University Calendar.
Friday, April 17.—Senior prom at the Lincoln hotel.
May 1.—Missouri-Nebraska debate. Memorial hall.
Saturday, May 2.—Sophomore Party.

Dr. J. H. Gain has returned from his trip to Seward and adjoining country.
The students in English 2 are racking their brains for plots and ideas, as their short stories will be due April 27th.

The Palladian Literary society will give its "Inaugural Program" this evening in Pal. hall. Social time following. Everybody invited.

Miss Cora M. Walker has left the University for the semester. She expects in a short time to make a trip to Colorado with her mother.

J. W. Miller spent the Easter vacation completing a geologic map of Cass county, begun by E. G. Woodruff in 1899. When finished this map will be printed in colors.

Prof. H. R. Smith left yesterday for a two weeks' tour of this and neighboring states to obtain material for both the experiment station and the summer school agriculture.

The Senior Theophanians of Wesleyan University will give a program before the Delian Literary society this evening in the old chapel at 8:30. Everybody is cordially invited to attend.

Professor Swezey is arranging a new card catalogue for the departmental library. He has devised a scheme of classification, somewhat on the principle of Poole's index, by which any article may at once be found.

From photographs which have come to hand it appears that the University of West Virginia, of whose faculty Mr. J. L. Sheldon has been elected a member, is in a most beautiful country, and contains many fine buildings. His friends are congratulating him on his good fortune.

Three more requests have been received by the botanical department for men to fill positions in the east. The supply of young botanists has about run out in the University, and Professor Bessey is anxiously looking around for more to meet the demands made by other institutions.

Mr. Walling has just sent Chancellor Andrews some bones of the mastodon collected by him three years ago in Frontier county. So many bones and teeth of the mammoth and mastodon have recently been received from friends of the University that the time is not far distant when complete restorations of these animals will be possible.

Mr. W. L. Fairbrother of Lincoln has just loaned the state museum a specimen from his own private collection, which is the first of its kind received. It is the vertebra of a 75-foot whale, and has been placed on exhibition in the north wall case of the museum. The great bone measures three feet across and two and a half feet in height.

Guy W. ("Bonnet") Hood made a trip to Glidden, Iowa, during Easter recess, to see a little nephew who arrived there on Easter Sunday. The conditions of the visit soon became known among his friends here, and now it is "Uncle Bonnet" who holds down third, wearing a smile so broad as to take up most of the space between third base and shortstop.

The cabinet of the Young Woman's Christian association met in the rooms of the association Tuesday evening, April 8. A new feature of the meeting was a chafing dish supper, served while the members discussed business affairs. A committee from the state committee of the association met with the cabinet to discuss the question of a general secretary for next year.

Wright's Oliver Theatre pharmacy fills prescriptions.
