**The Harvard Medical School, Boston, Mass.**

With the completion of the new buildings, which were dedicated September 25th, 1906, this school now has facilities and equipment for teaching and research in the various branches of medicine probably unsurpassed in this country. Of the five buildings, four are devoted entirely to laboratory teaching and research. The numerous hospitals of Boston afford abundant opportunities for clinical instruction in medicine and surgery.

**COURSE FOR THE DEGREE OF M. D.**

A four years' course, open to bachelors of art, literature, philosophy or science, and to persons of equivalent standing, leads to the degree of M. D. The studies of the fourth year are wholly elective; they include laboratory subjects, general medicine, general surgery and the special clinical branches. The next school year extends from September 26, 1907, to June 29, 1908. Send for illustrated catalogue; address
