

Sheldon, Prof.

# The Daily Nebraskan

VOL. III. NO. 62

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, JANUARY 6, 1904.

PRICE 3 CENTS

## PREPARE EXHIBIT

Nebraska's Exhibit at St. Louis  
is Being Prepared.

Professor Barbour, who is superintendent of the Nebraska educational exhibit at St. Louis, is at present engaged in vigorously pushing matters to a definite conclusion. He has just sent circular letters to 300 club women in the state; viewing these clubs as educational institutions in a certain sense, for married women. They will be asked to contribute original productions in literature, music and art. Ten thousand letters have been sent out to school teachers. The school exhibits will include specimens of work of various sorts from the kindergarten up through the grades, and even through the normals, colleges and the University.

Dr. Barbour has visited a number of schools in the state and arranged for a large amount of material, much of which has been received. He mentions a number of instances of the surprisingly fine work that is being done by children in some of our state schools, in drawing and sketching, and some of the best productions will be secured for our exhibit. Even in the lower grades Dr. Barbour reports an unusual amount for sketching and designing among the young children.

A half-carload of material has been received and packed up by Mr. Woodruff of the geology department and stored in the basement of Memorial hall. As soon as additional consignments now expected arrive, a shipment will be made to St. Louis.

It is planned to exactly represent at the fair the status of education in Nebraska at the present time. An opportunity will be given us for a comparison with other states in educational progress. Our present status will be represented as fairly and squarely as possible, and no exaggeration of the facts need be made, for our exhibit will show for itself.

The Palace of Education in which all of the educational exhibits will be housed, is shaped like a great key-stone. It is the first that has ever been built at any exposition. It covers seven acres of ground, and is of immense proportions. But even this great building as originally designed was entirely inadequate to meet the demands for space. An open court covering two acres had been left in the center, but it was found necessary to roof it over and utilize the space. A building covering thirty acres would not suffice to accommodate all the requests for space that have been received. Iowa desired 10,000 feet, but was obliged to be content with 900. We would have desired 4,000 feet, but have been obliged to do with much less.

The space allotted Nebraska is advantageously located on the main aisle of the Palace of Education. Here, on a slightly raised floor space of 900 feet square, will stand a booth 30 feet square, with two suitable facades facing the aisles. The wall space will be increased by certain wings, and by cabinets of swinging frames. According to the intention of the chiefs of the department, everything educational should reach a high standard of excellence. Exhibits must be select, condensed, and well classified, bound in books and portfolios. Diagrams, photographs, statistics and the like will be displayed mostly in swinging frames. Other work will be displayed on the wall. In addition there will be counters, book shelves, cases, desks and lockers. It is particularly desirable to obtain history and data concerning each school, to be accompanied whenever possible by photographs of the earlier as well as the later school-houses, the principal and his teaching staff, and groups of representative pu-

## FRESHMAN HOP

Lincoln Hotel, Friday, January 8, 1904

INFORMAL

TICKETS \$1.00

pils of various grades, the proportion of boys and girls, and any other facts which the teacher may deem interesting and worthy to be recorded. From the kindergarten to the University may be found a wide range of material from which to choose that which will represent art, music, literature, drawing, science, manual training, etc.

Adjoining our exhibit will be those of Wyoming, Kansas and Montana, the design being to group all immediate states together. The plan is not to separate the space for each school, but to group the work of all the grades of all schools, making a continuous exhibit. The state normal schools, other colleges and universities will be grouped as the top of our educational system.

The work that is being done in Nebraska embraces many features, and in the end a large and complete exhibit will be arranged ... at will be able to successfully with other states. The schools over the state have in many instances taken preparatory action and others are expected to do so as soon as the matter is laid before them in a definite manner.

### SENIORS VS. WESLEYAN.

Big Match in Basketball in Armory This Evening.

A basket ball game between the Senior team and Wesleyan first team has been arranged and will be played in the armory this evening. This will be a good game, as Wesleyan is in fine trim, having played a number of successful games this season. The Seniors have practically the same invincible Junior team of last year, and while they have no record this year, they are in good practice and will go in to win. Meyers, Noyes, Tyner, Ludden, Flansburg, Meuck and Mellek are the men. We know them all and know they can play basket ball. This game will be a starter for the interclass games and much depends on the outcome. No lover of basket ball should fail to be there. Bring your voices and show your spirit by yelling. The Preachers must be defeated. A large aggregation of Seniors should be present to cheer their team on to victory. An admission of 10 cents will be charged and the game will commence at 8 o'clock sharp.

### Dr. Brace Returns.

Dr. Brace has just returned from St. Louis, where he presented several papers before the American Association for the Advancement of Science, which held its annual convention there December 28 to January 2. Before the American Physics society, which is a branch of the above association two papers were prepared by S. R. Cook, while fellow in the physics department here, were read. Mr. Cook is at present connected with the Case School of Applied Science. Mr. Wm. B. Cantrel, a former fellow in physics here, now of the University of Cincinnati, also had a paper on results of his investigations here; and John Mills, fellow last year, now in Western Reserve University, had two papers.

The Whitebreast Co., at 1106 O St., is the place to buy coal.

See us about our \$2.50 a week rate.—Good Health Cafe.

### HOP AT THE LINCOLN.

Freshmen Denied Fraternity Hall  
For Class Event.

The Freshman Hop will be held at the Lincoln hotel Friday evening of this week, and not at Fraternity Hall, as formerly announced. The price of tickets will remain the same as advertised, \$1.00. The hop will be an informal affair, as planned at first, and the arrangements previously made for the best music, programs, etc., will not be altered. The only effect of the change from Fraternity Hall to the Lincoln hotel will be to give those who buy tickets more for their money than has ever been given before at any University function.

The change was made because of an error in renting the hall to the Freshmen and to another organization for the same evening. The Fraternity Hall was regularly secured by the Hop committee for January 8, but it was discovered this week that the hall was also held for that evening by other parties on a previous long time lease. The change to the Lincoln means more expense to the Freshmen, but there will be no change in prices. The Freshman Hop, judging from all reports, will be largely attended, and will be the most successful informal affair of the year.

### Receives Handsome Gift.

During the holidays Captain C. A. Mohrman of Company B. was the proud recipient of a superb sabre from the members of his company. The weapon is a fine piece of workmanship, the blade being a piece of delicately tempered tin with a beautifully embossed hilt of polished brass. The scabbard is of raised tin and brass, with a strap of braided gold and silver strings. The whole is fittingly encased in a pasteboard box.

Captain Mohrman is much elated and encouraged over this mark of appreciation from the men under his direction, and takes this opportunity of tendering his sincere gratitude for this splendid gift.

### Y. M. C. A. Meeting to Resume.

Next Sunday afternoon at 4 p. m. the series of men's Y. M. C. A. meetings will be resumed at the Oliver. The meeting will be one of the strongest of the series. Mr. "Charlie" Palmer, field secretary of "The Gideons," an organization of traveling men, will speak. Mr. Palmer is a man of wide and varied experience, and is well acquainted with tramp life, from which much of his talk will be drawn. Last Sunday he spoke to a great audience at Philadelphia, and it is expected that a large crowd will greet him here. Music of an unusually high order, to be secured in the east, will also be provided. A special invitation is extended to University men to attend the meeting.

Marshall & Richards, hair cutting, massage, shaving etc., 139 So. 13th.

Don Cameron's lunch counter for good service.

## TWO GOOD GAMES

University vs. Lincoln High.  
Faculty Team to Play.

Friday evening of this week the second basket ball game of the season will be played. Like the last time there will be two games in the evening, one between the Lincoln High School team and another between the High School faculty and our faculty.

The faculty game will be a good one all the way through. No one is to be barred on account of professionalism, and all the men who have ever won fame on a basket ball field will be in the two teams. All step ladders have been ruled out and only the strongest rules of the game will be recognized. The game will be a fight to the finish, no quarter will be given or even asked and all who turn out to see the game will be treated to a first class exhibition and will have no cause to regret their going.

In regard to the other game it is hardly necessary to say anything the respective merits of the two teams are pretty well known and if any one is not thoroughly acquainted with the playing of the Nebraska team it is high time that person became acquainted with them, and now, this coming Friday, is a good time to begin.

The two teams will line up as follows:

### FIRST TEAM.

Nebraska.....center.....Walsh	Lincoln.....
Benedict.....forward.....Raneaud	Hagensiek.....
Elliott.....guard.....Schurr	Beers.....
Hoard.....Bell	Clapp.....

### FACULTY TEAM.

Nebraska.....center.....Murrell	Lincoln.....
Willard.....forward.....Cronan	Condra.....
Congdon.....guard.....Woods	Clapp.....
Clements.....Filpott	Roostrum

In regard to the different trips nothing very definite has yet been decided upon all of them. The western trip is still on the doubtful list. The northern trip is almost an assured fact and the eastern trip is pretty sure; the southern trip being scratched from the list, there will be none.

Just at present everything is at a standstill owing to the recent vacation. Managers have not yet taken up their work, but within the next week things will assume a different aspect and the trips will be settled.

All track men meet in gymnasium at 4 o'clock this afternoon in suits. All wishing lockers can then apply.

The Charter Day program will include the following events, and all of the University athletes are urged to find their specialty and enter:

25-yard dash.

Fence vault.

12-lb. shot put.

Running high jump.

Rope climb.

Running high kick.

Pole vault.

Inter-Fraternity relay race.

Come out and help make the contest a success. Send your entries to Dr. Clapp.

The results of the competition in apparatus work, which was held shortly before the holidays, are as follows:

### The 9 O'Clock Division—

First place:

Anderson, Blanchard, Fawett, Mansfield, Stevens, Woodford, Pritchard, Cole, Finoley, Wilson.

Second:

Anthe, Cramer, Green, Hill, Langeven, Lightner, Roberts, Shumway, Sward, Wilson.

Third:

Davidson, Dwire, Little, Mass, Rants. (Continued on page 3.)
