EIGHTH VICTORY

Nebraska's Debaters Win by Unanimous Decision.

Contest With Iowa Adds Eighth Placard to Trophy Room.

"DEBATE NO. 8—VICTORY NO. 8."

A new placard upon which the above words are printed has been placed by the side of the other seven in the Debate Trophy room. Last night in Memorial Hall the Nebraska team, composed of Charles A. Sawyer, Earl M. Marvin and Charles A. Sunderlin, defeated the University of Iowa team by unanimous decision of the judges.

The question debated was "Resolved, That the second sentence of the second section of the Fourteenth Amendment to the Constitution should be repealed." Nebraska maintained the affirmative. The contest as a whole was a very excellent one, the Iowa team evincing a thorough knowledge of the question and much skill in presentation and the Nebraska team coming fully up to the standard set by our previous victorious teams. The substantive cases of each team were clear and clean cut, the Nebraska team, however, having much better team work than the Iowa team. The last round of refutation speeches were to be complimented and the way huge chunks of logic and evidence were hurled back and forth was especially delightful to all lovers of argumentative combat. One fact apparent to all, however, was that the analyses of the two teams did not collide. Each team tenaciously defended its analysis and it was the superior analysis of Nebraska that in part won for her the debate.

A large crowd greeted the teams, and the speakers received generous applause when introduced and after they had concluded.

The decision was greeted with a storm of applause and the Nebraska yell was enthusiastically given, while the victorious debaters were tossed by their admiring friends.

Hon. Elmer J. Burkett, United States senator, was the presiding officer of the evening. Before introducing the first speaker, Senator Burkett gave a short address in which he mentioned the importance of the question debated, remarking that it was at the present time receiving the attention of congress and the public.

The Glee Club quartette was announced on the program to render some musical selections, but unfortunately at the last moment the members informed the secretary that it would be impossible for them to be present.

The judges who rendered the unanimous decision for Nebraska were as follows:

President Garrett L. Droppers, University of South Dakota.

Professor John B. Phillips, University of Colorado.

Professor Clark M. Young, University of South Dakota.

The members of the Iowa team were:

F. E. Snedlicor, '05, Cherokee.

B. F. Wyland, '05, Harlan.

S. E. Skelley, '05, Iowa City.

Alumni

E. P. Morrison has become a partner in law with F. P. Walsh of Kansas City.

W. T. Stevenson, '05, has been elected principal of the high school at St. Paul, Nebr.

Miss Margaret Loomis, '04, has been elected to a position in the Table Rock high school.

Miss Meta Shaper, '03, has been re-elected as an instructor in the Fullerton schools.

Miss Mabel Roper, '04, will be an instructor in English in Redwood Falls, Minn., high school next fall.

Prof. H. C. House, M. A., '98, professor of English in Kingfisher College, Oklahoma, spent his spring vacation in Lincoln.

J. S. Snoddy, who took his master degree in Nebraska, '98, has recently published a little booklet entitled "Sidney Lanier, the Poet of Sunshine."

Charlotte Hullhorst, '02, who has been studying music in Chicago, has recently signed a contract for a three months' engagement with a concert company.

O. T. Swan, '03 and '04, writes to Professor Bessey from Brainard, Minnesota, where he is packing 100,000 seedling pines for planting upon the forest reserve in central Nebraska.

Among some of the advance sheets of the report of United States Geological Survey received by the department of geology is a topographical map of the northern portion of the Big Horn basin, drawn by C. A. Fisher, '98. The map is intricate and exactly done. Mr. Fisher is a former assistant in the department of geology in the University, and was for one year assistant to Professor Dana of Yale College. The map will appear in the United States Geological Report on that portion of the country when it is issued.

"Be Something: Do Something: Get Something" is the interesting subject which Dr. D. L. Thomas of this city will discuss before University men Sunday afternoon at three o'clock in Art Hall. Dr. Thomas has filled some very important pulpits in this state as well as in others, having come to Lincoln from Beatrice, where he is well liked and very popular. Dr. Thomas has a direct, vigorous delivery and has the ability to say things that interest young men. No University man can afford to miss hearing this address. Art Hall, Sunday, 3 p. m.

The meeting of the Pedagogical club Tuesday evening will be held at 7 o'clock and will not interfere with the debate. Dr. Frederick E. Bolton, of the University of Iowa, who addresses the club, will speak on the subject of "Imitation."

Most every man enjoys springing a spring hat for Easter. We're ready to satisfy every demand for the new spring shapes. We believe we have the best hat store in these parts. Paine.

Sanderson's new shoe store is a beauty.

TAKE THE FIRST

'Varsity Wins First Game With Nebraska Indians.

Morse Pitches a Steady Game—Final Score 4 to 5.

During a fierce snow storm yesterday the 'varsity batted out victory over the Nebraska Indians by a score of 5 to 4. The severe cold made it almost impossible for either team to play in their regular form, but all in all the game was a good exhibition of ball playing.

Everything looked red in the first inning when the Indians succeeded in finding Morse for three safe hits and bringing three men across the plate. But this was the only inning they were able to bring in any runs with the exception of the fifth, when Taboshegesick made a run. The redmen made but four safe hits and with these they succeeded in getting their four runs.

The 'varsity started the ball in the first and it never stopped rolling, although it slowed down a little, until the eighth, at the end of which five men had crossed the plate. The way the 'varsity wielded the wagon-tongue was not slow, and even little Tobey had to grit his teeth when he would think of the way they hit his twisters. Cook, who has charge of the center garden, got everything in the shape of a ball that came his way, and as a result four put outs are credited to his name.

Guy Green has some speedy players in his bunch and with more practice as a team they will cut out some of the errors. Small Bird at short is a quick little fellow and covers his territory well. Guyon and Taboshegesick are also first-class men at catch and the initial bag, respectively.

The number of errors was cut down by the 'varsity considerable yesterday. All the errors made were excusable considering the weather. Rine played a great game at second, and succeeded in smothering one that came his way without an error. The other men showed vast improvement over other games.

Today the battery will be changed, in that Dort will pitch. The old Indian pitcher and their standby will twist the sphere for them. Summary:

INDIANS.		AB.	R.	H.	P.O.	A.	E.
Small Bird, ss.	4	0	1	1	7	1

SCORE BY INNINGS.

	1	2	3	4	5	6	7	8	9
Neb. Indians	3	0	0	1	0	0	0	0	4
Nebraska	1	0	2	0	1	0	0	1	5

Two-base hits—Hyde, Morse, Rine, Striped Snake.

Three-base hits—Small Bird, Cooke. Sacrifice hits—Fenlon, Reddick, Barta.

Bases stolen—Engelhardt, Guyon. Double plays—Rine to Barta.

Bases on balls—Off Morse 2, off Thorngresau 1.

Hit by pitcher—By Morse 1, by Tobey 2.

Struck out—By Morse 3, by Tobey 2. Time of game—1:45.

Umpire—Mickel.

The Senior class of Beatrice high school, accompanied by Superintendent Mumford, came down to Lincoln yesterday to visit the University and hear the debate held last evening between Nebraska and Iowa. The delegation numbered about twenty. The Beatrice students felt a special interest in the debate because of the fact that E. M. Marvin, Nebraska's second speaker, is a graduate of Beatrice high school and won his first "spurs" in debating as a representative of that institution. The party was taken through the libraries, laboratories and other University places of interest. The party enjoyed a very pleasant visit with the Beatrice students in the University.

Following the suggestion made by Professor Davis, of Harvard University, an attempt is being made by a number of state universities are preparing to make observations to aid in determining the curvature of the earth's axis by observations on altitude of the sun. Superintendent Fee and Mr. Anderson are erecting the apparatus for this University and the department of geology will make the observations and note the results. These will be very important observations for scientific study and it is expected that some very encouraging results will be obtained from them.

Mr. E. A. Sheldon, field work director for the State Historical society, is about to accomplish what he has been planning for two years. He expects to obtain a phonograph record of as many old-time Indian songs as are extant. He has been experimenting for the past week and, with the assistance of Miss Vera Upton and Miss Beile Howell, has met with such success that he has decided to take a machine with him this summer when he visits the various reservations and get the "real article" from the throats of the present generation. The only similar attempt along this line was made some years ago by a Smithsonian.

Word has been received from O. H. Timmerman in which he says he is working with a construction party just 300 miles northeast of Los Angeles, Cal. The country there is all desert and food, supplies, etc., must be sent to the party from Los Angeles.

The Auditorium Skating Rink will be closed during Innes' Band Concert. Will re-open April 15. Season closes May 4.

Lost—Ladies' gold watch with leather fob. Return to Nebraskan office and receive reward.
