Entered at the postoffice at Lincoln, Nebraska, as second-class mail matter under the Act of Congress of March 3, 1879.

REAL WORK.

Now that registration is over except for the few who from one cause or another did not register during the prescribed period, it is up to everybody to get busy. There are not many things in this world the equal of getting a good start. This is especially true with students starting out in a long college course and in many cases it is the start as much as anything else that determines just what the student is to be during his four or six years of college life. If his initial effort is as it should be, if he is thoroughly impressed with the primary importance of his studies and the comparative unimportance of other things, he is sure to be a success as a student. And while there are many things outside of the lecture room that it is well to know, they may be very easily and profitably attended to after the college work is done. It is not expected of the Freshman that he be as wise as the ordinary Sophomore or as important as the ordinary Junior or yet as dignified as the ordinary Senior, but it can be reasonably expected and will be demanded by

Football Notes.

Football practice brought out four teams Saturday. The afternoon was spent in signal work and in light scrimmage, while a quiz on the new rules was held by Coach Cole in the evening.

Neither Coach Cole nor Captain Weller have much to say about the prospects for a championship team, but each declares that a large squad of men is necessary to make a winning eleven. It is realized by both that the candidates for the end and back positions are too few in view of the hard schedule which has been arranged for this fall.

Lloyd Denslow has registered and will be out for practice today. "Mike" has played end on the Varsity two years.

Sommerhalter, the giant guard from the Lincoln high school, has entered the University. Altho "Helne" is not eligible to the Varsity, he will be a tower of strength for the Freshman team.

A New Dynamo.

One of the summer's improvements which the chemistry students will appreciate is the installation of an electro-chemical work. A 6 volt, 120 ampere dynamo, designed for the electric deposition of metals has been mounted in the attic of the chemistry building, with a switch board controlling circuits to several of the laboratories.

Chemistry Notices.

Chemistry 15 will meet for organization in Chemical Library at 5 p. m., Tuesday.

Chemistry 29 will meet Wednesday at 4 p. m. in Chemical Library to determine on a permanent class hour.

Roman Law.

All students desiring to read Roman Law (37) will please meet me briefly in room 205, U. H., on Tuesday at 4 p. m., to decide upon an hour for recitation. GROVE E. BARBER.

Chemistry Meeting.

There will be a meeting of the Chemical Club Thursday, Sept. 26, at 5:00 p. m., in the chemical library. Every member is urged to attend.

Will the person who took the black telescope hat from the cloak room of the Library, Saturday night by mistake please return same to Nebraska office?

All football men who have drawn equipment and who do not intend to use it are requested to return same at once. Other men want to use it.

H. R. Bull asks that the man who borrowed his Waterman fountain pen and forget to give it back leave same at office of Daily Nebraskan.

Professor F. M. Fling, will speak at chapel today on, "A World Crisis."

New Brown Telescopes

The toppest Hats ever—toppy for your head you know. Genteel enough, yet distinctly collegiate—see? All \$2.50. Why pay more?

BUDD, \$2.50 HATTER

his professors that he tend strictly to business.

It is a trifle difficult at first to know exactly what is expected of one in a large school like "Nebraska," but if one continues to apply himself diligently it soon begins to dawn upon him that good, honest work is about all there is to it. A word further in this connection might well be added, it is often possible for the path of a Freshman to be smoothed and made easier by a bit of judicious advice or a kindly word from a student of one of the other classes. To assume such an attitude would cost the upper classman but little effort and would no doubt be greatly appreciated by the new students.

J. W. Roberts, Lit. 1904, has returned to the University to specialize in botany. Mr. Roberts is a member of the Alpha Theta Chi fraternity.

—our clothes are the clothes a college man should wear.

—we've garments designed especially for young men who know what style is and who want the very latest.

—the lines and general shapeliness of these attractive suit models are very graceful—they are suits that are full of fire and snap.

—come, let us prove to your entire satisfaction, that you get the most clothing value for your money at Lincoln's greatest clothing and shoe store.

—swell styles in young men's and young women's Fall and Winter Footwear.
