**Will Make the Trip.**

The manager of the freshman basket-ball team is making arrangements for a trip during the Christmas vacation, beginning December 26. It is proposed to play games at Crete, Table Rock, Tecumseh and Geneva; if they can be scheduled. Already favorable answers have been received from the two former towns. The freshmen have a remarkably fine team, being composed of experienced players from the high schools of Lincoln and Omaha, and if they make the trip, will doubtlessly win most of the games.

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high Marlin standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially bored for smokeless as well as black powder and so chambered that 2 3/4 inch or 2 1/2 inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence. We are glad to make it possible for every lover of guns and bird shooting to get this high grade repeating shot gun at so low a price. Have your dealer order it for you.

**FRESHMAN CLASS MEETING.**

A large part of the freshman class met in the Chemistry lecture room yesterday morning at the chapel hour to transact routine business and listen to reports of committees. The committee having the important class constitution in charge made a final report, and the proposed articles were adopted immediately, the class dispensing with the unnecessary reading, which would be a waste of time and effort. The color committee then reported in favor of maroon and old gold, and the latter long-suffering color was again drafted into service by a first year class. The yell committee displayed more originality. The chairman rendered a proper version of the selection, but it was some time before it could be interpreted into ordinary sounds. Nominally, it reads as follows:

Naught nine, naught nine!  
Hoo-rah-hoo!  
Varsity, Varsity!  
Nebraska U!

With considerable trepidation, which they endeavored to conceal with a bravado, the members of the cap committee reported in favor of the plan, and Chancellor Andrews' efforts to procure peace and brotherly love between the two lower classes took wings. To show their confidence in their own ability to keep their head-gear, or else to throw additional temptation in the way of the sophomores who are treading the path of virtue, it was decided to wear caps this winter, when a bare head would be far from comfortable. It is safe to say that the chairman of the committee, Mr. Runner, will not rest easy for many a night.
