The University Book Store

With many people reputation is largely a matter of locality; to them the quality of a thing depends on the place from which it comes.

In the matter of location the Effete East has an advantage over the Progressive West. People accord to one things which the other has to secure by the hardest kind of fighting.

We may not be from Boston, but we make as good chocolates as anybody on earth. The taste is there; the quality is there; the appearance is there. What more do you want?
