Entered at the postoffice at Lincoln, Nebraska, as second-class mail matter under the Act of Congress of March 3, 1879.

MATERIALISM.

Some University students take a strange attitude toward the world, and certain brainy men declare there is a growing tendency on the part of all people, especially of this country, toward this spirit. To hear these individuals converse, one would suppose they considered the great and ultimate thing in life to be the attainment of the position where they can buy a big red touring car. With that they can ride straight to heaven!

Unquestionably,—speaking seriously,—there is a tendency on the part of all University students, no matter in

work without seeing over it all a tinge of the golden. That sunset color is all very good in pictures and poetry and elsewhere so long as it does not give the tone of artificiality.

Of course, if the possession of a fine brick house with all the fixtures,—porcelain plunge, flunkies to regulate the taps and hold a bunch of feathers stuck in the end of a pole over your head, perchance—constituted happiness, this attitude would be quite commendable, but somehow the genuine brand of satisfaction can not be rubbed in from the outside. And it is the business of the university to prove that fact, too.

Interclass Baseball.

The interclass baseball games will begin with the Freshman-Sophomore game next Tuesday afternoon at 1 o'clock. The Junior-Senior game will be played on Wednesday afternoon. A great deal of interest is being shown in the outcome of these two games, and the championship game to be played off by the respective winners on the following Thursday or Saturday promises to be an unusually fast contest.

Among the old University people visiting on the campus yesterday were J. E. Bednar, C. E. Temple, Emma Wilhelmsen, Louise Van Camp, H. M. Garret, F. R. Beers from Beatrice; A. Craigo, from Tobias; F. M. Hunter, of Fremont; Alma Vanderveer, of Ashland, and L. O. Crocker, of Pawnee City.

Work in the Field Geology class has been completed for the semester. There will be no other studies assigned. Several of the advanced students from this department are assisting in the University.

At the Picnic.

Ski Hi,

of the biggest, brainiest, most substantial men in business and the professions look upon the world through glasses. It simply shows rapid advance in the science of optics and the good sense of the American people. We shall be pleased to demonstrate the efficacy of proper glasses to any who need them.

HALLETT, GRADUATE OPTICIAN, 1143 O ST.
Established 1871. Eyes Examined Free.

what department they are working, to look at the life outside the iron fence from a standpoint altogether too full of materialism. Not only do engineers and lawyers and doctors picture too often as the ideal life that which includes a luxurious office and a bumper income, but too many teachers, professors and preachers nowadays gauge the degree of success they are achieving simply by the amount of hard cold coin they are attracting. The great point to be watched is the outlook for remuneration. It is not exceedingly strange we have not produced very many great geniuses like Mr. Angelo and Mr. Shakespeare. Those gentlemen could look at their

The "Cream" Side.
