No. 96.

PALS THE CHAMPIONS.

Defeat Unions Last Night by the Decisive Score of 28 to 7.

The Palladian basket-ball team won the inter-society championship last night by defeating the Unions by the decisive score of 28 to 7. Both of these teams had already defeated the Defians. The Pals led throughout and the outcome was never in doubt. The Unions put up a plucky game and fought to the very last. Both societies attended the game in a body and the contesting teams received good support from the side lines. The Unions excelled in rooting. Dr. Clapp was the only official and officiated in a very satisfactory manner.

The first half was entirely one-sided, ending 11 to 0 in favor of the Pals. The Unions braced in the beginning of the second half, but were unable to turn the tables in their favor. Both sides played a very rough game, one man on the Union team being fouled five times. Especially to be commended was the work of the Pal guards. Ludden kept Ferguson, the first team forward, from throwing a single goal. Elliot found the basket repeatedly. For the Unions, Ferguson and Brown did all the work. The former made 5 points on fouls, missing only one, and the latter threw the only goal for his team. For the Pals, Elliot threw 5 goals and 2 fouls, Myers 4 goals, Lightner and Ludden one each, and Newton 1 goal and 2 fouls. The Unions threw 1 goal and their opponents 12. The Defians and the Unions will likely contest for second place soon.

The societies retired to their halls after the game, where short programs were rendered. The line-up:

Palladians.	Unions.
Newton.....	C.....Noyes
Myers.....	F.....Ferguson
Elliot.....	F.....Brown (Capt.)
Ludden.....	G.....Melick
Lightner (Capt.)	G.....Spafford

Pedagogical Club.

The University Pedagogical club will meet next Thursday evening from 7:00 to 8:30 in room 210, University hall. This is a society of University professors and University students who have or are about to receive the University teachers' certificate. It meets once a month for social and intellectual purposes. The meeting next Thursday is to be addressed by Dr. H. K. Wolfe, principal of the Lincoln high school; topic, "The Personal Characteristics Which Tend to Influence the Employment and Success of Teachers, as Seen from the Standpoint of a Principal of the High School."

The senior class met Friday morning to discuss the matter of programs and invitations. Several designs were submitted by the committee, but the class could come to no agreement on the subject. It was decided to put the matter off until next Tuesday, giving those who have plans an opportunity to submit them for the inspection of the committee.

UNIVERSITY AND LEGISLATURE

Present Condition of University Affairs before the Law-Making Body.

The present legislature is now considering five bills that bear immediately on the interests of the University. Three refer to appropriations and two aim at establishing experiment stations in the western part of the state.

House roll No. 156 is a bill introduced by G. C. McAllister and provides for creating and managing an experiment station at North Platte. It provides for an appropriation of \$10,000 to carry the plan into effect. The bill was postponed indefinitely. House roll 307 is a bill for an act to establish an experiment station at Crawford. It was introduced by F. Currie and provides for an appropriation of \$8,000 to carry the provisions into effect. This bill is still in the hands of the committee. Both 156 and 307 aim at improving agricultural conditions in the western part of the state, where soil and climate are so much different than here at Lincoln.

House roll No. 132 is a bill that will, if it becomes a law, please the friends of the University. It takes the moneys known as "The Agricultural Experiment Station Fund," "The Morrill Fund" and "The University Cash Fund" out of the general appropriation bill and turns them over to the University. The first two funds amount to the sum of \$50,000 each for the next two years and the last one varies, since it is moneys taken in by the treasurer of the University and turned into the state treasury. Heretofore the practice has been to include these funds in the general appropriation bills. This plan, however, apparently inflated the grand total of the appropriation bill and was misleading in that the total amount carried by the bill for the use of the University was constantly and erroneously construed as a charge upon the state, when in fact the three funds named were not contributed by the state at all for the support of the University. This change, it is hoped, will clear up wrong ideas as to the actual amount that the state gives to the University. The bill is not yet a law, however. It is still in the senate.

House roll No. 102 is a very important bill and was passed in a committee of the whole of the lower house yesterday. It provides "that the sum

of one hundred thousand dollars be and the same is hereby appropriated and set apart from any unappropriated moneys belonging to the general fund of the state, the same to be expended under the direction of the board of regents of the University of Nebraska for the following general purposes: A sum of not less than sixty thousand dollars for the erection and equipment of a school building on the University farm near Lincoln containing school rooms, laboratories, libraries, offices, work rooms and assembly rooms for the schools of agriculture and allied subjects, secondary to the college of agriculture and the mechanic arts (the industrial college) of said University, and for the equipment of said building with light, heat and water, furniture, shelving, laboratory tables and other usual and necessary fixtures and facilities for instruction. The remainder of the one hundred thousand dollars hereby appropriated shall be expended by the regents in the construction and equipment on said University farm of a shop building for elementary wood and iron working and the study of the principles of the construction of farm machinery; a live stock judging pavillion building; a temporary horticulture building; an addition to the boiler house and additional boilers for heating and power purposes; construction of sewerage; for the purchase of additional live stock, fire protection apparatus, and for minor improvements and betterments of the farm property for school purposes."

That the bill was passed in the committee of the whole does not mean that it has passed the house, but merely that it has been recommended for a place in the revenue act that is to come up later.

The general appropriation bill for the University comes up with the revenue measure which contains 244 sections. The preliminaries for the introduction of this bill have not been completed. It is, therefore, not known definitely how the University matter stands, but those who are in a position to know claim that practically all that was asked for will be included in the bill.

A Good Example.

S. D. Clinton, '02, writes to Professor Caldwell, February 20th, from Cumberland, Md.: "My Dear Professor—I have just finished reading the Tuesday Nebraskan and notice your appeal for \$100 to clear the College Settlement of debt. Since we received our checks today and I am feeling a little flush, will inclose a two-dollar bill to help the thing along. Hoping that the amount was raised, I am, yours truly, S. D. Clinton, '02."

\$3.00 commutation ticket for \$2.70 at the Merchants' Cafe, 117 No. 13th St. Students are cordially invited.

Graduate Club.

The officers of the Graduate club have secured Rev. M. I. Stritch, of Creighton University, Omaha, to lecture before the club at its next meeting. Rev. Stritch is deeply versed in Dante lore, and will speak on this subject. An invitation will be extended to all local graduates to be present on this occasion.

Fliegenbaum's Pharmacy, 13th and O.

C. E. Brown, Dentist, Burr block.

Restaurant Unique, 1228 O street.

Oliver Theater Pharmacy.

COLTON NEXT WEEK.

Noted Y. M. C. A. Worker will Meet University Men.

E. T. Colton, national college secretary of the College Y. M. C. A., will be in Lincoln from Monday, March 2, to Wednesday, March 4. Mr. Colton is known throughout the length and breadth of the land for his great power with college men. He is a graduate of the University of South Dakota, where he won great fame as a star on the college eleven. He became lecturer in philosophy after receiving his first degree and displayed great power in his chosen field. Finally, however, his great desire to help men led him to give up his favorite work of philosophy and to enter Y. M. C. A. college work. This began the second period of his life.

He was soon rewarded with an appointment as national college secretary, because the national committee saw that Colton was putting the same order, the same system, and same earnestness into his Y. M. C. A. work that so distinguished him as a student in college and as a professor of philosophy. Mr. Colton travels over all the western half of the United States, visiting schools and colleges in his great work of helping the young men of our colleges and universities. A hearty handshake, an intellectual face, a pleasant voice, a warm smile for all whom he meets are the things that have endeared him to the hearts of college men.

During his stay in Lincoln ample opportunity will be given every man in the University to meet this strong man. Schedules have been arranged for meeting with him as follows:

Monday, 4 p. m.—Meeting for consultation with all who may enter Y. M. C. A. work permanently.

Monday, 6:30 p. m.—Dinner with advisory board and officers of the local association.

Monday, 8 p. m.—All men of the University, Tuesday, 10 a. m.—Speaks at convocation reception Y. M. C. A. work.

Tuesday, 4 p. m.—Meeting with Bible study leaders.

Tuesday, 7:30 p. m.—Conference with all committeemen, Lindell hotel parlors.

Tuesday, 9 p. m.—Annual banquet at Lindell hotel.

Every man in the University is urged to preserve the foregoing schedule and aim to meet Mr. Colton at the times indicated. Mr. Colton will be accompanied by State College Secretary for Missouri J. S. Moore.

Mr. Moore was formerly secretary of our local association, but for the past two years has been doing effective work in Missouri. Mr. Moore needs no introduction to University students and a great number of his old friends will be ready to meet him.

Y. M. C. A.

Men's meeting Sunday at 3 p. m., in the University association rooms.
