the circulator as soon as possi-
ble. Office open from 11:00 to
11:30 daily. R. 211 1/2 Uni. Hall.

CONCERNING COMMUNICATIONS.

We wish once more to call the at-
tention of all who may desire to send
us communications for publication to
the requirement that we must in every
case know the name of the author, al-
though we do not ask that the name
be published. If this requirement is
complied with, we will be glad to print
any communication which is fairly
reasonable, assuming, of course, no re-
sponsibility for the sentiments of the
writer.

Engineering Notes.

R. E. Towne, '05, writes that he, as
well as the other Nebraska boys, are
making good progress with the West-
inghouse company at Pittsburg, Pa.

Considerable disappointment was
felt by the electrical students over the
scant recognition their display in the
Electrical Engineering laboratory re-
ceived from the Chinese Commission.

The Stanley Manufacturing company
of Pittsburg, Mass., have sent a cir-
cular announcing an increase of from
1 to 2 1/2 cents per hour in the pay of
their student apprentices.

Mr. E. R. Walton, '05, was a visitor
on the campus yesterday. Mr. Walton
was called here by the death of his
father. He is in the employ of the
General Electric company at Schene-
ctady, N. Y., and will return there some
time next week.

O. E. Ellis, senior in the Civil En-
gineering department, was unable to
attend classes this week on account of
sickness.

Roy Batten, '07, B. E. Debler, '07,
and O. E. Stevenson, '07, who have
been in a Burlington surveying party
for the past year, are again in Lin-
coln and will register at the Univer-
sity the second semester.

Academy Notes.

Miss Dean left Monday night for
Spokane, where she will teach Latin.
Her classes at the Academy have fin-
ished their work and have taken their
final examinations. Miss Dean has
been kept very busy the last week or
two in attending receptions given in
her honor. At the Social Hour meet-
ing she was tendered a farewell.
Many were present to wish her God-
speed. At this meeting she was pre-
sented with a gold bracelet from the
students and faculty. One class gave
her a dainty Nebraska pin as a final
token of remembrance.

The basket-ball try-out was held last
Wednesday evening. The score was
26 to 20 in favor of the Yellows. The
following were chosen to represent the
Academy at Tecumseh in the game
Friday night: Misses Barbour, Cam-
eron, Douwalter, Harton, Lyman, Neal
and Packwood. Miss Gittings will go
as coach and chaperone.

Negotiations are on for a debate
between the Academy and York High
School. It is feared, however, that
a suitable date cannot be secured.

Examination Schedule Issued.

The schedule of the final examina-
tions to take place week after next
has been issued. Examinations will
occur at about the same time as heretofore,
with the exception that in a
few of the courses in which there are
a large number of divisions the examina-
tions will all occur at the same time,
although in different rooms. This is
done in order that all the students
may have the same opportunity to pass
creditable tests. In former years some
of the division have been examined on
Monday and some on Thursday, and
the student who was in the latter
would have a chance to see the ques-
tions given the other classes and pre-
pare himself accordingly. These
classes will have their examination as
follows: Rhetoric 1, Saturday, Janu-
ary 27, 1:15 p. m. Latin 1, Monday, 8
a. m. French 1, Tuesday, 1:15 p. m.
German 1, Monday, 1:15 p. m. Eng-
lish Literature 1, Tuesday, 3:30 p. m.
Most of the classes will take examina-
tions in the regular recitation rooms.

Educational Psychology.

Education 8, a practical study of
the factors which influence the devel-
opment of body and mind. Heredity,
growth and environment will be stud-
ied as much as may be necessary to
determine a view-point from which
may be observed the several sources
of greatest moment in the development
of the individual. The home, the
school and the social factors will be
examined. Returning from such ex-
cursions, the class will investigate the
special processes by which the larger
forces become effective. The senses,
memory, reasoning, imagination, emo-
tions, attention and will may be
studied, both as mental processes and
in relation to the means of stimulating
and guiding the development of these
activities. Open to teachers, and also
to students in the last two years of
their course who have had a semester
of psychology. Five hours attendance.
Two hours credit.

PROFESSOR WOLFE.

Rates to Nashville.

All the roads of the Western Pas-
senger Association have granted a rate
of one fare plus two dollars to Nash-
ville, Tenn., for the fifth international
convention of the Student Volunteer
Movement. This trip in itself will be
a great experience, as it will bring
the students of the north into the
midst of the sunny south. Nebraska
should send its full delegation, which
is about twenty-five students.

**The First Showing of
1906 Spring Suits**

The trim Etons, pony Jackets, and tight fitting short
coats. The new grays, some browns and blues, purples
and greens again, all white, and the smartest small
checks and neat mixtures. You are invited to inspect
them whether you care to buy or not. \$18.00 to \$37.50.

See the New Spring Cottons

The dress goods isle is transformed. Heavy winter
goods are rapidly giving way to the crisp new percales
and batistes with their clear little figures and stripes of
red, blue, and black; the beautiful flowered silk organ-
dies; the mercerized checks; the dimities; corded silk
chiffons, etc. It is a splendid time to select for summer
waists and dresses.

Protected by Block Signals

The first railway in America to adopt the absolute
Block System in the operation of all trains was the

**Chicago, Milwaukee & St. Paul
Railway**

It to-day has more miles of road operated under
block signal rule than any other railway company.
The St. Paul Road was the first railway to light
its trains by electricity, and it now has more than
400 electric-lighted passenger cars in daily service.
Three trains from Union Station, Omaha, to Union
Station, Chicago, every day.
