A NEED.

One of the most pressing needs of the present, in relation to football, is a collection of good songs. Nebraska has a number of good songs, but these songs like other things have a decided tendency to outlive their usefulness. What is wanted now is something new and snappy; songs that will inspire enthusiasm spontaneously. There is plenty of talent in the student body to supply this acknowledged need, the difficulty lies in interesting the talented ones in this direction. In the past liberal treatment has been accorded those loyal students who have responded to appeals of this kind and without question the same policy will be followed this season. The subject should not, nor is it generally, one in which the matter of renumeration plays a prominent part, but rather the apirit of loyalty to the school should prompt the students to meet emergencies of this kind. Everyone realizes how useful for rooting purposes a few fine songs would be. We appreciate this better when a visiting squad of rooters "spring" a good football song on us here and force us to acknowledge that Chicago Alumni Notes.

Nebraska students should "ginger up" and not allow any college in the West to out do us in anything that evidences general interest in the wellfare and prospects of the institution. The Nebraskan would urge that immediate action be taken to secure at least one new song before the Colorado game. It should be remembered that there is no time for delay inasmuch as the Colorado game is a week from Saturday and some practice on the songs would be essential.
