REGENTS DELIBERATE.

**Transact Important Business.
The New Buildings.**

The Board of Regents met at 2 o'clock on Monday with all members present except Regent Ernst. The Regents elect, C. S. Allen and W. G. Whitmore, presented their credentials and assumed their duties, succeeding Messrs. Forell and Kenower, whose terms had expired.

The election of president of the Board being the first order of business after the reading and approval of the minutes of the last meeting, it was ordered on motion of Regent Calkins that Regent Teeters be elected president of the board to serve until the June meeting next or until further action of the board.

Upon recommendation of the several faculties it was ordered that degrees be granted, together with teachers' certificates, and that diplomas and certificates be awarded to the candidates so recommended.

A number of appointments to minor positions since the last meeting of the board reported to the chancellor were approved on motion.

Provision was made for conducting the summer school of 1904, the chancellor being authorized to appoint Professor Hodgman as director of the school.

A satisfactory report having been made upon the titles to land for the establishment of a sub-station at North Platte, Neb., the secretary was instructed to make payment for the land in accordance with former conditional orders of the board. Regulations for the organization of the work of the new experimental sub-station were adopted and the recommendations of Director Burnett for the appropriation of money to start work were referred to the committee on Industrial Education with power to act within the legislative appropriation made for the purpose.

The plans and specifications for the construction of the school building at the farm, the physics and administration buildings on the city campus, together with a proposed form of building contract, were referred to the building committee. Regent Allen was appointed a member of the building committee, succeeding ex-Regent Forell. It was ordered also that the location of the physics buildings remain as heretofore recommended by the building committee and a communication from the Athletic Board concerning re-arrangement of the athletic grounds was referred to the building committee with power to act.

A committee from the Nebraska Corn Growers' association was heard, presenting a request that the Regents include in their next biennial estimates to the legislature an item of \$10,000 to be expended under the direction of the board in the interests of the Corn Growers' association.

The special committee upon water supply for fire protection was instructed to further investigate the cost of the proposed reservoir or cistern and present a proposition to the council of the city of Lincoln for co-operation in that matter.

Leaves of absence were granted to Professor Lyon and Adjunct Professor Almy for the purpose of pursuing study at other institution.

The special committee heretofore appointed upon the revision of the by-laws of the board submitted a preliminary report, and on motion it was ordered that that portion of said report renaming and defining the duties of the standing committees of the board be approved. The special committee was continued with instructions to make a further report at the next meeting of the board.

It was voted to establish a new department under the title of Jurisprudence and Public Law, the same to be in charge of Dean Pound, of the Law college, assisted by Professor Cook, and that the titles of the department and the professor of American history and jurisprudence be changed to American history and politics.

It was ordered that the building committee be requested to report to the board at a subsequent meeting relating to the necessity of fire escapes for certain buildings of the University group. President Teeters announced the following committees of the board, in con-

(Continued on page 4.)

**How Old is "Black Joe"
and "White Sue"?**

If "Black Joe" is twice as old as "White Sue," and "White Sue's" cat is twice as old as "Black Joe's" dog, what would be the difference of age between "Black Joe's" pigeon and "White Sue's" duck if "Black Joe's" pigeon was seven years older than "White Sue's" cat when "Black Joe's" dog was three years younger than "White Sue's" cat four years ago, and their combined ages was seventy-two years.

How old is "Black Joe" and "White Sue"?

Read this space next issue and in the meantime chew "White Sue" gum for dark-brown taste, "Black Joe" for the complexion, and a "Pleasant Smile" for the blues, and don't forget to save the wrappers.

Homeseekers' Excursions.

On February 2 and 16, March 1 and 15, April 5 and 19. Tickets will be sold at one fare plus \$2.00. Return limit 21 days.
