captain Newton, will contest for honors on the gridiron Saturday with the Omaha Medics. It will be a return game, the first game having been played at Omaha October 25th, resulting in a score of 16 to 0 in favor of the second eleven. Both are strong teams, being about evenly matched in point of weight, and the game promises to be a good one. The scrubs have the advantage in superior training and coaching and will undoubtedly run up a safe score against their opponents. Their line-up is not as yet determined, but the men who have been working out against the varsity every night will go into the game. Newton, Hummel, Hickie, Johnson, Eager, Myers, Melick, Pritchard, Englehart and Morris will probably play.

Michigan will play Oberlin College tomorrow, the game taking place at Ann Arbor. Kansas plays the Kansas

Mabel Crawford Concert Tonight

FIRST BAPTIST CHURCH

Presented by Y. M. and Y. W. C. A.

ADMISSION - 25 CENTS.

State Normal at Emporia, Missouri and Iowa will meet at Iowa City; and Northwestern plays Illinois at Chicago.

Mr. Vosey.
Sketch of Burns' Poems.....Miss Lathrop
Readings—
"Auld Robin Gray".....Burns
"Cuddle Doon".....Burns
Miss Burr.
Vocal solo.....Selected

The Maxwell Club.

One of the largest meetings the Maxwell club has had for some time was held last Saturday night. An interesting debate took place and a great deal of enthusiasm was manifested. Considerable interest is being taken in the future welfare of the organization, and the Maxwell club promises to be a conspicuous debating club at the university. The club will meet again Saturday at 8 p. m. in the law lecture room, and everybody is invited. All law students are members, and they are earnestly requested to be present.

The subject for Saturday night is "Capital Punishment."

Last Night's Medic Session.

The Medical society held its regular weekly meeting last night in M. 301. A good-sized crowd was out and showed their interest in the affairs of the society.

After a half hour of severe quiz in anatomy, as is the custom of the so-

ciety, Mr. Willard, of the department of zoology, gave a very interesting talk on the Carnegie Institution, which is now being perfected at Washington, D. C. Mr. Willard proved himself thoroughly conversant with the plans of the institution and gave many valuable facts concerning it.

Edward Rowe then read a short selection from "Beside the Bonnie Brier Bush."

A short business meeting was held in which an official pin for the Medical society was decided upon. Mr. Rowe reported on his conference with the Sombbrero board in regard to space for the society. The society will be represented in the annual.

A Pankhellenic Smoker.

Sigma Alpha Epsilon will entertain the Greek letter fraternities at a smoker Saturday afternoon from 2 to 5. This will be the first of a series of entertainments and parties given during the year to encourage better fellowship among college men.

Hal J. Sowles has been elected by the local chapter of Phi Delta Theta to represent the chapter at the national convention of the fraternity which meets in New York next month.

Hans C. Peterson, Ph. D., who during '98 and '99 was professor in the department of Germanic languages, and previously professor in the English literature department, is now head of the department of English in the University of Wyoming.

The University club has contracted for Fraternity hall for a number of evenings throughout the year. The evenings chosen are the most choice, not conflicting with prearranged university affairs. The club found this action to be necessary, as the hall is in such great demand for most of the evenings, and all the best ones being now taken for the year.

The fact that Bowdoin and Dartmouth now grant the degree of A. B. without requiring Greek indicates the growing popularity of a practical course.

Senior Class Meeting

Arrangements for Senior-Junior Debate Being Concluded and Class Colors Chosen—The Sombbrero.

The Senior class met yesterday at 10 o'clock and considered matters relative to class debates, class colors and space in the Sombbrero.

Mr. Black reported for the committee on debate. His report showed that the Juniors have accepted the Senior's challenge to enter into a contest this semester. At a joint meeting of the two committees representing the classes it was decided to leave the appointment of debaters to the presidents of the classes respectively.

The time for this contest was fixed for some evening of the week ending on December 13, and unless the committees see fit to change it, that date will be maintained.

The discussion will probably be on one of the questions chosen for the interstate debates unless the contest comes off at an earlier date than is now intended.

The matter of class colors being taken up, several members of the class contended that Yale blue had been adopted some time in the early history of the class. It was claimed that scarlet and cream was to be intermingled with this color to give it a better decorative effect. These colors met with the approval of the class and were readopted for the Senior year.

The report of the committee appointed to gather information regarding space in the Sombbrero was heard and adopted. A consideration of the suggestions of the committee was deferred, however, until next meeting.

Prof. A. L. Haecker, of the Dairy School, will have charge of Professor Smith's classes during the latter's absence on his eastern trip.

For every absence in physics one point is deducted from the grade on the note book.

Students in the shops are already at the period when they change from bench work to lathe work. Each one has to finish satisfactorily a certain prescribed number of exercises both of bench and lathe work before the end of a semester. A general house cleaning is now going on; all tools are shined up, sharpened, cleaned and put away in order.

Dr. Fling, on his tour of California, was scheduled to lecture during this week before the Teachers Association of Northern California, at Redding, on "Methods of Teaching History." He will also deliver lectures at Stockton and other places along his route before returning. He expects to visit the University of California at Berkeley and Leland Stanford, and will return home by way of southern California.

Football Tomorrow

Omaha Medics vs. Second Team

NEBRASKA FIELD

GAME, 2:30.

ADMISSION, 25c.
