

# The Daily Nebraskan

Vol. II.

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, FEBRUARY 25, 1903.

No. 93.

## Inter-State Debates.

The teams which will meet Colorado, Kansas and Missouri have now settled down to intensive work on the trust and compulsory arbitration questions. Nebraska is getting a rather late start this year. Colorado's team has been at work five weeks and Kansas' team was selected several weeks ago.

The urgent request from Kansas that the debate take place as early as April 19 has altogether upset Nebraska's arrangements. Nebraska assumed that the three debates would come at about the same time as they did last year. The debating board is in correspondence with Kansas in regard to this matter.

With Colorado arrangements are being made regarding judges. Kansas is urging that the judges for the debate at Lawrence also be selected soon.

J. C. Doubt, a member of the Colorado team, has been out of college for over two weeks on account of an attack of rheumatism, but was on the campus Saturday.

## Raymond to Engineers.

W. A. Laymon, general manager of the Wagner Electric Manufacturing company, St. Louis, Mo., will deliver an illustrated lecture to the engineering students Thursday, February 26th, at 8 p. m., room 211 M. A. hall. Mr. Wagner is one of the best alternating current engineers in the country. He is an interesting lecturer and is much sought after to address the students of the leading technical schools. Professor Morse of the electrical engineering department had his first practical training under Mr. Laymon, who was at the time general superintendent and head of the engineering department of the Wagner company. Professor Morse has been trying for a number of years to have Mr. Laymon come here, and has at last succeeded. All engineering students and members of the engineering society are expected to attend.

## Y. M. C. A. Banquet.

The officers of the Y. M. C. A. are arranging for the annual association banquet which takes place at the Lindell hotel on Tuesday evening, March 3. From the fact that it is to be held at the Lindell and also from the fact that several prominent speakers will be present it is anticipated as a very enjoyable affair. Prof. G. E. Condra will act as toastmaster, and among those who will respond to toasts are E. T. Colton, international secretary of Y. M. C. A.; J. S. Moore, formerly of the University, but now state secretary of Missouri; J. P. Bailey, state secretary for Nebraska; Dr. B. L. Palne, and members of the faculty. This banquet is for the members of the association, and the officers expect a large number to be present.

I have moved. Now it's yours. Boys, come in and see my swell new store in the Burr block and incidentally see what I can make for you for \$25 to \$30. Bumstead—"He makes clothes."

## Basket Ball Will Continue.

A meeting of the basket ball men was held in the physical director's office Monday evening to determine whether basket-ball work should be continued or not. It was decided to keep up the practice until some time during the first of March, when it is expected that a northern and eastern trip of five days will be made, after which the season will close. Regular practice will be held tonight at 5 p. m. All men are requested to be present.

## Colton Coming.

National College Secretary of College Y. M. C. A. E. T. Colton will be in Lincoln to meet University men March 2 to 4. During his stay in Lincoln the annual Y. M. C. A. banquet will be held at the Lindell hotel. Former Secretary Moore will also be present to meet his old friends during this period. These, with other notables, will be present at the banquet.

The Y. M. C. A. began yesterday the distribution of its 1903 faculty and student directory. This most serviceable of the University publications appears a little later than usual this year, and is not quite up to the standard of previous numbers in either editorial or mechanical respects. Very useful additions are found in the lists of musical and agricultural students, but this extra advantage is seriously offset by the absence of literary and social directories, and the non-designation of the literary and social affiliations of the students. That even with these changes the directory is most serviceable goes without saying. But the Nebraskan, for one at least, hopes the features of previous years will be restored in the issue of 1904.

The juniors completed the election of their official staff at a meeting held in L. 109 yesterday during convocation hour. This was the third meeting called for this purpose. Four girls and two boys comprise the new officers. The retiring officers are A. I. Myers, president; Elsie Piper, vice-president; La Duskie Salter, secretary-treasurer, and N. J. Elliot, class senator. This semester's officers are Anna Van Zandt, president; C. T. Borg, vice-president; Miss Yont, secretary; Mary Meeker, treasurer; Mildred Clark, class senator. According to the usual custom, the retiring president, A. I. Myers, was made sergeant-at-arms.

The electrical engineering department lately received requests from the Government, the Western Electric Co., of Chicago, and the General Electric Co., of Lynn, Mass., for a list of engineering graduates. The two companies named wished lists from which each hopes to draw a number of men. The remuneration paid by these companies exceeds by three times that paid a few years ago.

Oliver Theater Pharmacy.

Restaurant Unique, 1228 O street.

## Girls' Basket Ball Games.

The Kansas state University girls' basket-ball team is to come to Lincoln for a game the evening of March 13. The Haskell Indian girls have promised to come for a game on the same date, making a big double event, and the last of the season for the girls' teams. The University of Nebraska will put up two teams to meet them, the first team and a second team soon to be organized. The latter will probably be made up something as follows: Forwards, Miss Shinbur, Miss Ames; centers, Miss Giddings, Miss Everett; guards, Miss McCutcheon, Miss Ruth Bryan; substitute, Miss Ruth Woodsmall.

## Corthell's Lecture.

The event of next week will be the lecture of Dr. E. L. Corthell on, "Two Years in Argentina." This week Mr. Corthell delivered his lecture at Stanford University and before the Board of Trade, Portland, Ore. It will be of general interest to know that Dr. Corthell and Chancellor Andrews were fellow students at Brown University. They have been life-long friends, and it was through this friendship that Dr. Corthell came to Nebraska. The lecture will be held Thursday, March 5th, at 8 p. m., in the old chapel, under the auspices of the engineering society. Members of the legislature and prominent business men of Lincoln will be invited. There will be no admission charge and no tickets. The general student body of the University is cordially invited.

## State Convention.

The twenty-third annual convention of the Nebraska Y. M. C. A. will take place at Beatrice, February 26 to March 1. A number of prominent association workers will be present, including Geo. T. Coxhead of St. Louis, Mo.; E. M. Robinson of New York city; Henry Ostrom of Greencastle, Ind., and E. T. Colton of New York. A large delegation will go down from the University, including the retiring and the new officers. The railroads have all given special rates. Those who have already signified their intention of attending are as follows: R. H. Harrison, W. G. Hiltner, J. C. Moore, C. M. Heck, B. G. Lewis, E. G. Spencer, C. I. Borg, A. R. Moore, B. E. Colby, R. H. Searle, Roy Bleckford, C. M. McCune, H. G. Langley, Sam Anderson, J. D. Ringer and G. F. Ross.

P. J. O'Gara writes from Cairo, Ga., under date of February 16: "I am now here in southwestern Georgia, but may have to go to Texas in a few days to look after some very urgent work on pear blight. I am traveling a great deal of the time looking after the work which the department of agriculture is carrying on in a number of widely separated localities. I have been receiving The Nebraskan very punctually ever since I left the University, and look for it is I look for 'letters from home.'"

Eat at Hendry's, 129 North Eleventh.

## Campus Cleanings.

### University Calendar.

Friday, February 27.—Viking party at Walsh hall.

March 3.—Annual Y. M. C. A. banquet, Lindell hotel.

Saturday, March 7.—Sigma Alpha Epsilon banquet at the Lindell.

March 13.—Company B hop, Fraternity hall.

Glen Chapman spent Sunday at his home in Aurora.

The English club meets Saturday evening in Miss Hayden's art studio.

The new directory places Professor Caldwell in the department of "animal husbandry."

Prof. W. W. Cook was unable to meet his classes again Monday afternoon on account of illness.

Oliver Irwin, '97, and Hal Roberts, '00, both of Omaha, were visiting in the city Saturday.

Track team men are getting down to systematic work this week. The men must work hard to win a place, as there is considerable competition.

Professor Barbour's 8 o'clock geology class was dismissed from recitation yesterday morning on account of the absence of the stereopticon operator.

E. D. Hodge, who has been confined to the hospital for some time past, is now able to be about again and was a visitor at the University Monday.

Progress continues in the cage. The baseball men are anxious to get to work outside and will avail themselves of the earliest opportunity to do so.

The chancellor has addressed to the members of the faculty recently a note dealing with the "cribbing" practice, "which students disciplined for cheating uniformly declare is extremely common in the university." The note recommends emphasis on the moral meanness of the habit, severe punishment in all proven cases, and precautionary measures in suspected ones.

Ex-Senator Chas. F. Manderson of Omaha has presented the historical society with twenty-five exceedingly valuable monographs of his own writing. He has also promised to the society a large number of pamphlets and books now in his possession, which will make a substantial addition to the numerous similar contributions he has already made.

Sixty-five girls were present at the College Settlement sewing school last Saturday. Thirty of the girls are now sewing on waists, having finished the napkin, towel and handkerchief required. Mrs. George Waite spoke to the school upon a sewing school of deaf mutes. Miss Ruth Bailey, a University student, gives the children simple exercises in breathing, standing, etc., at the intermission each Saturday.
