SCHEDULE MADE

Inter-fraternity League Games Arranged For.

The First Game Will Be Played Next Saturday.

Representatives of all but one of the fraternities met last night at the Sigma Alpha Epsilon house and drew up a schedule of dates by which the inter-fraternity baseball league games will be played. Instead of scheduling each fraternity for a game with every other fraternity the committee decided to divide the ten represented in two groups. O street was chosen as a convenient line of demarcation and the schedule was so arranged that the fraternities residing north of O are to play each other and those on the south side have a similar arrangement. The winners of the two divisions will then play for the inter-fraternity championship. This arrangement is by far the most feasible, the old way of each team meeting every other usually having resulted in a number of games never being played and teams disbanding because of lack of time. A shorter schedule completed will add greater interest to these games. The first game will be played Saturday between the Delta U and Sig. Alph teams. President Williams, of the league, will toss the first ball over the plate in the opening game. McLaughlin, of Kappa Sigma, is secretary of the league.

The following rules were adopted to govern the games:

1. All active men, except those who have an "N" or are entitled to one, in baseball, are eligible to play in the fraternity league.
2. The games shall be played on the days set in the schedule, the captains of the contesting teams shall decide upon the hour of the day.
3. Any team not appearing within thirty minutes of the time decided upon shall forfeit the game, 9 to 0.
4. The length of the game shall be from five to nine innings. This to be decided upon by the captains of two contending teams.
5. The games shall be played under National League Rules.

The schedule will be printed in tomorrow's paper and the percentage will be given from time to time.

First Game.

Practice on the diamond yesterday consisted of batting practice, catching and throwing to bases. Two teams were chosen and lined up for a few innings, the players being shifted from time to time. The progress the men have made thus far will be first seen Saturday when an aggregation under the name of the Lincoln Town Team will line up against the Varsity. The season is too little advanced as yet to form any definite idea of the probable Varsity make up. As many men as possible will be given opportunities to get into the game. Play starts at 3 p. m. Admission price has been placed at 25c.

Chris' Bath House, corner 11th and P streets.

Big lot of Spring Samples, one-half off. Sanderson's.

BAND INFORMAL

Saturday Evening, March 25

Dancing at 9:30 sharp.

...ART HALL...

Costumes Pictured.

Prof. C. E. Persinger gave a very interesting historical lecture at Convocation yesterday on "Three Centuries of American Costumes," fittingly illustrated by lantern slides. In a few preliminary pictures Prof. Persinger showed the development of the English costumes of both men and women in the fourteenth century, at the period of the American Colonization and in the time of Gladstone. He then portrayed the American costumes at the periods of the Virginia and Puritan Colonization in the beginning of the 17th century showing the styles of dress of the men, in civil and military life, and women.

The first radical change in costumes came at the end of the 17th century when the fantastic wig was introduced from Europe. This headgear some gave way to national hair extremely powdered.

Types of wigs worn on various occasions were pictured. It is said that the men spent more time in dressing their wigs than women, which judged from today's feminine conventionalities seems hard to believe.

Another distinct change of dress was introduced in the Revolutionary period when the large triangular hat came into fashion and very gay colors predominated.

Again the French Revolution created a decided change in dress, the tight knee britches giving way to long trousers. This new style affected the democratic west, abruptly but the aristocratic east long clung to the old fashions.

The last radical change in methods of dress was made between 1840 and fifty when the styles assumed forms similar to modern times. At that time the "Prince Albert" coat was invented and the high silk hat was universally worn. With the ladies the return of the huge hoop skirt added fascination to their figures.

House Roll 169, the bill for the condemnation by the University Regents of land for an extension to the University campus, came up in the Senate yesterday for consideration and the Committee of the Whole recommended that the bill be indefinitely postponed. However, the Senate failed to concur in the report of the committee and another opportunity for the friends of the bill to secure its passage will be afforded this morning, when the bill will come up for the third reading.

Unl. Pennants at the Co-op.

Y. W. C. A. Receives.

The Y. W. C. A. received yesterday afternoon in honor of Miss Goldie Corwin, traveling state secretary of that association. About two hundred and fifty young ladies met Miss Corwin during the afternoon. The Y. W. C. A. rooms were daintily decorated and light refreshments of fruit and nabisco wafers were served.

Miss Corwin will remain in Lincoln for the next ten days during which time she will be entertained at the University Woman's Building. She spends her entire time visiting the various Y. W. C. A. organizations throughout the state, the majority of which are connected with the various colleges in Nebraska. Miss Corwin will address the young women of the University in Memorial Hall Sunday from three to four. All women in the University or outside, whether or not members of the Y. W. C. A., are invited to attend this meeting.

Prof. Wolcott Lectures.

Professor Wolcott, of the Department of Zoology, gave an illustrated lecture before the Nebraska Entomological Society last evening in the entomology laboratory on "Tiger Beetles." The lecture was illustrated by department specimens of the "bugs" and was very much enjoyed by the members of the society who were present. The society meets every Wednesday evening in the entomology laboratory and any one interested in the study of entomology is invited to attend the meetings.

To Attend Chicago Meeting.

Inspector Hodgman will leave next week for Chicago to attend the meeting of the North Central Association of Colleges and Secondary Schools to be held in that city. He will also attend a meeting of inspectors to be held in connection with the meeting of the Association. The meeting has to do with a plan of general accreditation which shall be good in any state concerned. The University was represented last year by Professor Barber and Inspector Crabtree. The Lincoln Academy was one of the Nebraska schools which secured accreditation in this association last year.

The announcement of the newly elected members to the Society of Phi Beta Kappa will be made Wednesday, April 5th, instead of March 29th, as reported in yesterday's issue. Conflict of dates prevented the Society from obtaining the Chapel for the earlier date.

Lincoln Local Express, 1039 N street. Both phones.

Oyster stew 25 cents at Cameron's new Restaurant, 119 South 12th.

OFF TO MISSOURI

Girls Left Last Night for Game With Columbia Girls.

Several Receptions for the Team Planned During Their Stay.

Last night the Girls' Basketball team left over the Missouri Pacific for Columbia to play the University of Missouri tonight. This will be the only trip the girls will take this year with the possible exception of a trip to Omaha to play the Omaha Y. W. C. A. Ten girls will make the trip and aid in wresting victory from the Missouri girls.

Dr. and Mrs. A. Ross Hill have arranged a series of receptions and parties for the girls so that the time while in Columbia will pass most pleasantly. The first reception given the girls will be this afternoon at Reed Hall. Miss Lewis, the Dean of Women, assisted by the University girls have arranged this reception for the Nebraska girls. Thursday evening a dance has been planned and will be an introduction of the girls to the University students.

Friday, the day of the game, has also been arranged for in order that the stay in Columbia may not grow monotonous. In the afternoon a reception will be given in the honor of Mrs. Clapp and Miss Pound at the home of Dr. and Mrs. Hill. This will be the chief social function of the trip.

In the evening the object of the trip and main event will occur. The team has practiced hard for this game. The difference in the size of courts will be a handicap to the team, as the Missouri court is only 39x34 in size which is about half the size of the Nebraska floor. Besides six players will be used on each side instead of the regular five. The team has been practicing in the City Y. W. C. A. court this week in order to adapt their style of play to the small floor.

After the game another dance will be given at one of the fraternity houses. A farewell will be held for the girls on Saturday morning in the way of a breakfast. This will be the last of the series of festivities in store for Nebraska's girls basketball team at Missouri.

The girls who will make this trip are: Misses Pearl Archibald, Marguerite Pillsbury, Inez Gettings, Alice Towne, Inez Everett, Minnie Jansa (captain), and Ruth Woodsmall. Besides there will be Mrs. Clapp, Miss Pound and Eleanora Miller, of the Lincoln High School, former captain of the team.

Mrs. Clapp will act as referee in the Missouri game.

Six Thousand Distributed.

The first number of the new University Journal was sent out to some six thousand teachers throughout the state. With the exception of the quality of the paper used and one or two details in the general makeup of the Journal, the first issue was considered very acceptable by the Board of Editors. Subsequent issues are expected to remedy any defects in the first issue.

For Furs see Steele, 143 S. 12th St.
