

# The Daily Nebraskan

Vol. VI. No. 37.

UNIVERSITY OF NEBRASKA, LINCOLN; TUESDAY, NOVEMBER 13, 1906.

Price 5 Cents.

## WINS ROUGH GAME

NEBRASKA DEFEATS CREIGHTON BEFORE LARGE CROWD.

Cornhuskers Send Big Excursion—Reception to Rooters—Referee Helps Creighton.

Before a crowd of perhaps 5,000 Omahogs, Nebraska defeated Creighton University in Omaha last Saturday by a score of 17-0. The game was played at the Western League baseball park, where the grandstand and bleachers afforded apparently unlimited room. Still there was an overflow meeting on the sidelines, especially on the east side of the field, throught the game.

The game in itself was an anticlimax to a day of unusual pleasure for the many Nebraskans who accompanied the team to Omaha. The excursion that pulled out of Lincoln at 10:20 Saturday morning consisted of twelve coaches and was pulled by a double-header. Omaha was reached at precisely noon and in accordance with the prearranged plan a procession was at once formed which included the band, a good-sized crowd of rooters and the team, comfortably esconced in open carriages.

The line of march led thru the business district of Omaha to the home of Count Creighton, where a reception was given the visiting Nebraskans. This was the one feature of the day's events, so far as Creighton University was concerned, that was pleasant or in any sense sportsmanlike.

At the grounds in the afternoon an hour before the game was taken up by the rivalry of the two bands on the field, the rooting of the opposing sections in grandstand and bleachers, and the antics of the Creighton medics and "dents," who vied with each other in securing the attention of the various camera men on duty.

The game itself was hardly worthy of detailed comment. It was unsatisfactory from start to finish. Creighton started into the game determined to hold the Cornhuskers by fair means or foul and the referee seemed to have been inoculated with the same spirit. Nebraska suffered penalties time after time and in one case was deliberately robbed of a touchdown, concerning the legitimacy of which there was no possible question.

Credit must be given, however, to Captain Brome, Creighton's heady little quarterback, for the masterly way in which he directed his team and for the speed which he infused into their play. He caught Nebraska napping with his quick punts several times.

For Nebraska, Cooke played the most spectacular game and his removal from the game at the beginning of the second half appreciably lessened the effectiveness of the Cornhuskers' offense. The high wind that prevailed throught the game made kicking most unsatisfactory and even dangerous at times.

In the evening the team and an enthusiastic bunch of supporters went to the Boyd theater to see Maxine Elliott in "Her Great Match" and here a large part of the afternoon's unpleasantness was forgotten.

## SOPHOMORE HOP

Fraternity Hall  
December 14th

Tickets, \$1.00

Limited

The line-up for the game was as follows:

Nebraska.	Creighton.
Johnson.....le	Marrin
Matters.....lt	Morganthaler
Chaloupka.....lg	Wagner
Harvey.....c	McCormick
Taylor.....rg	Bloedorn
Rice, Mason.....rt	Jones
Mason.....re	Sucha
Cooke, Drain.....q	Brome
Weller.....lh	Aylesworth
Little.....rh	Stevens
Craig.....fb	Magirl

Touchdowns—Cooke, Craig, Matters.  
Goals—Cooke 2.  
Time of halves—Thirty and twenty-five minutes.  
Referee—McDonald of Michigan.  
Umpire—Capell of Council Bluffs.  
Head linesman—Murphy of Creighton.

### FORUM ACCEPTS CHARTER.

Decides to Become a Chapter of Phi Alpha Tau.

At its meeting last Saturday evening the University Forum decided to accept the offer of a charter from Phi Alpha Tau. Phi Alpha Tau, wherever its chapters exist, is by far the strongest intellectual student organization and the Forum is to be congratulated upon securing such high recognition. While it is a fraternal organization in the best sense of the word, it is an active/live factor in all college enterprises of a literary character and aims to confine its membership to those only who are qualified to promote such objects. Its membership is independent of other fraternity affiliations.

Those who will be charter members of the new fraternity are: A. E. Burr, Arthur Jorgenson, Byron E. Yoder, H. L. Swan, W. C. Ramsey, M. L. Corey, R. C. Hunter, D. P. DeYoung, C. C. McWhinney, J. M. Swenson, C. A. Sunderlin, S. M. Rinaker, G. M. Tunison, J. O. Wentworth, H. W. Craig, and A. C. Hough.

### THE CALIFORNIA EARTHQUAKE.

Professor Chatburn Gives Interesting Lecture at Convocation.

Prof. G. R. Chatburn gave an illustrated lecture on "The California Earthquake" at Convocation yesterday morning. Many of the pictures, he said, were more interesting from an engineering point of view than from any other, since they showed places where the horizontal level was not at all disarranged, while others showed upheavals and sunken places. Leland Stanford University was badly damaged by the shock, but not by fire. He showed pictures of the University, large down-town buildings, street scenes, and maps.

### FRESHMAN COMMITTEES.

President Heskett Announces Hop Committee and Others.

This morning at the meeting of the Freshman class, President Heskett will announce the following committees for the coming semester. A debate committee will also be announced at an early date with a view to arranging a debate with the Sophomores:

Hop Committee.  
Chairman—Lyle Davis of Pawnee City.

Master of Ceremonies—Harry Ingalls of Lincoln.

Members—P. R. Halligan, R. E. Lukart, S. C. Slaughter, John Trude, Josephine Huse, Florence Chapman, Helen Barstow, Mary Cook, and Grace Shallenberger.

Color Committee.  
Chairman—Jessie Krydler.

Members—Alma Miller, H. S. Gough, W. A. Schott.

Members of Interclass Athletic Board—George M. Wallace, S. A. Mahood, and K. A. Patterson.

Athletic Manager—McDonald.

### PSYCHOLOGISTS ATTENTION.

Psychology Class Leaves Tomorrow Morning for Beatrice.

The class in mental pathology under Dr. Bolton will leave for Beatrice over the Union Pacific railroad at 10 o'clock tomorrow morning, where it will spend the day studying the inmates of the School for the Feeble Minded. As this is the most important trip of the year and will prove of invaluable service to those interested in this department of psychology, it is urged that every member of the class be present.

### A SUCCESS.

First Vesper Service Pleases Fair Audience—Others Planned.

The first vesper service ever given in the University was held last Friday afternoon in Memorial Hall. A fair audience was present and enjoyed heartily the various parts of the service. The chief feature of the exercises was music by the University chorus, which showed what progress it has been making under Mrs. Raymond's efficient leadership. The duet by Misses Cutter and Abbott was also well received.

The vesper service is a distinct innovation in University circles, but it is planned to hold a series of them throught the coming winter. The announcement of the second one will be forthcoming within a few days. The service is primarily devoted to sacred music, but responsive readings and a few words from the chaplain complete the exercises.

## A GREAT ENGINEER

ELVER L. SHINBUR, '05, WAS ESPECIALLY TALENTED.

Government Engineer in Cuba—Later Superintendent of Railroad Construction Work in Mexico.

Elver L. Shinbur, Civil Engineering '05, who died at Mitchell, Nebraska, on November 7, a victim of typhoid fever, was one of the most successful of the capable young engineers who have gone from this institution. In 1901 he left the University and went to Cuba, entering the employ of the War Department. There, in spite of his extreme youth at the time, he was selected to take the responsibility for difficult and even dangerous service in the interior of the island. He acquitted himself with credit, and when the American occupation ceased he remained for a short time in the employ of a railroad company, with headquarters in Havana. Since he returned to the United States this company has repeatedly made him flattering offers of employment.

From Cuba he went to Mexico, where he engaged in railway work, the particularity of his position there, considering his youth, being that he had no engineering superior whom he could consult or from whom he received orders, so that in matters of engineering he was compelled to depend entirely upon his own judgment. Returning to this country, he was employed by the United States Reclamation Service, and soon became one of the permanent force of that agency. For somewhat more than a year he had been in charge, as resident engineer, of the construction of fifty miles of the Inter-State Canal, the work on his residency involving an expenditure of about three-quarters of a million dollars.

In June, 1905, it appeared that his engineering experience and achievements warranted the granting of a degree, and that action was accordingly taken by the Regents of the University. Mr. Shinbur was only twenty-seven years old at the time of his death. He was an associate member of the American Society of Civil Engineers. His wife, to whom he was married about a year ago, survives him.

### MASS MEETING.

Dr. Bayley to Speak to the Men and Women of the University.

Dr. Frank T. Bayley of Denver will address a students' mass meeting in Memorial Hall, Wednesday evening, November 14, from 7:30 to 8:30.

Dr. Bayley is a speaker of international reputation. His intimate acquaintance with student life and interest, extending over a number of years, has given him a clear understanding of the problems of college students, a deep, permanent interest in their endeavors and a broad sympathy for their hopes and aspirations.

The meeting is held under the auspices of the Young Women's and Young Men's Christian Associations of the University. The special music will be a feature of the meeting.
