Entered at the postoffice at Lincoln, Nebraska, as second-class mail matter under the Act of Congress of March 3, 1879.

For the benefit of those who want to get into the library without being interfered with by the women or buttonholed by politicians in the lobby, it may be stated that a safe way of approach is by the basement door, coming up stairs on the inside.

Registration at the University of Missouri will probably take a marked falling off in the number of male students. The whole county in which the school is situated has gone dry and a migration of the men is expected any time. Whether prohibition will effect the female element remains to be seen. It is hoped that none of the migrants will come to Nebraska. We need no college tramps and there are plenty of "boozers" around here already.

edly the beginning of a great step in our system of higher education. The university will always be more or less of a "jobber of professors." When the proposed plan of exchanging publications is carried out some of the schools who are paying inadequate salaries will lose their good men even sooner than at present.

The Palladian Literary Society will not hold their regular meeting Friday night on account of commencement exercises. On Saturday evening a valentine party will be given. A good time is assured to all.

**Baseball Begins.**

The number of embryo baseball players who reported at the gymnasium Wednesday was not satisfactory to Captain Bellamy. If Nebraska is to have a winning team this season, freshmen and others who can play ball at all, must be on hand at practice hours. To enable a captain to pick a successful team, the material must be plenty and willing. All men who have ever played ball of any sort, or ever expect to play, should come out and give themselves and the University the benefit of whatever ability they possess.

The gym will be open to players after next Monday from 12:00 to 2:00.

The Students Debating Club meets Saturday, February 15, in U 106. The following question will be debated: Resolved: That a technical education is a better preparation for business than an academic education. L. S. Legro and A. M. Hare will maintain the affirmative and F. S. Copeland and C. B. Hall will argue the negative. Visitors are always cordially invited.

At the recent meeting of the American Nature Study Society in Chicago,

**FLEECE UNDERWEAR**

I bought two big cases—48 dozen—winter underwear at about half price. I'm going to sell it at half price—underwear the average store gets from \$1.00 to \$1.25 a suit for, I will sell at

**65c a Suit**

This will help keep Budd from going bankrupt

**BUDD, \$2.50 HATTER**

When the town of Columbia voted "dry," Professor Jesse announced a holiday for all students. Dr. Cole, the leader of the temperance campaign, said that "next to the women, the efforts of the University students deserve most praise." This can be easily accounted for. The women and college students are two classes of people who suffer the worst effects of the saloon.

Are you planning to stay at home and make up some work Charter Day? Don't do it. A man who recently participated in a friendly debate laughingly said of himself that he spoke without prejudice because he entered the discussion with no previous knowledge of the question; he had laid the document under consideration aside and intended to read it Charter Day. Now, if that man had done his reading when it should have been done he would have debated more intelligently and Charter Day would be a day of vacation as it is intended to be.

The co-operative movement among the universities of Europe and America to secure close relations is undoubt-

Dr. Ruth Marshall of the University was elected a director and member of the council. The society is a national organization for the purpose of developing and correlating work in nature study, both with other work in the schools and with practical affairs in life. The Regents appointed Dr. Marshall last fall to organize work in nature study in the University and a course in that subject being offered by correspondence and also another course by residence during the present semester.

Dr. Marshall has been requested to edit a Nebraska number for the Nature Study Review, indicating the evident importance of this work in our state and the leadership of Nebraska in this work.

Applied Mechanics '14, under Professor Chatburn, was so large that it had to be divided into two sections. Mr. Brenke of the Mathematics department is in charge of the second division.

"Sid" Collins sustained a serious ankle injury while trying out for the relay race yesterday afternoon.
