Mr. Andrew Carnegie will give to Amherst \$75,000 for biological and geological laboratories on condition that the college secure an equal amount. The building is to cost \$100,000 and there will be a fund of \$50,000 for its maintenance.

An enthusiastic game of "pewees," several hundred cheering students rooting for the respective teams, the effigies of three professors hanging from near-by trees, the discharging of firearms and explosives—in all these the students of the University of Wisconsin expressed their dissatisfaction of the faculty action in regard to football Tuesday night. The night before they had stretched a huge "for rent" sign across the gymnasium.

The current issue of The Outdoor News contains an interesting account of the Olympian games held at Athens in 1896, and more recently in Paris. In connection with the former games the writer, who was one of the few American contestants, describes the fine work which was accomplished by the Princeton team. He mentions in particular the performance of Robert Garrett, '97, in winning the discus throw, and the great surprise and joy which were felt by all Americans present when he won out from the Greek champion.

Columbia University will build a million-dollar athletic field which shall be free to all students at all times. It is to be constructed on made ground between One Hundred and Sixteenth and One Hundred and Twentieth streets, west of Riverside Park. The field as proposed will be large enough for a full-sized baseball diamond or a football gridiron. The stand surrounding the field will be constructed of steel and concrete and will be finished in an artistic and decorative style. Provision is also made for two public play-grounds, one on the north for tennis and similar sports, and one on the south for a baseball diamond for the use of the public schools.

**REPEATING SHOT GUN NEW MODEL NO 17**

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high Marlin standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially bored for smokeless as well as black powder and so chambered that 2 3/4 inch or 2 1/2 inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence. We are glad to make it possible for every lover of guns and bird shooting to get this high grade repeating shot gun at so low a price. Have your dealer order it for you.
