JUNIOR OFFICERS

JUNIORS COMPLETE SLATE AT FIRST MEETING.

Contest for Presidency Close—Dark Horse Makes Hard Fight—Other Officers Selected.

The Juniors elected a complete slate of officers for the first semester at their meeting held yesterday morning in Memorial Hall. As was predicted Mr. M. Hughes was elected to the office of president but, contrary to all expectations, there was a contest for the position that threatened seriously to "make things interesting". The

HARD PRACTICE.

Gridiron Work On in Dead Earnest—Steady Improvement.

Practise on the Athletic Field shows that Nebraska realizes her weak spots and is determined to rectify her mistakes of last year. A good deal of the time this week has been spent in punting and catching punts. Howard, one of the most promising scribes, has been detailed for duty on the squad and shows much promise in the way he handles punts and plays his end in the scrimmage. The line-up may be changed considerably in next Saturday's game and several of the scrubs may get a chance to show what they can do.

Reports from Drake say that they are having the same trouble that we

FORMER STUDENT DROWNED.

A. E. Gordon, '02, Drowned in Freshet Near Tonala, Chiapas, Mexico.

Word was received late Monday evening of the death of Mr. A. E. Gordon, LL. B. '02, near Tonala, Chiapas, Mexico. Mr. Gordon, when in the University, was a member of the Varsity baseball and football teams and had a large circle of friends. Details of the accident which was responsible for his death are not available as yet. It is known that he was drowned in a river heavily swollen by a recent freshet and his body has not yet been recovered. The accident occurred on September 30, while Mr. Gordon was at work with the engineering party of which he has been a member for the past four years.

SENIOR FOOTBALL

CLASS GRIDIRON APPOINTMENTS MADE.

President McWilliams Selects the Football Manager and Two Coaches.

President McWilliams of the Senior Class has announced his choice for manager and coaches of the Senior football team. T. A. Kesselbach has been selected for the former office and Messrs. Glen Mason and E. M. Little for the latter. Practise will begin on Thursday at the Convocation period and will be held on the athletic field

BRACE PHYSICAL LABORATORY

other offices on the list were filled without difficulty and the vote in all cases was by acclamation.

President Yoder called the meeting to order promptly and in a short speech urged a continuation of the support that has been extended to the previous officers of the class. After a vote had been taken which legalized the vote of the Junior Laws nominations for president were called for.

Two names only were presented; that of Mr. Hughes and that of Mr. O. N. Munn, a Junlor of the engineering department. Mr. Munn had not heralded his candidacy for the office and considerable surprise was manifested when his name was presented. Ballots were cast and the returns showed Mr. Hughes elected by a vote of 71, while Mr. Munn polled 65 ballots.

The other officers elected are as follows:

Vice president—Miss Laura A. Rhoades.
Secretary—Miss Pearl Murphy.
Treasurer—Mr. Sherlock.
Sergeant-at-Arms—Byron E. Yoder.

Brace Physical Laboratory.

The Brace Laboratory of Physics which was finished last year, is named in honor of the late Professor DeWitt Bristol Brace. Besides the department of Physics it houses on the third floor the United States Weather Bureau. The rest of this floor is occupied by the mechanics laboratories and a large sound-and-heat laboratory. On the second floor is a large laboratory for optics with adjacent dark rooms for photometry; a laboratory for a teachers' course in methods and man-

ipulation; the auditorium with a seating capacity for two hundred and fifty; the adjoining apparatus cabinets, a smaller lecture room; and the department library. The first floor is reserved for work requiring freedom from mechanical vibrations and for the shops. On this floor are the laboratories for electrical measurements, a large laboratory, and several smaller rooms for research. Under this floor is a corridor for special work in optics, extending the whole length of the building, and a constant temperature room.

are having here at home. Drake seems to have a good line smashing team, but feels weak on her ends and back field. Snap and speed are what they are working for at present, and many changes have been made in their line-up during the past week.

C. N. Walton, '05, has been re-elected to the superintendency of the Chadron schools.

Souvenir Views.

It is the intention of The Nebraskan management to run a set of views of the University buildings in the next few issues of the paper. Those who wish to secure extra copies as souvenirs for themselves or their friends can do so at this office.

Alfred Crago, '05, is superintendent of the Tobias schools again this year.

every day thereafter. It is hoped that a large number of Seniors will turn out regularly.

The captain of the team will be selected by the vote of the men who finally make the team, thus following the precedent established in Varsity football.

The prompt action of the Seniors in dealing with the class football question will make the other classes hustle for the gridiron supremacy.

President McWilliams will announce the rest of his appointments this morning. It is rumored that Denton Slaughter, one of the prominent candidates for President in the recent Senior election, is slated for Prom. chairman.

Mid-Week Meeting.

The mid-week devotional meeting of the Y. M. C. A. will be led by Arthur Jorgensen, Wednesday evening, 7 o'clock.
