Price 5 Cents

WILL GIVE MATINEE

GLEE CLUB DECIDES TO DO THIS ON FRIDAY.

The Night House is Almost Sold Out—
Matinee at Popular Prices
For the Students.

It seems to take college boys to show what real hustling can do. The Glee and Mandolin Clubs have worked hard for the past year, and put up a good entertainment. It is up to them to rustle a lot of money and as a result they have done the "strenuous," have the Oliver almost sold out for their Friday night performance, and are out now after their second house full. They have put the matinee prices at 25 and 50 cents and expect in that way to reach the big body of the 2,500 students in the University, as well as the Wesleyan students. There is little doubt that the afternoon audience will fill the house. Seats will be reserved—even the 25-cent seats—and the student body might do well to get to the Oliver and get seats reserved. The fact of so many specialties, and so many well known students taking part is creating lots of enthusiasm on the campus as well as down town. The boys' reputation over the state is growing and only yesterday there were two requests for dates—one from Central City and one from Nebraska City. The program as arranged hits the intellectual side first with a lot of regular concert work. After that the stunts and minstrels are designed to give a clean amusement entertainment which the boys claim beats any comic opera on the road. How well they succeed the public will decide next Friday.

PROM. INVESTIGATION.

Committee Takes Final Evidence—
Class Meeting Friday, 5 P. M.

The committee of the Junior class which was appointed about two weeks ago to investigate the report of Chairman Edgerton on the Junior Prom. given last February, held a meeting in U. 111 at 7:30 last evening to take in the final evidence for their report. Mr. Edgerton was called in to give his side in the case. Considerable time has already been spent by the committee in investigating the report and it is probably that the meeting last evening will close their work of investigation.

A meeting of the Junior class has been called for 5 p. m., Friday, to hear the committee's report. All of the convocation periods between now and vacation are occupied so that it was impossible to get a meeting at 11 on any day.

A great deal of interest has been shown, not only in the Junior class, but in the whole University and among the business men in the city, and in spite of the unusual hour at which the meeting has been called a large attendance is expected.

Townsend's reputation for artistic photography is known throughout the state. Studio, 226 South Eleventh St.

ENGINEERS' BANQUET.

To Be Given at the Lindell Hotel on
Saturday Night.

On Saturday evening, April 7, at 8 o'clock the Engineers will gather at the Lindell Hotel and partake of the sumptuous banquet set before them by the Engineering Society. This is the fourth annual banquet given by the Engineering Society, and if the success of previous banquets can be used as a criterion, it will be a marked success. This banquet is the main function of the Engineering Society during the college year and every student in the Department of Engineering should be sure to attend and "loosen up."

It is the only opportunity the Engineering student has of getting together with his fellow students and of meeting his professors and instructors in other places beside the class room and of coming in touch with their personality. All the instructors and professors are expected to attend and any person who has attended on any of the previous occasions will bear out the statement that they will be there "with the goods" and will be "mixers." After the main toast list has been disposed of, the several faculty men will be called upon to make impromptu speeches, and it is well known they are always ready and have something of interest to say to the boys. Among the well known orators who will make toasts and otherwise entertain the crowd will be found the names of "Cy" Cole, Walt Standeven, "South-America" Miller, Roberts and McWilliams, while Davis, instructor in Mechanical Drawing, will act as toast-master. What these men will talk about seems to be a mystery and The Nebraskan was unable to fathom, but it is expected that it will be

both interesting and instructive. Regarding the menu to be served, all that needs to be said is that Hoover will be there in the same old way and will keep up the enviable reputation he has earned among the students of the University by his banquets in the past.

Tickets will be one dollar each and may be obtained of any member of the committee. Sammie Freedman is chairman of the committee in charge, and he assure us no stone has been left unturned to make this banquet the biggest and best affair of the year for the engineers. Let every student in this department do his share to make it such.

PROF. ROSS AT CONVOCATION.

Gives Instructive Talk on "Political Decay and Interpretation."

Owing to the inability of Chancellor Andrews to be present at convocation yesterday, Dr. Ross occupied the hour with an address on some of the causes underlying the deplorable condition of modern society.

It is not due to the corporations, said he, that society is degenerating, neither is it due to the rich man, but to the avarice, to the greed of the individual. Today manhood sells itself for gold. Everything is judged according to a money standard of value. Where this is the case, true worth is sacrificed and morality must suffer.

The weakling, however, thinks that the recent attempts at reform were impelled by a genuine love of justice, by a sincere regard for the welfare of the human race, but the wise man, the man who knows the facts underlying the various so-called reforms, sees through the feign. To him it is simply the result of the money mania which has taken possession of the individual components of society, the individual money-mad.

ENGINEER'S BANQUET

GYMNASTIC TURNS

JOHNSON WINS "N" IN CONTEST—
COPELAND SECOND.

Keisselback Out of the Contest on Account of Injury—Patterson
Does Good Work.

On Tuesday night, April 3, the second of the two gymnastic contests for varsity championship and an "N" in gymnastics resulted in favor of B. P. Johnson.

In the first contest, on February 22, his average was 78.05, Copeland's 71.58, Kiesselback's 71.05, and Patterson's 65.80.

The contest last night was to have been held on March 22, but on account of accident received by Kiesselback, and Patterson's sprained wrist, it was postponed. Last night Patterson took part, but Kiesselback was unable to compete.

Accordingly only the three men entered. The result of the score for the entire six pieces of apparatus is as follows:

Horizontal bars—	
Copeland	23.15
Johnson	27.05
Kiesselback	22.85
Patterson	20.25
Parallel bars—	
Copeland	23.18
Johnson	27.70
Kiesselback	24.20
Patterson	22.80
Long horse—	
Copeland	25.25
Johnson	23.30
Kiesselback	24.
Patterson	27.75
Side horse—	
Johnson	23.22
Copeland	22.80
Patterson	20.20
Flying rings—	
Copeland	24.40
Johnson	21.75
Patterson	18.65
Tumbling—	
Johnson	23.95
Copeland	19.40
Patterson	19.90

And in summing up the totals of both contests we find Johnson's average to be 146.97, Copeland's 138.18, and Patterson's 124.55.

University Students.

The attention of all University students is called to the meeting Sunday afternoon in Memorial Hall at 4 o'clock. Besides the address, there will be a special program of music composed of selections by Miss Maud Kendall and also by the University Young Men's Christian Association Quartet. It is unnecessary to say any word of commendation for Miss Kendall. She is well known in University circles and is the most popular singer in the city. The quartet has also won a very enviable reputation by this time.

The address will be made by Mr. W. C. Swearer of Korea. Ever since his graduation from Allegheny College Mr. Swearer has been doing missionary work in this land of the Orient, and his efforts have brought very signal success. He has had general oversight of the work in Korea and during his administration over 100 churches have been organized and 5,000 members added. This service is for all University students, both men and women.
