## ART ASSOCIATION

ANNUAL EXHIBITION OPENS TONIGHT IN ART HALL.

Purpose of the Organization—University in Circuit—Great Paintings in the Collection.

The annual exhibition of the Nebraska Art Association, held hitherto in January, opens tonight in the Art Hall of the Library building and will remain open for three weeks. The aims of the association and the excellent character of the exhibitions are well known to the older students of the University; those who are here for the first time this year, have yet to make the acquaintance of one of the most important of the younger institutions of Nebraska.

The association came into existence some twenty years ago. It was conceived by a little group of enthusiastic people who realized what art may mean for life and how great a misfortune it is that the young people of Nebraska, and especially the hundreds of University students from all parts of the state, who hardly know what a really good painting looks like, should not have some opportunity to begin their art education by making the acquaintance of the best work of distinguished American artists. This, the founders believed, could be done in two ways; first, by bringing here each year and placing on exhibition, a choice collection of paintings; second, by forming a permanent collection that some day might be placed in a beautiful art building and be opened to the public. In the face of great difficulties, the association has struggled on; holding its annual exhibition and adding each year one or two good pictures to its collection. This year a circuit has been formed with Kansas City and the University of Kansas and the pictures now on exhibition here have already been exhibited there.

The work of the association should appeal strongly to the students of the University both for the personal benefit that can be derived from the study of the pictures and for the good that can be done by the establishment of a permanent art gallery. The association cannot continue its work successfully unless it receives more hearty support than it has received in the past. Last year, less than two hundred and fifty students, out of the three thousand registered, entered the Art Hall during the exhibition. The season tickets have been placed very low (fifty cents for students) and it ought to be possible to sell this year double the number sold last year. The actual expenses of handling the pictures has always been large and has eaten up all but three or four hundred dollars, about the price of a small picture. An additional two hundred and fifty tickets taken by the University students would mean one hundred and twenty-five dollars more, or half the price of a picture. The number of tickets sold should be nearer one thousand than five hundred. At (Continued on page 3.)

## Sophomore Informal Saturday, April 27th MEMORIAL HALL

EVERYBODY INVITED

ADMISSION 50 CENTS

### T. N. E. TABOOED.

#### Organization Disbanded at University of Kansas.

The following is an account as given in the Kansan of the recent disbanding of the T. N. E. fraternity at Kansas: At a meeting of the Board of Regents Thursday night where the presidents of all the fraternities were present, it developed that the regular Greek letter organizations had severed their relations with the Theta Nu Epsilon and that the present members cease to be active members of that organization.

In the course of the meeting in talking over matters affecting the good name and best interests of the University, it was found that the fraternity leaders were unanimous against certain dissolutions which are always serious problems in the student life of a university. The Board of Regents felt that the general result of the meeting was momentous for the future of the university and especially of the fraternity life of the University of Kansas.

### Professor Ross Here.

All University students will be interested in the return of Professor Ross to the city for the purpose of giving a lecture at the Oliver this evening. He will deliver an address on the "Referendum" and students are invited to attend. Admission is free.

Professor Ross left the University of Nebraska last year to accept a position at Wisconsin. He is at present rated as one of the foremost sociologists of the world.

### P. B. K. Initiation.

The twenty-nine people elected to Phi Beta Kappa were duly initiated into that august and dignified body last Thursday evening at the home of Mrs. A. J. Sawyer. Dean Davis as the president made the address of welcome and the response came from Mr. Albert Aaron. All seemed to have survived the ordeal with the retention of mental and bodily vigor.

### CONVENTION OPENS.

#### Nebraska Students' Volunteer Band Met Last Night.

The convention of the Students' Volunteer Band, of this state opened last night with a two-hour program lasting from 8 to 10 o'clock. Delegates from the various branches of the Student Volunteer Band thruout the state were present, and all were well entertained. Rev. W. T. Davis of New York spoke in a very encouraging manner of the work of the Volunteer Band and of its possibilities in the future.

The Wesleyan Quartette sang several selections in their engaging manner, while Miss Vibbard was very pleasing in her solo.

The convention lasts until noon today. The meeting this morning will be held in U. 106.

### Verge of Disruption.

A prominent member of the Chicago University faculty, who has been one of the foremost men in managing the athletics of the institution, says the "Big Nine" is on the verge of disruption.

"The formation of the 'Big Three,'" he declares, "will be one entering wedge in the dissolving process. Every college in the organization will profit by this break, as each can then seek its own level and athletic contests will be closer and more interesting. The 'Big Nine' has served its purpose, and will soon pass away."

### Nebraskans Honored.

Three Nebraska students have just been appointed to the following fellowships at the University of Chicago: John Jacob Putnam, B. Sc., chemistry; Florence Ella Richardson, A. B., psychology; Clara Jane Weldensall, A. B., psychology.

### Baseball Today.

Nebraska and Missouri will meet on the diamond this afternoon in the initial college game of the local season. The contest will begin at 3:30 p. m.

## HOME TRACK MEET

FAIR RECORDS MADE BY UNIVERSITY ATHLETES YESTERDAY.

Poor Weather and Poor Track—Two Weight Records Broken—Team to Meet Ames Soon to Be Picked.

The annual home meet of the University track team came off yesterday afternoon with a fair set of records made. The afternoon, tho much better than might have been anticipated twenty-four hours before, was too cold for fast work and this, together with the high wind tended to cut down the time in the runs. On the whole the performances proved very satisfactory and some very promising material came to light.

The 100-yard dash proved to be an exciting event since Coe and Burruss ran close; Coe led off on the start, but was later overtaken by Burruss. The time would have been better on a better track. MacDonald broke his old record in the pole vault by clearing the bar at 10 feet, 7 inches. Another very close race was the half mile in which Morgan and Benedict were the stiffest kind of competitors up to the very tape. Morgan won by a few yards. Two University records were broken and both of these by the same man, Collins. He threw the hammer 141 feet and the discus 114 feet, 10 inches. It is a matter of much regret that he will not be eligible in the meets this spring because having entered school only this semester. However, the team is not lacking in the weight events so much as in certain others.

Following is the list of events together with the winners of each:

100-yard dash—Burruss, first; Coe, second. Time, 10 3-5 seconds.

Pole vault—MacDonald, first; MacMaster, second. Height, 10 feet, 7 inches.

Shot put—Chaloupka, first; Patten, second. Distance, 37 feet, 6 inches.

Half-mile run—Morgan, first; Benedict, second. Time, 26 3-5 seconds.

440-yard dash—Burke, first; Benedict, second. Time 57 seconds.

High jump—Knode, first; Burruss, second. Height, 5 feet, 6 inches.

120-yard hurdles—MacDonald, first; Dunlap, second. Time, 17 1-5 seconds.

Hammer throw—Collins, first; Patten, second. Distance, 141 feet.

220-yard dash—Coe, first; Rughes, second. Time, 23 2-5 seconds.

One-mile run—Morgan, first; Alden, second. Time, 4 minutes, 47 1-5 seconds.

Broad jump—Craig, first; Coe, second. Distance, 20 feet, 6 inches.

Discus—Collins, first; Patten, second. Distance, 114 feet, 10 inches.

220-yard hurdles—Dunlap, first; MacDonald, second. Time, 27 1-5 seconds.

Two-mile run—Alden, first; White, second. Time, 11 minutes, 24 3-5 seconds.

During the coming week some time the team to go against Ames College next Saturday will be picked. It is not yet known just how large a team will be taken along.
