DOANE HAS HOPE

DOANE TEAM ACCOMPANIED BY ROOTERS.

Many Men Will Be Used by Booth in Today's Game—Doane Will Make Good Showing.

With today comes the Doane-Nebraska game, and this is the game which settles the state championship. This is the first game with the Crete team for three years, and being the last game with a college of the season, should prove a good exhibition of the game. Doane has been defeated but once this year, and that by the University scrubs early in the season. The scrubs defeated Crete 5-0 in a game which was decidedly Doane's, for she carried the ball three times as far as the scrubs, but on account of hard luck was unable to score. Since that game Doane has improved wonderfully and Coach Fuhrer has worked miracles with the material at hand. Its Doane's intention to play straight football, relying on their extra weight to make gains against the varsity.

The weight of the visiting team is at least five pounds to the man heavier than the varsity, but whether this will prove effective remains to be seen. Many of the visiting teams have been as heavy as we so far this year, but the score board has always registered about the same story. The Doane team will be accompanied by a good crowd, which will do everything in the line of rooting to help their team along. Lincoln seems to be a favorite place for all rooters, for this is the third excursion of good size that has come to Lincoln this season.

Booth worked with the men last night on their signals, and the interference on end runs. It is his intention to get the men to follow the ball, and the man with the ball more than they have done heretofore in the games. This was one feature of the game that was surely lacking in the Minnesota game. Those who saw the practice manifest much satisfaction at the way in which the men worked. Every man seemed to be in the spirit of the game, and eager for a chance to carry the ball. But few changes will occur in today's line-up as to that of last Saturday. The game will be called at three o'clock. No reserved seat tickets have been sold this week and nothing but a general admission will be charged.

The line-up of the varsity for today has not been determined yet, but it is quite likely that Booth will try out a good many men in order to get a line on the men for Thanksgiving.

Senior Play Dues.

The Senior Play committee will be in U. 106 on Monday and Tuesday at chapel time to accept the dues from the members of the class. The dues have been set at \$3.00 for every member, and those paying first will get their choice of seats. It is quite necessary that this money should be in the hands of the committee in order that the best results of the play may be had.

SUPERINTENDENT STEVENS.

Addresses University Pedagogical Club on Practical Subject.

City Superintendent Stevens gave a practical talk on "Characteristics That Influence the Success of Teachers, Both in Getting and Keeping Positions," at the meeting of the University Pedagogical Club in U. 212, Thursday evening.

It seems that the greatest weakness of university trained teachers is, not in lacking knowledge and learning, but rather in the ability of applying and using the knowledge they possess. He spoke of the numerous so-called "little things" which applicants for schools would overlook in their interviews or correspondence, but which counted greatly against them when they were being weighed in the balance of a school board or superintendent and a decision rendered. He cautioned teachers against giving as references parties who had attained political distinction, as this gave the impression that party politics would be used to influence decisions of school boards and superintendents. He mentioned in detail the systematic routine that is followed in the selection of teachers for city schools and without following this system it is hard for teachers to get positions, be their qualifications ever so good.

Superintendent Stevens believes that teachers are made, not born. He quoted statistics to the effect that ninety per cent of those elected to teach become successful in their work, not through any inherent traits, but through training. He gave as desirable qualities in teachers: Voice, poise, order, earnestness, enthusiasm and decision. A clear, commanding voice is the strongest and most effective. Nervousness should be avoided and attempts made to overcome it. A successful teacher is a self-possessed teacher who will not lose her power of control even under the most trying circumstances. He urged teachers to cultivate cheerfulness. "A child cannot learn in tears," said he, "but grows amid cheerfulness as flowers in the

sunshine. A cheerful teacher with a third grade certificate can do more good than one with a university diploma who has ruined her digestive apparatus in getting it."

The New Comet.

A good deal of excitement has been created recently in astronomy fields by the discovery of a comet and the observation of its path. It was first seen November 17 by Dr. Shaer, from the observatory at Geneva, Switzerland. The following night it was seen by Dr. Hartwig, Hamburg, Germany, and Professor Tucker from California University. Since then it has been seen and commented on by a number of astronomers, Professor Sweezy locating it for the first time from Nebraska Thursday night. The observatory was open to the public again last night and the professor was on hand to explain it to a number of people, mostly students, who viewed it.

The comet was first seen near the Pole star and is found to be moving south at the rate of about four or five degrees a day. It is a circular, hazy object with a bright nucleus near the center. Former observers report it as being without a tail, but this report is denied by some who have viewed it later. It is rapidly becoming fainter and indications are that it will not be visible later than December 1 or thereabouts.

First Interclass Game.

The first interclass football game will occur Monday afternoon on the field. The contestants will be the freshmen and sophomores, and the winners of the game will play the successful team in the junior-senior game for the class championship. Both teams have been practicing daily for a month or more. The chances seem to favor the sophomores, who have a heavier and more experienced team, being practically the same one which played the present junior team a tie game last year. A small admission fee will be charged. All the gate receipts will go to the champion team, to be used in the purchase of sweaters.

GIRLS' GLEE CLUB

SELECTED AFTER LONG SERIES OF TRY-OUTS.

Mrs. Raymond Picks Young Ladies Who Are to Represent University—Many Applicants.

The Girls' Glee Club has been selected at last. Considerable competition and rivalry was shown for the several parts. About twice as many co-eds sent in their application as was expected. Many of the voices were of such an equal standard that it was hard to decide which was the better. Mrs. Raymond, who has charge of the club, predicts a club which need not hesitate to go throughout the state giving concerts. The voices blend well, and every girl is working hard to hold her position. The club is under the same management as the Glee and Mandolin Club. The following are the members of the Girls' Glee Club as was given out by Miss Pearl Archibald, captain:

First Soprano—Miss Ada M. Castor, Miss Grace A. Clark, Miss Helen Huse, Miss Elta June Booss, Miss Mildred Parks, Miss Bessie M. Fry, Miss Charlotta Haskell, Miss Helen W. Anderson, Miss Lida E. Osteberg.

Second Soprano—Miss Elizabeth E. Mitchell, Miss Bessie Holcombe, Miss Mabel C. Starn, Mrs. Ruth C. Castor, Miss Mable Mould, Miss Pearl Archibald (captain), Miss Laverna Barnum, Miss Myrtle Kauffman, Miss Fern Albright, Miss Lucile Cull, Miss Eleanor Andrews.

Alto—Miss Jessie A. Doyle, Miss Laura B. Owen, Miss Helen Hendrie, Miss Beatrice Clark, Miss Edna Zimmerman, Miss Laura Rhodes, Miss Leota Lapp, Miss Lillian Cole, Miss Edith Wright.

Bar Association Meeting.

Professors Pound, Hastings and Ayers of the Law School returned from Omaha yesterday, where they had been attending the meeting of the Nebraska Bar Association. Dean Pound addressed the association Thursday morning on "The Spirit of the Common Law." His address was unique in character and brought forth considerable praise for the way in which he handled the subject. Judge Hastings presented the report of a committee on legal education endorsing the provision requiring a higher preliminary education for students entering law schools. Dr. Gregory, dean of the Iowa Law School, spoke in the evening.

Regent Calkins of Kearney was elected president of the association.

A Correction.

In the issue of the Nebraskan yesterday it was stated that the reception to Dr. Reighard was given by Dr. and Mrs. Ward. The reception was given Tuesday evening at the residence of Dr. Barbour and was under the auspices of the Sigma Xi society. While in Lincoln Dr. Reighard was the guest of Dr. Ward.

Tickets for the Thanksgiving game are going rapidly. They are on sale at Porter's.
