University Calendar.

Friday, April 24—Non-com hop, at Fraternity hall.
 Saturday, April 25.—Freshman party, at the armory.
 May 1.—Missouri-Nebraska debate. Memorial hall.
 Saturday, May 2.—Sophomore party, at the armory.

Fred Curtis, a junior in the University last year, is attending the Omaha Dental College.

Miss Maude Wilson spent Saturday and Sunday in Saltito, visiting at the home of her brother.

Professor Morse, of the physics department, is able to be around again, after an attack of the grip.

The class in surveying has been occupied the past week in making a survey of the state fair grounds.

Ray Pierce, who has been confined so long with purpura, is now convalescing, but will not be in school any more this year.

Mr. J. A. Barrett spent Saturday and Sunday in Omaha and Council Bluffs in the interests of the new historical society building.

There will be no regular exhibition by the gymnasium classes this year, as heretofore, the size of the classes making it impossible.

Miss Eunice Davis, ex-'05, of Plattsmouth, accompanied by her mother, visited with University and Lincoln friends Monday and yesterday.

Harry Poston conducted the services at the Congregational church of Rokeby last Sunday, taking the place of R. A. Harrison, who had gone elsewhere on a similar mission.

Tennis courts will be laid out north of the armory this week for the use of the girls in the gymnasium classes. Tennis playing will take the place of floor work during the warm weather.

On Monday the annual exhibition before the Woman's Club will be given in the armory from 2 to 4 p. m. Regular work by first and second year girls' classes and Dr. Clapp's men's class will be conducted.

While a number of students were in the reference room of the chemistry department, a few days ago, a large piece of plastering fell from the ceiling and dealt one student a severe blow on the head.

Mr. Nikaldo has been working on some material which came up during the last political campaign, in regard to the color in refining sugar. He has found the cause of the trouble, and has prepared an article on the subject for the Journal of the American Chemical Society on the subject.

Professor Loveland is in the southwestern part of the state, inspecting stations for the weather bureau. There are about one hundred and fifty of these stations through the state, all of which have to be inspected every two or three years. Mr. Loveland will inspect about a dozen on this trip and probably return the latter part of the week.

Academy Notes.

The lawn has been seeded and people may look out for "keep off the grass" signs in the future.

The debating club is increasing its interest. The meeting last Friday night was the best yet held.

The summer school program has been arranged and the circulars are now being distributed through the eastern part of the state.

In one respect the academy management claims praise, namely, that all its supplies have been purchased through Lincoln merchants. The patronage of home industries is a cardinal principle of its faith.

Wesleyan University holds its ath-

letic tournament next Friday evening. The academy basket-ball team will play a match game with the Y. W. C. A. team of that university, and it is hoped that a large contingent of academy enthusiasts will be present to cheer them on to victory.

The very energetic committee on an academy pin, consisting of Misses Blanchard, Waugh, Baker, and Mr. Edgren, have met unusual success in their canvass of the students. A very tasty pin has been ordered through Tucker, the jeweler, and will soon decorate the lapels of academy students' coats.
