COULD NOT AGREE

Greeks Meet to Settle Pan-Hel. Difficulty, but Fail.

The Contending Factions May Both Give Dances.

The meeting of the delegates to the Pan-Hellenic dance committee was held yesterday at 11 a. m. in U 110 and, as was expected by those next, no agreement was reached as to who should be chairman and master of ceremonies and the committee split in two. When two notices that there would be a meeting of the committee each signed by a different set of committeemen, appeared on the bulletin board it seemed certain that the two factions could not get together, and the result of the meeting proved this to be true. The two factions whose names were signed to the two announcements were composed of Messrs. Tunison, Crawford, McLaughlin, Woodward, Sweeley, McGeachin and VanBurg and Messrs. Westover, Johnson, Macrae, Neely, Stratton, Parr and Scribner, and when the meeting broke up these two factions were still intact. The fight developed itself into a struggle of the society, which has for some years controlled the Pan-Hel, to retain this control, and of some of the other fraternities not in sympathy with this society, to wrest the dance from them. An hour was spent in futile leading and guarding without anything definite being done save for the fact to become evident that no agreement could be reached. Each side expressed itself as willing to make concessions but just what concessions it was not learned for no propositions were made. The vote of Phi Rho Sigma, the medical fraternity and Sigma Omicron Beta with a chapter at Chicago and two alumni at Michigan were the bones of contention. Those opposed to the medics opposed their vote on the ground that that society had never been voted in. The other side opposed Sigma Omicron Beta on the grounds that this organization had never taken any active part in University affairs and were not a representative organization. At the end of the hour nothing had been gained toward agreement and on motion to admit Sigma Omicron Beta the final split occurred. Both factions immediately proceeded to elect officers for the dance. The anti-Theta Nu Epsilon side have already secured the Auditorium, Walt's orchestra and made other arrangements and have set the date for what they insist is the Pan-Hellenic dance for Friday, May 26th. Just what action the T. N. E. Party proposed to take is not known. Nor is it known whether their dance will also be styled the Pan-Hellenic or whether it will be the regular Theta Nu Epsilon dance.

The two factions are:

- Delta Upsilon.
- Delta Tau Delta.
- Phi Rho Sigma.
- Phi Delta Phi.
- Alpha Theta Chi.
- Phi Gamma Delta.
- Sigma Alpha Epsilon and Kappa Sigma.
- Phi Delta Theta.

Juniors Meet.

The juniors met yesterday in the Chemistry lecture room at 11 a. m. Chairman Schreiber of the cap finance committee reported that twenty-five dollars and fifty cents was still due on the class cap debt. The committee appointed some time ago to devise some means of raising the balance due recommended that an assessment of twenty cents be made on the members of the class. This was to include students who were members of the class last year and failed to make sufficient credits to be ranked with the class this year. Active solicitation for the money will begin next week.

After considerable discussion it was decided to appoint a committee of five to have charge of the junior reception to the seniors. The class voted to stand good for the deficit should there be one and anything that might be made on the entertainment will go into the class treasury.

Convocation Today.

The musical program prepared by Mrs. Raymond for Convocation this morning is to be something unusually fine. It is another song cycle, similar to those which have been so well received before. Mr. Johnston and Mr. Gillespie we have heard in song cycle quartettes before, but this will be the first opportunity of hearing Miss Raymond and Miss Cutter. The program is as follows:

SONG CYCLE.

- Captive Memories—Ethelbert Nevin.
- Miss Eleanor Raymond, soprano.
- Miss Grace Cutter, alto.
- Mr. George Johnston, tenor.
- Mr. B. B. Gillespie, bass.
- Miss Alice Howell, reader.

REGENTS' MEETING

Dean Pound's Resignation is Finally Accepted.

Committee on Successor Appointed.—
Session Was Short.

At a meeting of the Board of Regents held Wednesday Dr. Pound's resignation as Dean of the Law College, which was tendered some time ago, was accepted. At the last meeting of the Regents a committee of the law students was given a hearing and a special committee appointed to confer with Dr. Pound. The law committee presented a petition drawn up and signed by the students of the law college protesting against the acceptance of his resignation because of the unusual ability and popularity of the Dean. The Regents refuse to give out anything in regard to the conference with Dr. Pound.

Although Dr. Pound has been a member of our faculty only two years he is counted as one of the most popular professors that the University has ever had. He has not only proven himself to be a master in his position but has also taken an active interest in the general life of the University, being at the present time a member of the athletic and debating boards.

He will engage in active practice after the expiration of his time as Dean.

The following is the official reports of the meeting of the Board of Regents:

The Board of Regents met in special session Wednesday afternoon. Regents Allen, Calkins, Ernst, Rich and Teeters were present. The business of the meeting was for the most part in regard to the resignation of Dr. Pound. It was ordered that the resignation of Dean Pound of the Law College be accepted to take effect July 1, 1905. The matter of appointment of a dean to succeed Dr. Pound was referred to a committee consisting of Regents Allen, Rich, Ernst and Teeters. This committee will report at the next regular meeting of the Regents, or at a special meeting in its discretion.

It was also ordered that such room as may be available in the new administration building be assigned temporarily by the building committee to the use of the department of experimental psychology.
