

The Daily Nebraskan

Vol. VII. No. 3.

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, SEPTEMBER 25, 1907.

Price 5 Cents.

IS NOT A FRIEND

DR. FLING HAS NO FAITH IN JAPAN'S FRIENDSHIP.

Distinguished Professor Declares That the Orientals Will Not Hesitate to Seize the Philippines.

Dr. F. M. Fling spoke in a very interesting manner on "A World Crisis" at Convocation yesterday morning. He urged students to get a more comprehensive view of life and not to consider a college education as a struggle merely for a diploma. Studies here are only means toward ends. We should know what the world is like, what the problems are, and what the future may have in store.

Today we are in the midst of a world crisis and are passing thru one of the most complex. It is one of the most comprehensive crises because it concerns the most people. In the Greek world six or seven million people were effected, but today a billion and a half are effected. A crisis in the past effected just one side, religious or political, but today it effects every side. There is a world-wide struggle between labor and capital, between old despotisms and new democracies. The religious world crisis is similar to that of two thousand years ago. There is a growth of brotherhood, but underneath is one common spirit showing that a world religion is growing up.

Dr. Fling spoke especially of the formation of a world-state from a political side. Starting around the Aegean Sea, spreading around the Mediterranean and thru Europe, the great mass of people of the globe form the largest part of the world society. Rome broke up and took in Europe, and the whole area expanded and grew larger. The world is smaller today than that of the Mediterranean basin because it is closer together and bound thus by railroads, the printing press and the telegraph.

As the organization of the white race grew more perfect; as the world became more unified and a world state seemed a possibility, the Russo-Japanese war broke out. This was of supreme importance and will probably be regarded in the future as one of the world's greatest wars. The hordes of Asiatics, by the results of this war, were aroused. Already the cry of "Asia for Asiatics" is arising.

The white race now controls Europe, North and South America and Africa. As the crowded Asiatic countries awaken it is inevitable that they will push out into surrounding countries—into India, into the Philippines, and into the Hawaiian Islands. The only way to be safe is to be prepared for war. In recognition of the changed conditions a fleet will have to be kept on our Pacific coast; we must be prepared to defend possessions.

At the present time the yellow race and the white race are about evenly

SEASON - TICKETS

FOOTBALL SEASON TICKETS NOW ON SALE AT HARRY PORTERS AND THE CO-OP

\$5.50 season tickets (grandstand) for.....\$4.00
\$4.25 season tickets (bleachers) for.....\$3.00

A large picture of Capt. Weller and a vote for athletic board free with reserved seat tickets.

FOOTBALL TICKETS.

Announcement of Prices for Single Admissions.

Manager Eager has given out the following schedule of prices for single admission tickets to the football games this fall:

Peru—Bleachers 25 cents, grandstand 25 cents.

South Dakota—Bleachers 50 cents, grandstand 50 cents.

Grinnell—Bleachers 50 cents, grandstand 75 cents.

Colorado and Ames—Bleachers 50 cents, grandstand, three center sections \$1.25, others \$1.00.

Denver—Bleachers 75 cents, grandstand \$1.00.

Doane—Bleachers 25 cents, grandstand 50 cents.

Season reserved seat tickets sell for \$4 and season bleacher tickets for \$3. By purchasing season tickets \$1.50 is saved on the reserved seats and \$1.25 on the bleachers.

IOWA ATHLETICS.

A Good Revenue Furnished by the Different Sports.

The financial statement of Coach Marc Catlin of the State University of Iowa, shows that the season of 1906-7 was the most prosperous from a financial standpoint of any year in the history of the athletic association. The football team made in the neighborhood of \$5,000, the baseball team lost \$300 on the season, the track team lost \$292, basket-ball earned \$35 and tennis lost \$50.

The results of the season made it possible to pay off all of the existing obligations, leaving a balance on hand of \$2,405. It is not expected that the present season will be nearly as successful from the financial standpoint. It is interesting to note that the gross receipts of the Iowa-Ames game were \$3,346.20, of which each team received half, while the gross receipts of the Iowa-St. Louis University game were \$4,275, of which sum Iowa received one-half.

Miss Carr, storekeeper of the Chemistry department, has accepted an offer of a position in the University of California at Berkeley, and will leave here about October 1.

The Palladian Society will give a reception to new students Friday evening in room U. 106.

Earl Hill, Law 1907, is practising law at Central City.

PUSHBALL CONTEST.

May Supersede Annual "Rushes" at Iowa.

Next Saturday will mark the establishment of a new custom at the State University of Iowa, and one which it is believed will supersede the old class scraps of former years. In place of the regulation fight for the possession of some coveted vantage point or emblem, the members of the freshman and sophomore classes will engage in a game of pushball on the Iowa field, under rules and regulations laid down by a faculty committee. It is planned now to have the contest judged by some regular army officer, probably from Fort Des Moines.

Pushball is a comparatively new sport in Iowa, the mammoth spheroid now on exhibition at the university armory probably being the first to be brought into the state. The game is played on a regular football gridiron with a ball seven feet in diameter, inflated in the same way that a football is inflated, and covered with cowhide. As many men can play on a side as desire to, the object being to push the ball over the goal line of the opposing team.

Athletic Notes.

The sale of football season tickets has been very slow so far this year, but the management expects a marked increase in the sales by the last of the week. With each season ticket a large blue print of Captain Weller is given. The price of season grandstand tickets has been lowered to \$4 and bleacher tickets to \$3.

Those holding tickets entitling them to a vote on candidates for the Athletic Board last spring may turn them in on any quarter athletic event or they may be applied on a season ticket to the amount of twenty-five cents.

Ben Cherrington, former physical director and managing secretary of the Y. M. C. A. at Wesleyan University, has entered school for regular collegiate work in the Sophomore class. Mr. Cherrington was prominent in debate while in the Omaha High School.

Until October 5 the Regents' Book Store in the basement of the Administration Building will be open from 7:30 a. m. to 6 p. m.

Samuel M. Rinaker, who was awarded the Rhoades scholarship last year, sailed from New York for Oxford Saturday.

Y. M. C. A. WORK

GREAT PROGRESS AMONG THE COLLEGE SOCIETIES.

International Student Secretary Hurrey Tells of Advance in This and Other Countries.

According to the statement of International Y. M. C. A. Secretary C. D. Hurrey, the last few years have witnessed a remarkable progress and development in Y. M. C. A. work among the college students of the United States and foreign students of the United States and foreign countries. Mr. Hurrey, who has followed the Y. M. C. A. advancement abroad and whose field of operations in this country includes the territory from the states of Ohio and Michigan to the Pacific Coast, says that every department of the work has shared in the wonderful development.

In the Bible study department of the college organizations a market increase has been made in the number of students who participate in class studies. Last year the number of student members of the Bible classes grew to 30,000, and Mr. Hurrey expects it to pass the 50,000 mark this year. The growth of Bible study among the fraternity men of the universities has kept pace with the general increase.

The buildings department of the Y. M. C. A. has had a boom which has resulted in the erection of many new buildings.

Y. M. C. A. buildings have been erected at many of the western institutions of learning during the past few years and several more are being planned for construction in the near future. A list of the colleges and universities showing the cost of buildings recently erected is as follows:

University of Illinois, \$100,000; State Agricultural College at Ames, \$50,000; State Agricultural College at Manhattan, \$35,000; University of Wisconsin, \$75,000; Agricultural College of Oregon, \$25,000; University of Missouri, \$50,000; Agricultural College of New Mexico, \$10,000.

In foreign countries the American secretaries have pushed the Y. M. C. A. work during the last few years and many new buildings have been constructed. At Tokio, Japan, there is a \$50,000 association home which has done much good in helping on the work among the Japanese. A Russian cathedral at Port Arthur, where Mr. Hurrey recently visited, is used for a Y. M. C. A. building. A gift of \$1,000 for the remodeling of this structure was made by the Emperor of Japan to show his appreciation of the work done among the Japanese soldiers by members of the association.

The Y. M. C. A. movement is also making rapid strides in China. At Tien Tsin a thriving association has been built up and the business men of Shanghai have just completed a \$50,000 building in that city. The
