ASSUMING SHAPE

Football Schedule Rapidly Being Brought to Completion.

Baseball Dates Are Not Yet Filled—Some Good Home Games.

Ex-football Manager Davis announced yesterday that Nebraska's schedule for contests on the gridiron next season is assuming a definite shape. It is planned to arrange for eleven games, and of this number seven have already been definitely settled. Among the seven scheduled are some decidedly stiff propositions, and with the other four now being arranged the Cornhuskers will have to develop a football machine well nigh perfect to keep up their enviable record. The trouble among several of the Big Nine teams has apparently been settled, and the end of this week should find our schedule completely rounded out. Prospects are very bright for some excellent games on our own grounds, and if plans do not go wrong at the last minute the schedule for 1905 will be better than that for last season, and will be arranged in a manner far better suited to bring out the best in the team. The names of the colleges with which games have already been arranged cannot as yet be made public, as some of those with whom Mr. Davis is now in communication may not come to terms, thus necessitating other changes. The completed list of games will be ready for publication in the near future.

As yet baseball Manager Allen has been unable to fill out the three dates left open on the eastern schedule. These open dates are the result of a failure on the part of three colleges with whom negotiations were pending to come to terms. The schedules of many of the larger schools, when communications were sent, were too far advanced to permit them to place Nebraska on their list. It may be necessary to change some of the dates already considered settled in order to fill these still open. Arrangements are being made to give the baseball fans better games on the home grounds this year than they had last, but the list of these games is not yet complete.

An important collection of grains, grasses, etc., recently received by the Department of Geology as a contribution to the state museum is now being placed on exhibition by the curator. The contribution consists of three hundred and thirty-seven collections of grains, grasses, etc. The collection was received from Argentine Republic being sent to the State Museum by E. N. Nelson, commissioner of agriculture of Argentine Republic. The collection was prepared by M. Angel Peluffe Calle Artin, Buenos Ayres. H. G. Shedd, secretary of the Nebraska commission at the world's fair was instrumental in securing the collection.

Manifolding and typewriting. See Ed. Afolter, check room, basement Uni hall. University rates.

NINTH ANNUAL PAN-HELLINEC DANCE

Auditorium, Friday, May 26th
EVENING OF COMPETITIVE DRILL.

EDDIE WALT'S FULL ORCHESTRA.

Make Donations.

The various schools of the state which sent exhibits to the world's fair held at St. Louis last summer are donating their exhibits to the University where they will become the permanent property of the State Museum and will be placed on exhibition in cases especially prepared for that purpose. The State Museum has procured about five hundred dollars worth of cases in which to suitably display these exhibits. The University purchased the booth in which the Nebraska school exhibits were made at the fair and Professor Barbour, who was superintendent of education at the fair has made arrangement to erect the booth and give the exhibit at the Nebraska State Fair. The school exhibits will be displayed in the booth at the fair each year. The following schools have donated their world's fair collections: Omaha, Lincoln, Beatrice, Plattsmouth, York, Kearney, Tecumseh, Superior, Gering, Doane College and Luther Academy.

In the Law Shop.

An announcement of a Brief Making Contest appears in the Law Library, open to all students, enrolled as undergraduates in law schools in the country. Fourteen prizes ranging from \$50 to \$10 are awarded for the best briefs on a case outlined. The briefs must be received before April 15.

President Nelson of the Freshman Law class called a meeting of the Freshman Laws Monday at 11 o'clock to provide for a class representation in athletics this spring. A committee was appointed with B. F. Butler as chairman to look after candidates for a baseball team. Another committee with H. W. Ewing was appointed to arrange for a track team.

The Debating Squad held two tryouts Saturday preliminary to the selection of the teams. Another debate will be held this afternoon which will probably be the final tryout before the two debating teams are announced.

Complimented.

The Nemaha County Herald, published at Auburn, Neb., gives a column and a half to the concert given by the Glee club at that place a week ago. The remarks contained in the article were complimentary in the extreme, the club, and Miss Archibald and Mr. Myers being praised in the highest terms. Only one criticism was offered and that was that the program was a trifle too classical for the towns at which the club is to appear throughout the state. The Herald closes its comments with the wish that Auburn may be favored again next year with another program by the Glee club.

Changes Planned.

In order that the advantages of the smaller college may be combined with those of the larger university President Harper, of the University of Chicago, has made plans which anticipate radical changes.

"Like Oxford, Chicago is to be divided into small colleges, each to have a separate name, but all to be under one head and one scheme of direction. About twelve or fifteen new buildings will be erected for that purpose. It is estimated that \$5,000,000 to \$10,000,000 will be needed to carry out Dr. Harper's schemes.

Thus far no gifts have been received to cover the cost of such a change."

President Wilson, of Princeton, has recommended the expenditure of some \$10,000,000 to carry out a similar change at that institution.

First to Organize.

The girls have organized a tennis club which will be an organization similar to the men's club. They have secured the lot southeast of the campus for their court and will have it put in order as soon as the weather permits. A goodly number are in the club and much enthusiasm has been shown.

Lincoln Local Express, 1030 N street. Both phones.

GIRLS GO NORTH

Receive Invitation to Play Minnesota on March 17.

William Jewell College to Wind Up the Basketball Season Here.

A telegram was received by Mrs. Clapp yesterday from Minnesota asking for a game with the Nebraska girls' basketball team. After taking the matter under consideration a reply was sent to the affirmative. This is not the first request that the girls' team has had this year from Minnesota for a game, but it was thought impossible until just lately to make the trip.

This game will be played in Minneapolis on March 17. The girls will have a hard game when they meet Minnesota but the team was never in better form and playing better ball than they are at the present time. With an even chance and no accidents the girls should return from Minnesota with a victory.

Word received from Lawrence, Kansas, says that the Haskell girls are practicing hard for their game with Nebraska on Friday night in Lincoln. Mr. Fallis, who has been coaching the team, will accompany it to Lincoln and act as referee in the game. Fallis played on the Haskell basketball team when they played in Lincoln two years ago. He is also known to the University as a Haskell football player, having played on the Haskell team for several years and is one of the mainstays of the team.

The varsity basketball team will play the team from William Jewell college of Liberty, Mo., in the Armory on March 16. This will be the final game of the season for the varsity players and a large attendance is expected to see the team end its already successful season.

The team from William Jewell college plays a good game this year and has had very good success. Their team work has been good but at this point of the game they will find a match in the varsity whose team work has been exceptionally good the past season. On their recent trip while defeated by better goal throwing their team work in most every case was the better.

The varsity has played sixteen games thus far this season and has been victorious in ten of these games. This gives a good percentage of the games played won. They have also made two trips, playing eleven games out of which they won seven.

The Kansas legislature has passed a bill appropriating \$560,750.00 for the support of the State University. The amount is to be used as follows:

Maintenance \$433,800, for a gymnasium \$100,000, to finish the law building \$15,000, and \$11,950 to buy more land for the University grounds.

Bills, aggregating some \$600,000 are now in the house or senate of the Nebraska legislature appropriating various sums up to this amount for the use of the University. As yet not one of these bills has been passed, but with the exception of one all are expected to be acted upon favorably.

"MISS CIVILIZATION" AND "MR. BOB"

Presented by the University Dramatic Club.

Benefit of Uni. Y. W. C. A.

Memorial Hall, March 11, 8 p. m.

Tickets 25 Cents.
