VOL. III. NO. 88

UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, FEBRUARY 18, 1904.

PRICE 3 CENTS

## LOSE FIRST GAME

### Nebraska Snowed Under by Sioux City Y. M. C. A.

Athletic Nebraska is still rubbing its eyes and trying to find out what really happened Tuesday night at Sioux City. From the meager account received in Lincoln it would appear that our boys were figure heads in the game and that the only way in which they shone was in making fouls—fifteen goals thrown from the foul line being counted against them. In one half the only goals thrown by Nebraska were made by the guards. Sioux City excelled in every department of the game. Hoar and Benedict allowed their men to make six goals apiece, while Elliot and Hagensiek could not hit the elusive basket at all, at all. The final score was 49 to 14, and even Minnesota couldn't do us up worse than that. We hope the boys will ginger up for the other three games.

The Faculty will play the Wesleyan Wise Guys tonight in the Wesleyan chicken coop. Any extra enthusiastic lovers of sport who are willing to hang on a nail in the wall can see the pros. slide around the floor for the small sum of two bits. The faculty will line up as follows:

Emerson, center; Votaw and Moritz, forwards; Engberg and Dorman, guards.

Dr. Condra has been ruled out for professionalism.

At the same time the unvanquished second University team will play the Wesleyan team. Seven of the following men will go to University Place tonight, the revised list will be posted in the locker room this morning: Krake, Miller, Mathewson, Noyes, Myers, Tyner, Flansburg, Milek, Ludden.

For the information of University people will may say that the winner at Wesleyan is determined by the number of survivors of each team from the hot water pipes and the spectators' seats.

The second part of the gymnastic contests occurs on Wednesday evening, March 23. Milek won the first part by a small number of points, and if he wins the next he will receive the title of "University Gymnast" in addition to an "N." The desire for a University emblem should bring out more competitors. Each man may choose three exercises on each of three pieces of apparatus—side horse, long horse, flying rings. On each contest the points will be counted as follows: For approach, 1; for difficulty of exercise, 3; for form, 4; for retreat, 2. The total number of points possible for the entire contest is 90.

Dr. Clapp, Mr. Lane, or Mr. Graves will be on the floor from 4 to 5 on Monday, Wednesday and Friday to help any contestant.

At the beginning of the year a fund was created by the University for the purposes of furnishing law students with equity books. Thus far only half a dozen books have been furnished, and the fund being exhausted no more can be had, thus hampering the work of many of the students.

Don't forget to call for The Daily Nebraskan coupons when trading with Lincoln merchants. Consult our business directory before you do your trading.

Social rates to students wishing typewriting done. 512 Richards block.

Leming's, ice cream and candy: 11th and L Sts.

Special rate to students at Hendry's.

### PEDAGOGICAL CLUB MEETS.

#### Session Addressed by Inspector Crabtree and Dr. Luckey.

The Pedagogical club met at 7:30 last evening after a social season. Professor Luckey began the special program of the evening with some brief but interesting remarks as to the importance of the University teacher's certificate, its standard and its relation to state requirements elsewhere. He emphasized the personality of the teacher and gave suggestions as to the teacher's social relations illustrating the latter by some recent incidents which have come to his notice. He then introduced Mrs. Clark, secretary of the University appointment bureau, who explained some details concerning the bureau's work and the course of procedure for students who use the bureau. She announced that she would have an office hour in the dean's room for convenience in consulting with prospective teachers.

Mr. Crabtree, University high school inspector, gave some practical advice in making plans for securing positions and spoke encouragingly for those whose positions waited till late in the season. He then read a paper entitled "My First School," giving some accounts of his evolution as teacher from the period of air castles to his establishment as a full-fledged teacher. His reminiscences of his preparation and his school experiences made his discussion concrete and practical and added humor and interest to his descriptions.

At the conclusion of the paper Prof. Luckey read a letter from a teacher who has recently gone out from the University,—bearing upon the matter of corporal punishment in a way which conflicts with modern pedagogical ideas on the subject and is hardly in accord with the traditions of the department of education. It is very interesting to see how teachers are meeting school problems. It is, however, possible to apply and modify theory without renouncing it altogether.

The meeting was a success and all must have felt repaid for the time spent.

#### Delta Gamma Party.

Delta Gamma entertained Wednesday at a very delightful dancing party at Walsh hall. The decorative scheme, a huge umbrella of Delta Gamma colors suspended from the corners of the hall by streamers of the same colors, was prettily carried out. Walt's orchestra furnished the music for dancing. Dainty refreshments were served during the evening.

The out-of-town Delta Gammas who came on for the party were Misses Ethel Tukey, Loraine Comstock, Hortense Clark and Edith Dumont, of Omaha, and Miss Hallie Wilson, of Ashland.

Mr. and Mrs. Frank Woods, Mr. and Mrs. John S. Reed, and Mr. and Mrs. A. L. Haecker chaperoned the party.

Professor Barbour has been overrun with applications for positions under the Nebraska commission at the world's fair. Fifty or sixty applications have been received, for whom no places are available. The prospect for University students in getting such places is therefore very unpromising. In fact the number of places is quite limited.

On Thursday afternoon, at 5 o'clock, the Botanical Seminar will hold an open meeting in room 102, of Nebraska hall, for the purpose of listening to a paper by Dr. Clements on "The Pronunciation of Botanical Names." As this meeting is open to the public a general invitation is extended to all who are interested in this subject.

Don Cameron's lunch counter for good service.

Wright Drug Co., 117 No. 11th, phone 312.

Chapin Bros. Florists, 127 So. 13th.

## ATHLETES HIT HARD

### Athletics to Suffer From Ruling Concerning Drill.

In conformity with the military provision passed by the Board of Regents Monday, the following general orders were read last evening at drill:

General Orders No. 5.

The Board of Regents having approved the following regulations affecting the military department, they are hereby published for the information of all concerned:

Thirty cadets will be excused at the beginning of the first semester to participate in football athletics. The men so excused will be required to take military work the second semester of each year until their military requirements are completed.

No student will be excused from military work the second semester on account of athletics.

By Order of  
CAPTAIN CHASE.

The purpose as well as the probable result of the above order is apparent. It simply means that our track team and baseball nine are to be greatly hampered in their work, perhaps, even to the extent of being made impractical. Dr. Clapp in reply to the inquiry of a Nebraskan reporter yesterday said:

"The ruling will undoubtedly work great injury to our track and baseball work. It is an undisputed fact that a runner can not do good work if forced to take military drill, and I am surprised that so stringent a provision should have been made. The military requirements here are already, so far as I can discover, stricter than in any like institution in the country."

"In respect to the provision excusing football men yet making it obligatory for track and baseball men to drill I can only say that to me it seems unfair."

A prominent member of the battalion who is also interested in athletics stigmatized the action of the Regents in very unstinted terms. "The regulation is unfair in the extreme," he said. "The Board can not have fully understood the situation and the effect the order will have when it passed it. It may mean the ultimate disbanding of our ball team, and, in any event, can not fail but seriously effect the success of spring athletics in the University. A majority of our athletes would have to drill under the proposition, and I for one, can not see how our spring athletics are to be successful if the order is enforced. It is a clinch that a success could not be made of our annual baseball trip if the provision were carried out."

Another prominent cadet officer took much the same view of the situation, and gave it as his opinion that the athletic men could evade the order if necessary by falling back on the statute which makes provision for the military departments of such institutions as the University. He stated that this requires drill of industrial students only, and declared that men of other colleges could not be forced to drill.

Leaving this phase of the matter out of consideration, however, the order leaves the baseball and track team situation in a very discouraging condition. It is probable that majority of the candidates for the baseball team have not completed the drill that is now required and if they are forced to drill this semester the outlook for the baseball season is indeed gloomy. It was even stated to us on excellent authority that Captain Townsend himself would be forced to drill under this order.

Here is the regulation is passed by the Board of Regents. The remainder of the minutes of the meeting will be found on another page of The Nebraskan:

"In the matter of athletics and military requirements, it was ordered:

"1. To allow thirty cadets to be excused at the beginning of the first semester to participate in football athletics. These men to be required to take military work the second semester of each year until their military requirements are completed."

"2. No substitution of courses permitted."

"3. No student to be excused from military work the second term on account of athletics."

"4. After registration, the registrar to check off the male students registered to ascertain if students who are required to take military drill have registered for the same and to require the attendance of those not registered when it is their duty to do so."

### Pawnee Club Meets.

Tuesday night the Pawnee club, which is an organization of University students from Pawnee county, entertained the Pawnee City high school Senior class at the home of Mr. and Mrs. Shinn, 2927 P street. The class came up Monday for the purpose of attending the Charter Day exercises and investigating the facilities of the University. It was chaperoned by Superintendent Griffith, and many others took advantage of the opportunity to visit their relatives and friends attending the University. The rooms were beautifully decorated with crimson hearts strung from the corners to the chandeliers. About ten o'clock refreshments were served by the social committee. The ices, representing the U of N colors, were cheerfully enjoyed, and much credit is due Misses Lillie Bennett, Eva Casey and Mr. Richard Stuyker for their useful and artistic services.

After listening to a speech by Mr. Griffith, which he was called upon to give, unexpectedly, the party departed for home, hoping for another pleasant meeting soon.

### Academy Girls Basketball.

A great deal of excitement is being raised among the students of the Academy over the anticipation of a lively contest at basketball next Friday evening between the ladies of the Academy and the city Y. W. C. A. team, which will take place at the Y. W. C. A. building on the corner of 12th and M streets. The Academy team will be coached by Miss Dean and the Y. W. C. A. aggregation by Miss Woodsmall, with Miss Pound as officer of the game. The patronesses will be Mrs. Hodgman, Mrs. Barbour, Mrs. Barber, Mrs. Bessey, Mrs. E. E. Bennett, Mrs. M. H. Woodsmall, Mrs. Martha Pierce and Mrs. Wallace. The admission price is 25 cents.

### Athletic Board Meets.

The Athletic Board met last night in regular session. The meeting was largely occupied with discussion of various matters. John Westover was elected assistant coach for next year, and J. K. Morrison assistant football manager.

Professor Bessey expects to leave for Colorado Springs on Saturday afternoon so as to be present at the dedication of the new science hall of Colorado College. He is to deliver an address on "The Possibilities of the Botanical Laboratory," on Monday afternoon. Other speakers are prominent educators of the country, all men of international reputations.

Box of cigars given away every day at Powell's Oliver theatre building.
