Green's barber shops excel all others in the west. Entirely modern and the best work assured.

Engineering Notes.

Thomas Davis, M. E. '06, is assisting in the design and construction of an invoice of pumps from the Mining Supply company at Dayton, Ohio.

Melvin Price, formerly instructor of machine design and applied mechanics in the University, is at present Professor of Mechanical Engineering at the University of Cincinnati.

The motor ordered for the large testing machine in the testing laboratory of Applied Mechanics has not yet arrived, although it has been expected for several weeks. This will inconvenience this department for a few days, since no testing can be done on the machine until the motor arrives. All the laboratory and drawing rooms in the department, as well as all the departments of engineering are crowded to the utmost capacity. In the cement laboratory there are four students working where there is room for but one. In all the drawing rooms, space is at a premium and some of the students are obliged to draw with their drawing board on their laps instead of at a table as they should be. The blacksmith shop is being run every day and even with this crowding and jamming, twenty students were turned away on account of lack of room.

While on his trip thru California the past summer, Professor Chatburn visited D. M. Lehmer who was formerly a student in the University and an assistant in the mathematics department.

Word comes to us that George J. Lyons, a graduate of the University, and who is now Professor of Civil Engineering at Colorado College has been married.

Freshmen Active.

A conversation with a leading Freshman revealed the fact that there is trouble brewing for the Sophomores. While the Freshmen intend to live up as much as possible to their resolution against fights, still sporadic outbreaks may be counted on to keep all Sophomores, especially those who wear a cap or took a prominent part in last Monday's demonstration, alert. It is to be hoped that the Freshmen; if they cannot desist altogether, will at least be as careful as the Sophomores were to prevent personal injury or destruction of property.

The Hawkeye Club met last evening with Miss Hadley at 652 South Seventeenth street. This organization is glad to have all Iowa students in attendance at the University come to its meetings. A full report of the meeting will be given in Tuesday's paper.

Mr. Frank Peterson, '05, who was fellow in Greek last year, is visiting University friends this week. He is principal of the Creighton schools this year.

W. H. Goodwin, a graduate student, has gone to Nebraska City to assist in carrying experiments in fruit tree spraying under the direction of the U. S. Department of Agriculture.

All gymnasium classes were excused yesterday afternoon on account of the reception to the visiting teachers given in Memorial Hall.

The Kappa Kappa Gamma sorority gave a box party at The Bijou last evening. It was given in honor of its new pledges.

The Medical Society meets tonight in M 301 at 7:30 p. m. Dr. Orr will speak on "The Physician of 1912."

CUT THIS OUT

Cut out this prize song and take it with you to the game this afternoon. Or, better still, learn it now:

Tune: "Cheyenne."
Out here in old Nebraska long ago
Where we all live and 'bout it like to blow,
The total scores against the team were "O."
We don't have old Bender to depend upon,
Cortelyou and Benedict are gone.
But Gil and Cook can show the goods to dear old Ames;

They'll keep right on a winning all the games.

The boys aren't shy; they're bound to do or die;
We'll help you win, boys, if you'll work like sin.

Oh—Oh—Oh—
Fos—ter, Fos—ter,
We want more touchdowns.
There's no hope for Ames here,
And after the game is over
We'll all join in shouting in glee
For Nebraska and victory.
—H. C. ROBERTSON, '09.

You will be satisfied with Cameron's Lunch Counter.

Call up the Star Delivery Co., Baggage. Both Phones.

The Forestry Club meets this evening at 8 o'clock in U 110.

Why not take your baths at Chris' Bath House, corner 11th and P Sts.?
