Track Men This Morning.

Dr. Clapp has called a meeting of the track men at his office today at chapel time. All the men are urged to be out since one of the objects of the meeting is to correct faults noticed in Saturday's preliminaries. A number of new men were out and the meeting will be especially valuable to them.

All classes should look up their men for next Saturday's inter-class meet, since material for the varsity squad is sometimes found at these meets. Besides the regular events there will be a 220 relay, each squad consisting of four men. The interclass cup will be furnished by Fleming, the Jeweler.

Dr. French Ill.

Dr. French, who has been in the Sanitarium for several days, underwent a surgical at that place last Sunday morning. The trouble proved to be a case of gall-stones, but he recovered from the operation and is out of danger. His classes are being cared for by Professor and Mrs. Hinman. The professor teaches his classes in ethics and philosophy of religion while Mrs. Hinman looks after his classes in psychology.

The editors of the Sombrero have announced that the book will be put on sale next week. The annual has been in the hands of the printer for some time and the work of binding the book will also be done soon. The book has many new and excellent features among which is a full leather binding. The half tones and engravings are much superior to those used in previous annuals. The price of the book will be the regular one of \$1.50.

Three of the students in the Department of Forestry who have been out on the United States Forest Reserve at Halsey, Nebraska, returned a few days ago. They are Messrs. Frazier, Pearson and Goldman. The men have been the line of work that they expect to follow and show the effects of the month's work in the open air. However, they have gained some further knowledge of forestry through the work and do not regret the experience.

The University Herbarium now contains about one hundred thousand plants. On account of the great weight of the collection it is no longer possible to put any more cases in Room 110 where most of the herbarium is stored, but it has been found necessary to put two long cases in the corridor of Nebraska hall.

TOURIST CARS POPULAR.

The idea that an inferior class of people patronize the tourist sleepers is an error. On many trips only the best class of travelers are found. They are merely men and women of good sense who would rather travel to California in this manner and save a snug sum of money to be used elsewhere. It is beginning to be understood that it is by no means necessary for the traveler to spend a large sum of money in order to enjoy a trip to the Pacific Coast.

If you cross the continent in one of the tourist sleepers of the Union Pacific you will enjoy your trip and save considerable money. Inquire of E. B. Slosson, Gen'l Agent.

Protected by Block Signals

The first railway in America to adopt the absolute Block System in the operation of all trains was the

Chicago, Milwaukee & St. Paul Railway

It to-day has more miles of road operated under block signal rule than any other railway company. The St. Paul Road was the first railway to light its trains by electricity, and it now has more than 400 electric-lighted passenger cars in daily service. Three trains from Union Station, Omaha, to Union Station, Chicago, every day.
