The entrance requirements of the College of Medicine and Surgery at Minnesota have been increased to two full years of a college course. This action was taken at the last meeting of the regents on recommendation of the medic faculty.

Don Cameron's new lunch counter; quick service. 119 So. 12th St.

BLUE PRINT OUT MONDAY.

Annual Book of Engineering Society Ready for Distribution.

Next Monday morning at chapel time the Blue Print goes on sale in Nebraska Hall and the Mechanic Arts building.

This publication by the Engineering society should be in the hands of every engineering student and professor in the university. This year's product contains much of interest not only to engineers, but to all men interested in science.

The leading article, a lecture by Professor Goss of Purdue university, on "The Engineer and His Work," while of especial interest to engineers is of a general character and contains the kind of sound sense and sentiment to help any man.

Professors Richards and Morse have given us much useful information in their article on the "New Municipal Lighting and Power Plant for Lincoln."

Much of interest to men in each one of the three engineering departments will be found in articles by our professors and well known alumni.

To those purchasing one copy of the Blue Print is 50c. To those purchasing one copy of engineering magazines on exchange from Iowa, Colorado and possibly Michigan, may all be had for an additional 25c.

Following is the staff in charge: Editor in chief, J. L. Hershey; business manager, A. E. Miller; assistant manager, M. F. Costello; department editors, Sam Friedman, C. E. Geo. S. Wilson, M. E. C. L. Davis, E. E.
