WAITERS' BUREAU—Grant.

MY MAGAZINE, "INVESTING FOR PROFIT" (which I'll send free) is worth \$10 a copy to any man who intends to invest any money, however small; who has money invested unprofitably, or who can save \$5 or more per month, but who hasn't learned the art of investing for profit.

It demonstrates the REAL earning power of money—the knowledge financiers and bankers hide from the masses.

It shows how to invest small sums and how to make them grow into fortunes—the actual possibilities of intelligent investments.

It reveals the enormous profits bankers make and shows how one can make the same profits safely.

It explains HOW stupendous fortunes are made and WHY they are made—how \$1,000 grows to \$22,000.

To introduce my magazine write me NOW, mentioning this paper and I'll send it SIX MONTHS FREE.

EDITOR GREGORY,
81 Jackson Blvd., Chicago.

DO YOU EVER WRITE HOME? Certainly you do. Why don't you get a box of that fine new box stationery at the University Book Store? It will please you and please your friends. Try it.

SUNDAY—Cars start 1 hour later and stop 1 hour earlier.

Students of the University who were cinched out of college during the recent term examinations will have the novel distinction of seeing their names in print in the 1907 Blue and Gold if the present plans of Editor J. R. Gabbert are fulfilled. Several pages of the class annual will be devoted to pictures and records of prominent undergraduates who have failed to make the necessary eight units to remain in the university.—Daily Californian.

March 30—Music.

MUSEUM BUILDING.

This is to Be One of the Best on the Campus.

The first signs of the Museum building appeared yesterday, when brick were seen piled up just northeast of University Hall. Work will be started upon this building just as soon as the weather will permit and pushed with all possible speed in order that it may be completed by September 1st, 1906. The contract calls for the completion of the building by this time. The architect for this building is T. R. Kimball of Omaha. Mr. Kimball's work is too widely known to comment upon it here, and it is needless to say that the style will be up-to-date in every way. The contractor is W. D. Campbell of this city.

The building will be made of fire-proof brick, and will form a wing to the old Nebraska Hall. The brick are known as the semi-vitrous brick of Kansas, and it is claimed that they are the highest grade of a building brick. The size of the wing is about fifty by seventy-five feet, and four stories high. The interior is to be finished in red oak, which will give it a very pleasant and bright effect.

This wing will be occupied by the department of Geology, which will have all laboratories, lecture rooms and offices in the first and second floors. The last two floors will be devoted to the University Museum.
