THE TRIP.

Perhape we are inclined to criticize the basket-ball team. It has lost a number of games and some which we were especially anxious should prove victories for the Cornhuskers. First, the team lost to Minnesota by one point, then by two points, then it lost to Portage, and now to Wisconsin, and we have been somewhat disappointed in the showing of what everybody agreed was the best aggregation of its kind ever sent out on a trip by Ne-

volved in a basket-ball trip lasting for unpopular with the student body.

nothing better than to see two return games with Minnesota here this spring. If Nebraska did not come out victor, it would be simply,-because Minnesota had the bigger bulk.

Now the team is coming back before long and the men will dislike the thought of coming now, too, but we ought to show them we appreciate the difficulties encountered and that we believe in them as much as ever.

Dr. Bessey is in receipt of a letter from Wm. T. Horne, B. Sc., '98, dated Santiago de las Vegas, Cuba in which the writer says he has been appointed chief of the pathology department of the Botanical experiment station maintained there by the Cuban government. Immediately after obtaining his degree here, Mr. Horne, who comes from University Place, went to Alaska to make investigations for a fisheries company, and in his spare time did considerable botanical research work. Afterward he spent a year in the New York botanical gardens, then he went to Cuba where his creditable work obtained for him his present position.

several days? In making our estimate of the team's work, have we figured upon the tremendous exertion necessary to each game, the succeeding ex-

haustion, the loss of sleep, the long, wearisome railway journeys each day, the strangeness of the floors played upon, the lack of support, and so on? As an old baseball man was overheard to remark to other day, a baseball trip is bad enough; but it is "pickin's" when compared to the ordeal now being undergone by the basket-ball team. The playing allowed under the new rules makes basket-ball almost as strenuous a game as football,—and preciously little time is taken out, either,—but what football team would ever think of setting out on a trip to

The Trip to Europe.

While talking of the party from the University that goes to Europe next summer, Doctor Lees related an incident of one of his former trips. The present Judge William Hayward of Nebraska City, then a student in the University, and plain "Billy," walked into a shop in Paris, and with usual student irresponsibility, and his best French, shot this at the clerk, "Parlezvous United States?" 'To which the shopman replied, "You bet your sweet life; can I do something for you?"

The trip this next summer is an eighty-day tour, leaving Lincoln about June 18th and returning about September 8th. The itinerary includes England, France, Italy, Switzerland, Germany, Belgium and Holland. .
