NO. 17

IMPROVED ROOTING

Two Squads to Be Organized for the Indian Game.

A new and systematic plan of rooting has been worked out for Saturday's game, and if the arrangements that are being made are carried out in detail a greeting will be extended to the Haskell Indians that they will always remember with terror. It is intended to have two bands of rooters on opposite sides of the field, one occupying the choicest section of the east bleachers and the other the center of the grandstand. Under the direction of their respective leaders they will vie with each other in furnishing material for wild dreams for the Indians for many moons to come.

The main band of rooters will occupy the east bleachers where the best seats will be reserved for them. Fifty men can be accommodated in the grandstand without extra charge. Tickets will be given out for the seats on the athletic field Friday afternoon at 4 o'clock. As only a limited number of men can be provided for those desiring these tickets are urged to be expeditious in getting them. Clark E. Bell will attend to the distribution and all desiring tickets must be sure and meet him on the field Friday at the afore stated hour.

No favoritism will be shown in the distribution of tickets, such as circulating a few of the favors beforehand. The best men are wanted to come out and try for a ticket. Megaphones will as in the past be a requirement for eligibility to serve in either of the two squads. Two squad leaders have been appointed in the persons of Messrs. Elliott and Hewitt. Mr. Bell will direct the rooting of both squads. A third leader may be appointed to help in taking care of the larger squad.

A movement is being set on foot for placing a fake band along with the rooting squad in the grandstand. This band will consist of ten players and will be picked from all members of the student body who are able to handle an instrument and do not belong to the cadet band. Each squad is expected to strive to outdo the other, and each will have a band to help out.

The game Saturday will be a hard one. The Indians have always been a strong proposition to meet in the past, and they come next Saturday with increased strength. Nothing would delight them more than to return victorious to their tepees with a bunch of Cornhusker scalps. Such indeed is their avowed intention and every man with a strong pair of lungs and a megaphone is urged to turn out and help frustrate their designs.

PREPARE FOR THE REDSKINS

Team Hard at Work Again. Some Secret Practice Held.

In spite of the rain and heavy field practice went on just the same last night.

Lantz was in at quarter in place of Bender, who is nursing his ankle and saving it for the game against the Indians next Saturday.

Open practice was carried on for about half an hour, then the field was cleared of all spectators and the team went to work behind closed doors. This certainly looks like business.

The coming game will be one of the hardest on the schedule and the team needs to be in almost perfect condition for it. This stage it is rapidly approaching and the back field is beginning to get off with that clock like precision which characterized their work last year.

The excellent defensive work against the strong Denver team shows the im-

provement we all wish to see. The offensive game which the team played there can not be taken for a single instant as a fair sample of their work. Let those who are dissatisfied with the way the team showed up out there remember a few of the odds against which our boys had to contend. The handicap Bender had in his ankle is almost a sufficient reason for the small score.

The Haskell Indians come to us with a most enviable reputation. Those who have seen them play say that they are stronger even than last year, not only stronger as to mere brute strength, but also in science and on top of it all, they are speedy as deer.

To say that it will be a good game is putting it mildly. Come out and see it for yourselves. You'll never regret it for a minute.

The team needs your support, come out Saturday and show your interest and also your faith in Nebraska's winning team.

Will Go to Fort Riley.

Several of the members of the cadet battalion, who belong to the Lincoln Light Infantry, or Co. F, as it is less commonly known, are making preparations to go to Ft. Riley, Kas., to attend the great encampment that will be held there next week. So far as is definitely known B. J. Richards and A. Beckman will be the only ones who have fully made up their minds to go from the University. Several others may go but have not decided yet. Commandant Chase has granted to Messrs. Richards and Beckman a leave of absence extending through the time of the encampment.

L. E. Hurtz, captain of last year's Co. B, will go with the Lincoln Light Infantry. He has been promoted to the position of quartermaster of the regimental commissary department, ranking as captain. The Lincoln company will leave Saturday afternoon. The encampment will extend through a period of ten days. About 22,000 soldiers, regulars and national guards, are expected to be on the ground, seven states being represented.

Freshmen Will Start Right.

The Freshmen are making arrangements for a class meeting to be held under their own auspices Monday. They resent the action of the Sophomores and upperclassmen in seeking to impose upon them, and will take care to see that none of these genera are admitted to the next meeting. A committee has been appointed to secure a class roll at the executive office and each man upon entering the chapel next Monday will be required to give his name. The Freshmen are determined to start things right and will show their superiors in age and experience a few things about class organization, athletics and spirit. They propose to make the class of '07 one of the largest and most meritorious classes that have ever gone forth from our institution.

Graphophone at Convocation.

A gramophone concert was rendered in chapel yesterday morning. A number of classical pieces and interesting specialties were given, and the large body of students present were highly pleased with this new and novel feature, that was introduced into the convocation program. Printed programs were circulated. The instrument was furnished by the Sidles Cycle Co.

A reception in honor of Presbyterian students will be given at the First church, M and 13th streets, Friday, October 16th at 8 p. m. No invitation notes will be sent out, but all students who desire to make this their church home are cordially invited to be present. Refreshments, college songs and a good time are promised to all who attend.

A NEW CHALLENGE

South Dakota Desires Debate, But Can't Be Accomodated.

South Dakota is the latest aspirant to enter the lists with a challenge of debate to Nebraska. The secretary of the debating association is in receipt of a challenge from the Oratorical and Debating league of that institution. They are anxious to enter into a compact that would be effective for a space of two years.

Although the Dakotans would undoubtedly prove to be worthy foes of Nebraska, still, for the present, the challenge will not be accepted for several reasons. In the first place it has not been decided whether Nebraska will have two debates or three to handle this year. If only two, the schedule will probably consist of the usual contests with the old time rivals, Missouri and Kansas. Moreover Nebraska has had opportunities for taking on larger contests, and in view of this fact South Dakota could hardly be considered at present.

But there is nothing to show that the South Dakota debaters would not be an aggressive body to meet, and the ambition of that University in seeking to arrange contests with other institutions is commendable. The college is branching out along many lines, and it may be that in the future Nebraska can arrange to meet them in forensic as well as athletic contests.

Palladian Program.

The Palladian society gave the regular literary program Friday night. A large number of visitors attended and remained throughout the social recess and the old fashioned "sing."

The program was as follows:
Piano solo, Miss Lowe.
Literary criticism, Miss Balsley.
Story, Mr. King.
Sketch, Mr. Kellog.
Vocal duet, Misses Watt.

The Palladian society has eight new members. Those who joined last night were: Misses Bertha Kern, Koppock, Ethel O'Connell, Helen Anderson, Alice Miller, Minnie Thomas, Jean Prewster and Mr. Hadlock.

A New Map Hanger

The European history department has a new map-hanger which was devised by Dr. Fling. It is well made and a very convenient piece of apparatus. At the top there is a box arrangement in which nine or ten maps can be hung at once. The maps are on rollers. One can be rolled up and another pulled down before the class instantaneously, thus preventing the delay which usually accompanies the use of maps in class. The whole apparatus is on rollers and can be easily moved about the room. The maps can be enclosed within the box, thus preventing the destructive effect which the atmosphere of this altitude has on them.

The University chorus has begun work on the "Messiah," which it will render shortly before the Christmas vacation.

Reserved seat tickets for Saturday's game will be on sale the rest of the week, starting with today, at the Missouri Pacific ticket office at the corner of 12th and O streets.

NO PROFESSIONALISM.

Dr. Condra Says Athletics Are on Right Basis at Colorado.

The charges of professionalism preferred against Colorado have gradually been resolved into thin air, under the investigation that has been carried on since the damaging reports were sent out from Denver. Yesterday Dr. Condra explained the situation as it now stands to a Nebraskan reporter. It appears now that the only source of disagreement existing with Colorado is in regard to the one year limit rule, which is not in force in that state. Nebraska urges that since Colorado will play here, that they abide by that rule, which is in force in this state and required by Nebraska of all the rest of the teams that she has scheduled.

Some time ago Prof. W. W. Cook, corresponded with the authorities at Boulder in regard to the charges of professionalism that had been preferred against Colorado and received an assurance that the charges were unfounded. He received a letter written by Arthur Allin, chairman of the athletic committee, in reply to an inquiry by President James H. Baker of that institution, in which ample proof was given to refute the charges of professionalism, and a statement made that the only objection was that no one-year residence was required. Subsequent developments tend to prove that Mr. Allin was entirely correct in his stand, and that the only cause of disagreement was the one-year residence rule.

Dr. Condra says that the authorities at Boulder are trying to conduct their athletics in the right way and are putting everything on the right basis. He feels that they have been misrepresented to some extent and that it is only just to them that their rights be recognized. He spoke of many comments he had heard of the conduct of the football boys while in Denver and took occasion to compliment the splendid write-up of the game in yesterday's Nebraskan.

Historical Society Notes.

The historical society has been without a newspaper clerk for the past week, owing to the death of Miss Palin's sister.

The historical society rooms are being improved by the addition of new book shelves and some new cases for coins.

The 1903 horticultural reports and the 1902 agricultural reports are now at the historical society's rooms, ready for distribution.

A "Freshmore" Hop.

According to reports now in circulation the hop committee appointed by the Freshman meeting Monday has decided to act and will hold a hop in dead earnest. It will be held under an alias, however, and will be known as the Freshmore hop. The absence of one of the leading committeemen will in nowise endanger the success of the hop, as his place will be filled. The committee will push affairs and announce the date later on. Much interest is centered in this function, as it means the introduction of a new social feature into University life. It is expected all classmen will patronize the hop, and what was started as a joke is turning out to be a bona fide proposition.
