A bird's-eye view of the Lincoln Birthplace Farm as it will look when developed by the Lincoln Farm Association.

**LINCOLN FARM ASSOCIATION.**

**Opportunity to Help in Saving Lincoln's Birthplace.**

A college paper has no very broad field in which to work, perhaps, but such a movement as the one described below, it is felt, ought to receive support from every quarter. Those reading Collier's Magazine are familiar with the plan, for it has been extensively advocated in that publication, as well as in others. Here is another good opportunity for Nebraska students to get in on a good thing.

The Lincoln Farm Association was organized and incorporated under the laws of the State of New York early in the month of February, 1906, by a group of patriotic citizens, who believed that the people of our country should, thru affiliating with this organization, develop the farm in Larue county, Kentucky, on which Abraham Lincoln was born, into a national park.

The association, prior to its incorporation, acquired the title to this historic farm, consisting of one hundred and ten acres. The association hopes to develop this property into an attractive park, embellished by historical museums and properly monumented, so that it may be complete for dedication on the twelfth day of February, 1909, which will be the centennial of the birth of the great war President. The association has already recovered the cabin in which Lincoln was born.

The Lincoln Farm Association believe that the work of building this farm into a national memorial should be accomplished by the American people, and by their individual contributions, and not thru any appropriation from Congress, or thru the subsidy of large private fortunes. It should express the democratic sympathy and loyalty of the American people for and to this great President, who has so fittingly been called the "first American."

The Lincoln Farm Association is an organization of American citizens to which every one shall be entitled to membership who contributes, thru the general fund for the preservation of this historic spot, any sum not less than twenty-five cents nor to exceed twenty-five dollars. Every such subscribed shall be recorded in the membership card catalogs, which will ultimately rest in a place of honor and of

public access in one of the historic buildings to be erected on the farm. Each subscriber shall receive, immediately upon the receipt of his donation to the work of the association, a handsomely engraved certificate of membership in the Lincoln Farm Association, bearing on its face a portrait of Lincoln, a picture of the cabin in which he was born, and of the White House at Washington. It will also bear the member's name and the autographs of the officers and trustees of the association.

American youths have turned long-ling eyes toward the holy places of Europe, and visited the birthplaces of Robert Burns and Schiller, the tombs of Walter Scott and Victor Hugo, and the millennial monument of King Alfred at Winchester; while the birthplace of our matchless American—the strong-handed, clear-headed, and great-hearted Lincoln—has been left, after its acres have been impoverished by careless tillage, to become a humiliation to the poet and the historian, and the butt of ridicule to the irreverent. Pigs and cattle have reduced the basin of the beautiful spring to a mud-puddle; vandal hands have carried off the humble cabin wherein a giant soul was born, and utter neglect surrounds the first home of the great American "Man of Sorrows."

Realizing this neglect, and that this farm birthplace was to be treated with still greater indignity, by the exploitations of speculators, for vulgar show and unwholesome popularity, the association secured the farm under the auctioneer's hammer, and now holds it in trust for the nation.

It is the sole purpose of the association to help the American people to their own. The historic ground will be owned and cared for by the Lincoln Farm Association's self-perpetuating committee of patriotic citizens. To them will be entrusted the expenditure of the subsidy which the members of the Lincoln Farm Association shall raise.

The officers of the Lincoln Farm Association are as follows:

Joseph W. Folk, Governor of Missouri, president; Joseph H. Choate, Ex-Ambassador to England; Henry Watterson, Editor Louisville "Courier-Journal"; Cardinal Gibbons, Archbishop of Baltimore.

The office of the association is at 74 Broadway, New York.
