OFFICE—Second Floor of University
Hall.

POSTOFFICE ADDRESS—Station "A,"
Box 13.

Entered at the Postoffice at Lincoln,
Nebraska, as second class mail matter.

SUBSCRIPTION RATE—\$2 Per Year.

New Books

The different heads of the departments in the University have received the following communication from Librarian Wyer: "The practice of asking each head of the department to inspect new books received at the library has been discontinued. We find that books can be made available quicker if we do not have to wait for this inspection. All books for department libraries are prepared and sent over as soon as possible, and all books that are shelved at the central library are first placed upon our 'new book' shelves, and I wish to call your special attention to this new feature. The shelves are convenient of access and the books are left there for two or three weeks unless needed for immediate use. If you will, when in the library, keep an eye on the new book shelves you will in that way be informed as to new additions to the library."

An effort is being made to resurrect the Graduate Bulletin, the publication of which was continued by vote of the Graduate Club. The publication was of great service in securing valuable exchanges. It is reasonably certain that the regents will bear the expense of one issue a year if the club will undertake the editing and furnish the manuscript.

The University of Michigan conferred degrees upon 776 candidates at its recent commencement. Neil Snow, the greatest all-around athlete who ever attended the University, was given a tremendous ovation. White, Weeks (captain), and Wilson, of the football team, were each given nine 'rahs by the students as they received their diplomas.—The Alpha Phi Fraternity.

One hundred and seventy-six men are trying for places on the Illinois track team.

Mathematical Seminar

The next meeting of the Mathematical Seminar takes place on Saturday evening, January 17th, at 7:30 p. m., in room 302, Mechanic Arts building, University of Nebraska. The following is the program:

1. Graphic Solution of a Problem in Hydraulics.....
.....Prof. O. V. P. Stout
 2. Three Problems in Projective Geometry.....Mr. O. J. J. Ferguson
 3. The Chicago Meeting and Teaching of Mathematics.....
.....Prof. E. W. Davis
- All interested are invited to be present.
R. E. Moritz,
Secretary.

Medics Meet

The Medical Society met last night in Mechanic Arts hall. A quartet composed of Messrs. Vasey, Langly, Bruce and Bruce sang two numbers.

President Long introduced Dr. Milroy of Omaha, who spoke on the subject, "The Life of Oliver Wendell Holmes as a Physician." Dr. Milroy reviewed briefly the early life of Holmes and showed that he was a genuine boy, with boyish tricks. Dr. Holmes had the advantage of a thorough academic training before pursuing his professional studies. He studied law and was admitted to the bar, but never practiced.

Dr. Milroy said that great advances have been made in methods of acquiring a medical education. Seventy years ago the medical student was obliged to spend at least two years in foreign study. Now most cities of any importance have proficient schools of medicine.

Dr. Milroy was in favor of shortening the courses to include only those subjects actually required.

The speaker was given an informal reception after the meeting.

Wisconsin has arranged for track meets with Illinois, Beloit and Chicago.

Daily newspapers are now published by Columbia, Chicago, Cornell, California, Brown, Harvard, Michigan, Minnesota, Indiana, Princeton, Pennsylvania, Stanford, Wisconsin, Yale, and Nebraska.

Serious trouble was narrowly averted at the University of Minnesota last fall when a certain fraternity violated a university regulation by pledging seven freshmen before they were properly registered.

The Northwestern will schedule all football games on the home grounds for next season, except the Chicago game, which will be played on Marshall field. By having these games at home Northwestern hopes to go the season with a winning team.

Strict rules have been instituted at Albion College. Dancing, card-playing and smoking are to be prohibited. The three fraternities in existence there have been ordered to give up their charters. Many students are planning to leave school at once.—Round Table.

The Atlanta University Bulletin says: "Nearly 3,000 negroes have graduated in this country from at least a fairly respectable college course, and eighty-three per cent of them have found remunerative and beneficent employment in teaching and other professional work."

The following is the enrollment of Scottish universities: Edinburgh, 2,814; Glasgow, 2,037; Aberdeen, 905; St. Andrews, 264.
