

STUDENTS IN LINE ON RELIEF WORK

It is believed that students in the University will gladly hall a means of getting in on the relief work being carried forward in the city at present for the starving Chinese. The Nebraska State Journal management are standing as recipients to the city and the Daily Nebraskan will take the same position relative to the University.

People in the University are for the most part well able to help to the extent of one dollar and when it is realized that this amount is sufficient to save one life until the harvests occur in June not many people, it is felt, are going to hesitate. Those reading the daily papers of late are conversant with the fearful conditions prevailing in the great Mongolian Empire. It is said that men, women and children are dying at the rate of thousands daily, rioting in some quarter has been reported and even some cannibalism

Affairs have reached a crisis. China has raised over four millions to save ten millions of people until June. Chinese officials declare that what aid has already been received from foreign countries has served to break down race prejudice. This will probably mark the opening up of China to the world. It is felt that Nebraska students will not be slow in taking advantage of this opportunity.

Already the movement has been started and yesterday \$34 was subscribed as follows: J. DerKinderen, \$25; L. A. Gregory, \$1; T. F. Mueller, \$1; J. C. Knode, \$1; J. A., \$1; Beth Huston, \$1; Evangeline, Strickland, \$1; Lucile Long, \$1; Lillian Chambers, \$1; Miss Vibbard, \$1.

Money received each day will be turned over to the Journal every evening. It will then be forwarded to Washington the same evening and sent by cablegram immediately to China.

DID NOT WIN OUT.

(Continued from page 1.)

the club swinging the contest was quite exciting, Wisconsin having 18½, Minnesota 17, and Nebraska 16 points. In this event Minnesota got both first and second and won the meet. The final score was: Minnesota, 24; Wisconsin, 18½; Nebraska, 16; Chicago, 2½.

By event, on the horizontal bar, Zidelbach, Wisconsin, was first, Johnson, Nebraska, second; on the parallels, Zidelbach, first, Hawley, Minnesota, second. Zidelbach took first for the Badgers in the side horse, Hawley second for Minnesota; on the long horse, Zidelbach again won out, Kesselbach scoring second for the Cornhuskers. On the flying rings, Hawley scored first for the Gophers' contingent, Johnson and Kesselbach of Nebraska tied for second; in tumbling the Cornhuskers secured both first and second, Mitchell and Johnson doing the work. In the club swing, Malcolmson and Hawley of Minnesota took first and second respectively.

Dr. Clapp acted as a judge in the Western division of the A. A. U.'s gymnastic meet which took place Saturday night. Some Minnesota and Wisconsin men were entered, but got nothing worth speaking of. No Nebraska man was allowed to enter, as we are in another division of the Amateur Athletic Union.

Phi Kappa Psi defeated Phi Gamma Delta in the second game of the "frat" series at 10 o'clock Saturday morning by the score of 6-5. The game was very pretty, errors being few and hits scattered. It was won in the last inning by "Bill" Ramsey scoring from third on Lott's passed ball.

Burnett and Switzler constituted the Phi Psi battery, while Lott and Whitford officiated for the Phi Gams.

The Alpha Theta Chis defeated the Sig Alpha in an enthusiastic game by the score of 11-5 at 1 o'clock Saturday afternoon. Kake and Fleming formed the battery for the former, Randall and Burruss for the latter.

The ball game yesterday between the Sigma Chis and Alpha Taus resulted in a score of 13 to 5 in favor of the former. Hetzel and Person were at the points for the victors and Howard and Reynolds for the losers. The Phi Gams will play the Beltas tomorrow at 12:30.

EXCELLENT LECTURE.

Engineers Hear Walter B. Snow in Illustrated Address.

Memorial Hall was fairly well crowded yesterday at o'clock a. m., with engineering students, who came to hear the lecture by Walter B. Snow, Chief Engineer of the B. F. Sturdevant company of Boston. His lecture was entitled, "The Development of a Manufacturing Plant." It was well illustrated with lantern slides, and covered the period of three years spent by the company in constructing their new plant. Mr. Snow had complete charge of this construction and was therefore in a position to describe the work in the most intelligent manner. His company is one of the largest manufacturing engines, heating apparatus, electrical machinery, blowers, etc. etc., and the description given by Mr. Snow shows that the plant as reconstructed, is among the finest and most up-to-date in the country. Mr. Snow lectured in a clear, clean-cut fashion, and the Engineers pronounced it one of the most interesting talks that has yet been given to them.

Felix Newton, nee Solomon Goldman, has been visiting the University the past few days. Mr. Gold—Newton, we mean—has been working in Wyoming.

Paul R. Jones, '07, will leave soon for his home a few days prior to going to Washington to accept a position as assistant in the bureau of Entomology in the department of Agriculture.

Notice.

Seniors order invitations this week on first floor of Administration Hall. Orders must be in this week. A deposit of one-half is required.

W. J. Seely, A. B., '04, is elected superintendent of the Dunlap, Iowa schools for next year. Mr. Seely is just finishing his second year as principal of the Emerson, Nebraska schools.

Dr. Maxey has been requested to give the Commencement addresses at Falls City on May 23, at Lyons, May 24, at Ohlawa, May 29, and at Beaver City, June 21.

Miss Mira Kerns, '07, is to be assistant principal of the Tilden, Nebraska high school next year.
